Program Details

**JACKSON CO SCHOOL DIST (3000) Public District - FY 2021 - Elementary and Secondary School Emergency Relief II - Rev 0 - Elementary and Secondary School Emergency Relief II**

\* 1. Please describe how your LEA identified the most important educational needs resulting from COVID-19?

The JCSD convened several meetings at the onset of school closures due to the COVID-19 pandemic. Weekly Administrative Team meetings have been held, which included the following personnel members: Superintendent, School Board president, Curriculum, SPED, CTE, CNP, Federal Programs/Student Services, Business Office, HR, Technology Directors, and all 13 school principals.

Moreover, a smaller group meeting was completed after receiving knowledge of the distribution of ESSER II (CRRSA) funds for local LEAs. This small group consisted of the JCSD Superintendent, the Central Office Administration Director, Assistant Superintendents from all three attendance centers, the Business Manager, Assistant Business Manager, SPED Director, Human Resources Director, Director of Information Technology, and the JCSD Federal Programs team, comprised of the Federal Programs Director, Federal Programs Coordinator, and the Federal Programs Grant Accountant. Information from this meeting was also forwarded to the JCTC CTE Director, who was unable to attend due to a prior meeting. Each department represented in this meeting reviewed I-Ready diagnostic data, classroom assessments, state test scores, district benchmark assessments, virtual learning curriculum needs, and a school property assessment report for all schools/facilities within our district.

The JCSD group met and discussed several areas of need to include the following:

1. A need to provide additional intervention services for students with various disabilities,
2. A need to remediate all students' to ensure closure of academic gaps
3. Numerous COVID-19 related construction projects to include, but not limited to, HVAC, Carpet Replacement, Window Replacement, and Classroom Expansion
4. Recuperation of district funds utilized to purchase PPE supplies and/or equipment.
5. Funding of COVID-19 subs to ensure that all schools are able to service students in the event of a COVID-19 outbreak

6. Stipends for Summer Learning instructors and tutors
7. Stipends for Summer PD to develop online curriculum for remote learning.
8. Addition of teacher units to serve as teachers or interventionist for general education student populations.
9. Additional nursing staff.
10. Additional Instructional Coach staff member to address learning loss in the area of math.
11. Purchase of intervention software to address achievement gaps.

\* 2. Please share LEA's proposed timeline for providing services and assistance to students and staff.

Once the FY21 ESSERII (CRRSA) funds are received by the Jackson County School District, recommendations for nurses, teachers, interventionists, tutors, summer school personnel, and summer curriculum development teachers will be placed on the School Board agenda. These personnel members will begin providing services as soon as the 2020-2021 school year and certainly for the 2021-2022 school year for all students and staff in all three attendance centers. More explicitly, these remedial academic and curriculum development services will be provided beginning with the summer of 2021 and go through the end of the summer 2022. (summer STEAM camp and summer school for middle school). The instructional coach, teachers, nurses, interventionists, and tutors will be added beginning the summer of 2021 and extend through the summer of 2023, or as long as funds are available. Additionally, educational technology and intervention software and/or renewals will be encumbered as soon as the FY21 ESSERII application is approved and funding is available in preparation for the beginning of school.

During the first week of school, diagnostic assessments will be administered to all students in grades K-12, and intervention groups will be formed to meet the academic needs of all students. All interventions will be provided to all students throughout the 2021-22 school year. If carryover funding is carried over and available for personnel during the 2022-23 school year, intervention/remediation services and any other ESSER-funded activities will continue. All interventionists provided for students with disabilities will have an opportunity to be trained in July of 2021 and at the onset of school, they will begin reviewing diagnostic data, providing services for students, and continue the cycle of progress monitoring every four to six weeks.

Funding will also be utilized to ensure that CDC and/or MDE distancing guidelines are being met, such as the development of outdoor classrooms and other technologies that reach several students in a larger space. All construction enhancements throughout the district will commence as soon as FY21 ESSERII funding is available,

and may begin as early as June 2021 and will end no later than September of 2023.

\* 3. Describe the extent to which the LEA intends to use ESSER funds to promote remote learning and to support ongoing remote learning.

