

8th Grade Summer Math Packet:

The summer math assignment will be on Aleks. It will be the same assignment for all levels of math, but the better your mastery of math concepts is, the more challenging the topics will be.

***Please do NOT push “Don’t Know” through the whole knowledge check or get help from others on the knowledge check. If you do either of these to get through the knowledge check, it will not be a true picture of your ability and mastery.**

Students who have not used ALEKS before must create an account.

1. Use Google Chrome and go to <https://www.aleks.com>
2. Use the credentials I have emailed you to login
3. Complete the initial knowledge check
4. Once completed, you are expected to work as far as you can throughout the summer but at minimum 50 topics by August 12th (I recommend completing about 10 per week)
5. Please do not procrastinate.

Students who have used ALEKS and already have an account:

1. Use Google Chrome and go to <https://www.aleks.com> and login to your account. If you have issues logging in, email me at hsnyder@trinitywildcats.com and I can help you out!
2. Complete the initial knowledge check
3. Once completed, you are expected to work as far as you can throughout the summer but at minimum 50 topics by August 12th (I recommend completing about 10 per week)
4. Please do not procrastinate.

Feel free to contact me via email regarding your assignment.

Email: hsnyder@trinitywildcats.com

I will do my best to respond within 24 hours, unless I am out of town.

A review and quiz will be given the first week of school on the concepts covered by the majority of the students on this assignment.

Have a great summer! Have fun, be safe and make good choices. See you in August.
