

Chartwells at School Town of Munster

As we finish off the 2023-2024 school year, we love to see how many meals we served throughout the year. This year we served over 70,000 breakfasts and over 395,000 lunches! This would not be possible if it was not for our school lunch heroes! On May 3rd, we took the day to celebrate our heroes even though we believe they deserve to be celebrated everyday! We cannot thank you enough for keeping our students happy and healthy!

Munster High School and Wilbur Wright Middle School celebrated the summer by having a luau themed lunch! Students had Teriyaki chicken with roasted pineapples, Aloha Pizza, and Pulled Pork sandwiches.

Chartwells offers an awesome program called *Mood Boost*, that explains how different foods can affect our moods! Dietitian, Erin West, put her own spin on it. She had students at the elementary schools sample two foods from *Mood Boost* and allowed the students to vote on which sample they liked the best. The two samples were a cucumber apple salad and roasted cinnamon pineapples. At each elementary, roasted cinnamon pineapples was the clear winner and was featured on the student's lunch menu!

Global Eats

Global eats made it to its last destination, the Caribbean! Munster High School Students got to try Jamaican Jerk chicken thighs with arroz con maiz and Puerto Rican chicken drumsticks with Cuban rice and beans. The students loved the exoctic flavors and the staff enjoyed the challenge of new complex recipes!

The end of the school year calls for a lot of catering events as well as concessions! Chartwells catered events for the district such as Teacher Appreciation week, Teacher Hall of Fame breakfast, Diversity Dinner, and much more. Chartwells also provided concessions for track & field, boy's volleyball, and baseball sectionals. All of our employee's hard work and dedication to our district does not go unnoticed!