Currently, all teachers will engage in Summer training to develop curriculum for an online Learning Management System. Laptops will be purchased for interventionists to utilize remotely and in-person to administer curriculum to students online and in-person. Moreover, student laptops will be purchased to ensure that all students have access to technology to increase learning. Teachers will also participate in professional development opportunities that increase overall teacher efficacy in the online learning management system and their ability to effectively use technology to deliver creative, meaningful instruction in an online learning environment. The development of curriculum for the online learning management system will be provided during the Summer of 2020-2021 and will aid teachers and students both in-person and remotely through the addition of a variety of learning resources formatted for both learning environments. Technologies will also be purchased for to improve distance learning and STEAM opportunities for students. Lastly, all construction projects will be used to enhance building structures that will aid in providing continued safety, better air quality, social distancing, and other health-enhancements that will improve students access to a quality learning experience.

\* 4. How will your LEA assess and address student learning gaps resulting from the disruption in educational services?

JCSD will assess each student at the beginning of the 2021-2022 school year using various diagnostic tools, and re-assess them during the 2022-2023 school year if carryover ESSERII funds are available for usage. Once students are assessed and academic gaps revealed, local schools will form intervention groups and assign interventionists, teachers, and/or tutors appropriately. Additionally, summer school teachers/tutors will also be utilized to provide compensatory and remedial services. It has also been decided that students in at-risk populations will be targeted for summer learning opportunities and will benefit from summer curriculum development. Teachers of at-risk populations will be encouraged to participate in summer curriculum development.

\* 5. Describe how the LEA will utilize CARES Act funding to target additional supports and services for at-risk student populations (English Learners, Students with Disabilities, Native American Students, Low-Income Students, Student

with high mobility, and Homeless/Foster Children).

The JCSD will utilize both FY20 ESSER I (CARES) and FY21 ESSER II (CRRSA) funding to support all at-risk populations to increase intervention, remedial, and compensatory services to ensure that any and all learning loss is addressed. Students in both who are transient, in Foster Care, or identified as homeless will benefit from summer learning opportunities as their peers. These funds will also provide these students with access to facility upgrades that will benefit all students and staff members with an improved learning environment that is both safe and healthy. Teachers, tutors, and interventionist will have an opportunity to develop effective curriculum to meet the academic deficits diagnosed for each of the above-mentioned at-risk groups.

\* 6. Describe how your LEA will ensure that all eligible students, teachers, and other program beneficiaries have an equal opportunity to participate in any project or activity carried out under the ESSER program. (20 U.S.C. §1228(a)(1)

All students, teachers, and other program beneficiaries will have equal access to construction benefits, instruction, technology, nursing services, professional development opportunities to improve intervention and virtual learning curriculum, all remediation/intervention services and any other service/activity utilizing FY21 ESSERII (CRRSA) funding. All schools in the Jackson County School District will utilize FY21 ESSERII funds for various services, personnel, and/or projects. Additionally, all teachers are being offered the opportunity to obtain a recommendation for summer curriculum development based on their ability to provide high quality resources and/or their interest in/skill level with specific types of resource platforms. Students will be selected for summer learning based on academic necessity and/or at-risk category. Students, who have been identified for special education services, will also have both their reading and math levels assessed to ensure that their specific deficits are addressed. Overall, students and teachers, will have an equal opportunity to receive the benefits from every project or activity carried out under the FY21 ESSERII (CRRSA) program.

\* 7. Describe how your LEA will promote the expectations of meeting high standards to students, teachers, and other beneficiaries. (20 U.S.C. §1228(a)(2)

All local school principals have developed academic intervention plans with an outlined monitoring explanation to ensure that rigor and relevance is maintained during all intervention/remediation services. Teachers will also continue to promote the overall academic development of all students using their online platforms to communicate with parents and students to address instructional deficits and meet the academic needs of students. Students and teachers will use data to drive goal setting to promote high standards throughout the Jackson County School

District. Instructional and technology coaches will be on hand to observe and encourage high standards during curriculum development. Moreover, student progress will be a goal from the beginning, with the following as specific goals: obtaining above average state and local assessment scores and above average state goals for both general education, special education, and career technical students, inclusive of all homeless, foster care, and English learners. The JCTC CTE program further extends the promotion of high expectations by providing specialized staff development, career coaching, craft committees and weekly staff meetings.

