February 1st  
Rock the STAAR Night for 3rd, 4th, and 5th Graders 5:30-6:30 PM  
We will discuss a short presentation and answer any questions you might have about the upcoming STAAR test. STAAR assesses the standards/skills set forth by [TEA \(Texas Education Agency\)](#)

If you have questions about the standards/skills being taught, please don't hesitate to schedule a parent conference. It's important you have an understanding of the depth and rigor of our state standards so you can support/encourage at home as well. We want your child to master the skills necessary to be successful in their grade level but also successful in the future.

Thank you for supporting your child's education and our school.
