

Operational Services

Administrative Procedure - School Bus Post-Accident Checklist

Driver Post-Accident Procedures

1. Immediately after an accident:
 - Activate the hazard lights
 - Place the transmission in neutral and set the parking brake (manual) or place in park (automatic)
 - Turn off the ignition and remove the key
 - Locate and place the warning devices
2. The first consideration is whether it is safer to evacuate the students or to have them remain on the bus. 23 Ill.Admin.Code §1.510(1)(1).
3. Check for injuries, using the passenger list (if available) to indicate injuries. Immediately notify the pre-designated emergency and police services, and administer first aid. As soon as possible, notify the District or transportation office.
4. Don't leave students unattended and/or unsupervised. However, if you must leave to attend to the vehicle or warning devices, leave a responsible student in charge.
5. Check for conditions that could cause fires, including a ruptured fuel tank, leaking or broken fuel lines; and/or hot tire, etc. *Do not touch a suspected hot tire.* Place your hand near it to see if heat is radiating off of it.
6. When notifying the District or transportation office, give the following information:
 - Seriousness of the accident
 - Location and time of accident
 - Bus number and route number
 - School
 - Number of students on board
 - Extent of any injuries
 - Condition of vehicle
 - Weather/road conditions
 - Any other pertinent information
7. Stay with the children until help arrives. Do not release any student, even to parents, unless instructed to do so by police or the District or transportation office. Parents/guardians are not allowed on the bus.
8. Stay vigilant for the continued safety of everyone at the scene and:
 - Never** attempt to direct traffic.
 - Never** move the vehicle before the police arrive, unless absolutely necessary to avoid a traffic hazard.
 - Never** discuss liability or fault, or sign anything until someone from the District or transportation office arrives. Do not discuss details of the accident with the media.
 - Never** move an injured person unless the person's life is in jeopardy.
9. Cooperate with law enforcement. Provide concise and clear answers and details. Give your name, address, driver's license and bus driver permit numbers.

10. If your vehicle strikes an animal, continue until it is safe to stop, keeping in mind that the sight of an injured animal could upset the children on the bus. Park the vehicle and radio or call the District or transportation office with the information. The office will notify the proper authorities.
11. The District or transportation office, when notifying the school, may suggest that personnel follow-up with students to minimize trauma or emotional after-effects.

Information Gathering

While at the accident scene the driver and/or transportation supervisor shall:

1. Obtain the name, address, date of birth, and seating position of every passenger on the bus.
2. If possible, obtain the names, addresses, driver's license numbers and phone numbers of any witnesses.
3. Regarding other vehicles involved in the accident, obtain the:
 - Other drivers' names
 - Other drivers' license numbers
 - Other drivers' addresses and phone numbers
 - Make, model, year, and license plate numbers of other involved vehicles
 - Other drivers' insurance carrier information
 - Name, address, and phone numbers of passengers in other involved vehicles

SEDOL Responsibilities

The Assistant Superintendent of Business or designee shall:

1. Confirm that police and emergency services as appropriate were notified. An ambulance must always be called to the scene of the accident. Children must be observed on the scene by medical personnel and released by the proper authority. A district representative or SEDOL designee must sign the release form to continue the bus route for the students. The SEDOL designee can also determine if the child should be taken to the hospital instead of continuing on the bus route.
2. Send a SEDOL supervisor or nursing staff member to the accident scene to assist the bus driver.
3. Arrange for the parents of children on the bus to be contacted.
4. Arrange alternate transportation for the children.
5. Contact the District's insurance carrier as soon as possible and follow its instructions.
6. Help the bus driver complete accident report forms, including insurance forms. Complete the Ill. State Board of Education's *School Bus Accident Report*, www.isbe.net/Documents/50-26_school_bus_accident.pdf, and forward to the Regional Superintendent immediately after any accident.
7. Obtain any accident reports completed by third parties, including police reports.

Post-Accident Alcohol and Drug Testing

1. This section's provisions are required by 49 C.F.R. §382.303. For drug and alcohol testing requirements, see Board policy 5:285, *Drug and Alcohol Testing for School Bus and Commercial Vehicle Drivers*; and administrative procedure 5:285-AP, *Drug and Alcohol Testing for School Bus and Commercial Vehicle Drivers*.
2. School bus drivers shall be provided the necessary post-accident alcohol and drug testing information, procedures, and instructions before operating a bus.

3. As soon as practicable after an accident involving a school bus, the driver shall be tested for alcohol and controlled substances if:
 - a. The accident involved the loss of human life;
 - b. The driver receives a citation for a moving traffic violation arising from the accident; or
 - c. A law enforcement officer directs that such a test be given. 625 ILCS 5/6-516.
4. If a required alcohol test is **not** administered:
 - a. Within two hours, the District must prepare and maintain a file or record stating why the test was not properly administered.
 - b. Within eight hours, the District shall cease attempts to administer an alcohol test and shall prepare the same record.
5. If a required controlled substance test is **not** administered within 32 hours, the District shall cease attempts to administer the test, and shall prepare and maintain a file or record stating why the test was not properly administered.
6. No driver required to take a post-accident alcohol test shall use alcohol for eight hours following the accident, or until undergoing a post-accident alcohol test.

Vehicle Inspection

Following an accident, each damaged bus component must be inspected before the bus is returned to service. 625 ILCS 5/13-109.

Vehicle Accident

Upon notice of a vehicle accident, the SEDOL Superintendent's office and the parent/guardian of the student involved must be contacted.

The Assistant Superintendent of Business or designee shall:

1. Notify the appropriate supervisor/principal, providing complete information about the student involved. The supervisor/principal and school nurse (if available, but necessary for accidents involving Laremont students) will go to the scene of the accident, bringing emergency forms along, if possible.
2. Notify the special education administrator of the student's district of residence. If applicable, notification should be made to the sector classroom teacher and the principal of the school the student attends.

SEDOL Administrators and personnel at the accident scene will assess the situation and determine what action will be taken relative to the students involved. The supervisor/principal or school nurse will accompany students to the hospital and remain with them until such time as a parent assumes responsibility.

The SEDOL Administrator and personnel shall observe the following notification guidelines:

1. Communicate with parents as they would want to be treated if the situation were reversed. The factors of the accident dictate the information to be provided. Do not provide any data unless you are sure it is accurate. It is better to say you don't know, than to provide questionable information.
 - a. If the decision is made to take student(s) to the hospital, parents will be informed that their child (by name) has been in a vehicle accident. If it was decided that their student should be taken to the hospital for observation or treatment, inform the parents of the name of the hospital and the time the child was taken to the hospital.

- b. If the decision is made to take student(s) to school/home, inform parents that their child (by name) has been in a minor vehicle accident and that “We have taken child (by name) to school/home. The staff will monitor (name of student) for any post trauma. If you have any concerns, please take your child to the hospital and/or your doctor.”
2. Inform SEDOL staff (teacher/nurse if available) of the following:
- a. The student has been involved in a minor vehicle accident;
 - b. The student is being transported to school; and
 - c. The student needs to be monitored. If there are any signs of post trauma or student physical complaints, inform the supervisor and nurse, if available.