Personnel Details

Assurances

**JACKSON CO SCHOOL DIST (3000) Public District - FY 2021 - Elementary and Secondary School Emergency Relief II - Rev 0 - Elementary and Secondary School Emergency Relief II**

- \* Any applicant, other than a State educational agency that submits a plan or application under this Act shall have on file with the State educational agency a single set of assurances, applicable to each program for which a plan or application is submitted, that provides that-**
  1. LEA and any other entity that receives ESSER funds will, to the greatest extent practicable, continue to compensate its employees and contractors during the period of any disruptions or closures related to COVID-19 in compliance with Section 18006 of Division B of the CARES Act. In addition, each entity that accepts funds will continue to pay employees and contractors to the greatest extent practicable based on the unique financial circumstances of the entity. CARES Act funds generally will not be used for bonuses, merit pay, or similar expenditures, unless related to disruptions or closures resulting from COVID-19.
  2. The LEA will comply with all reporting requirements, including those in Section 15011(b)(2) of Division B of the CARES Act, and submit required quarterly reports to the MDE at such time and in such manner and containing such information as the MDE may subsequently require. (See also 2 CFR 200.327-200.329). The MDE may require additional reporting in the future, which may include: the methodology LEAs will use to provide services or assistance to students and staff in both public and non-public schools, the uses of funds by the LEAs or other entities and demonstration of their compliance with Section 18003(d), such as any use of funds addressing the digital divide, including securing access to home-based connectivity and remote-use devices, related issues in supporting remote learning for all students, including disadvantaged populations.
  3. Every recipient and subrecipient of ESSER funds will cooperate with any examination of records with respect to such funds by making records available for inspection, production, and examination, and authorized individuals available for interview and examination, upon the request of (i) the MDE, USDE and/or its Inspector General; or (ii) any other state contractor, federal agency, commission, or department in the lawful exercise of its jurisdiction and authority.
  4. The LEA must recognize that SEA approval of an application does not relieve the LEA of its responsibility to comply with all applicable requirements.
- 5. ESSER funds will be coordinated to provide services and supports with other federal education programs,

including but not limited to IDEA, ESEA, Carl E. Perkins Act of 2006, and the McKinney-Vento Homeless Assistance Act.

(A) the project is not inconsistent with overall State plans for the construction of school facilities, and

(B) in developing plans for construction, due consideration will be given to excellence of architecture and design and to compliance with standards prescribed by the Secretary under section 504 of the Rehabilitation Act of 1973 in order to ensure that facilities constructed with the use of Federal funds are accessible to and usable by individuals with disabilities;

6. ESSER funds must be administered in accordance with the Uniform Administrative Requirement, Cost Principals, and Audit Requirement for Federal Awards (2 C.F.R. Part 200) and the Education Department General Administrative Regulations (EDGAR).

7. SEC. 442. 20 U.S.C. 1232e(b)

The following general assurances apply to this application:

(1) that the local educational agency will administer each program covered by the application in accordance with all applicable statutes, regulations, program plans, and applications;

(2) that the control of funds provided to the local educational agency under each program, and title to property acquired with those funds, will be in a public agency and that a public agency will administer those funds and property;

(3) that the local educational agency will use fiscal control and fund accounting procedures that will ensure proper disbursement of, and accounting for, Federal funds paid to that agency under each program;

(4) that the local educational agency will make reports to the State agency or board and to the Secretary as may reasonably be necessary to enable the State agency or board and the Secretary to perform their duties and that the local educational agency will maintain such records, including the records required under section 443, and provide access to those records, as the State agency or board or the Secretary deem necessary to perform their duties;

(5) that the local educational agency will provide reasonable opportunities for the participation by teachers, parents, and other interested agencies, organizations, and individuals in the planning for and operation of each program;

(6) that any application, evaluation, periodic program plan or report relating to each program will be made readily

avail- able to parents and other members of the general public;

(7) that in the case of any project involving construction -

(8) that the local educational agency has adopted effective procedures for acquiring and disseminating to teachers and administrators participating in each program significant information from educational research, demonstrations, and similar projects, and for adopting, where appropriate, promising educational practices developed through such projects; and

(9) that none of the funds expended under any applicable program will be used to acquire equipment (including computer software) in any instance in which such acquisition results in a direct financial benefit to any organization representing the interests of the purchasing entity or its employees or any affiliate of such an organization.

8. This application remains in effect for the duration of the program. The LEA will submit a revision to the application if any budget changes are required in accordance with the MDE revision process.
