

Lower School Chromebooks at Holton-Arms – Family Owned and School Managed Program

Dear 7th Grade Families,

For the 2024-2025 academic year, Holton-Arms will continue its 1:1 Chromebook program in Lower and Middle school. The Chromebooks are a powerful tool for learning. They provide the functionality and access to information that help bring learning to the forefront. We ask that all NEW Grade 7 families purchase a new Lenovo 500e Chromebook that will be family owned and school managed.

What to buy:

We are requiring parents to buy a new [Lenovo 500e Chromebook](#) with a full accidental breakage warranty, which guarantees minimal disruption should the computer malfunction or is damaged in any way. Each bundle will include the Chromebook with a stylus and a 4-year accidental breakage warranty.

When to buy:

All Chromebooks must be ordered no later than July 05, 2024.

Where to buy:

Families must purchase through DSR Computers. Purchasing through the same vendor allows the school to manage the Chromebooks through the Google Workspace Admin portal. DSR will ship the Chromebooks to Holton, where we will configure the device, add it to our Google domain, and prepare to distribute them at the start of school.

DSR Computer Sales & Service

Please visit the following web address to place your order online:

<https://info.dsr-inc.com/holtonarms2024>

**** You will not be charged immediately, DSR will contact you directly through email with an order confirmation and payment instructions within one business day. ****

For questions or phone orders:

Primary Contact: Donnie Orndorff 800-875-0037

If Donnie is not available when you call, please press zero to be connected with someone else at DSR who can help.

Tech Help

Our Library/Technology Department is here to help with student technology problems. In the event of a problem with your Chromebook during the school day, your student can visit the technology office in the Susanna A Jones Learning Commons or email help@holton-arms.edu. Issues can typically be resolved quickly. If more time is needed, or a machine needs to be sent out for repair, your student may be given a loaner to use until the issue has been resolved.

Please feel free to contact us if you have any questions or concerns.

Regards,

Mike Robertson
Director of Libraries and Information Services
