1. Please describe how the LEA plans to spend this required set aside to help homeless students in both non-Title I and Title I schools take advantage of educational opportunities (for example, describing programming or services offered, staff, materials, etc.).

The Jackson County School District has board approved policies that cover the enrollment process for students with limited English proficiency, children with disabilities, migratory students, neglected and delinquent youth, and homeless children. Each school will follow these policies during the enrollment process and provide the proper documentation to the central office. Services for children who are homeless are provided by Title I, District, and Local Community groups. Title I funds are coordinated with other local and district funding to provide additional services, such as tutoring, supplies, uniforms, course fees, field trip fees, bookbags, etc. to homeless children and immigrant children to increase program effectiveness and reduce fragmentation of the instructional program

Additionally, a portion of the homeless set-aside will be used to fund a student services technical coordinator, who will work to ensure that all homeless students and their families are connected with resources needed to ensure their academic, social, and emotional growth.

The JCSD will implement the following goals for the 22-23 school year.

Program Guidance:

Administration (reasonable and necessary)

Provide a summary of how the Title I program is administered and which funds support these activities/personnel (Title I admin, consolidated admin (cost pool), local funds, etc.)

JCSD will fund 40% of the Federal Programs Director salary out of state and local funds, and the other half of the director's salary will come out of the Title programs. This percentage covers time spent training counselors on how to better serve students who are homeless and in foster care, overseeing the EL program, and coordinating all Title programs within the district. The Director also maintains funds from Title I homeless, District, and Community donations to ensure the physical and academic goals are met for all students who are homeless and keeps a record of all students who are homeless for reporting purposes. 50% of the Federal Programs Coordinator & 60% of the Federal Grant Accountant is paid from all Title funds which is organized in the Consolidated Cost pool.

Schools "Skipped" in Rank Order

For any school not served with Title I-A funds (marked as "skip school" on the School Eligibility page), please indicate the amount and source of state or local supplemental funds that are used to provide services to low-achieving students in lieu of the funds that would have been provided by Title I-A.

Program Details

JACKSON CO SCHOOL DIST (3000) Public District - FY 2023 - Consolidated - Rev 3 - Title IV-A

Title IV-A

For each program budgeted, provide a narrative description of how you will use your funding by describing in detail the need for the project, the goals, and objectives.

1. Well-Rounded

\$ 120,725.30 Amount

Description of activity (number activities if more than one).

1. Funding for ACT Test Materials
2. Funding for Advanced Placement (AP) and Dual Credit course fees for low-income students to ensure that all students have access to a well-rounded education.
3. Funding for STEM/STEAM supplies and equipment for all 14 campuses.

Describe the need for the activity.

According to our FY22 needs assessment, stakeholders desired to see Title IV funds spent promoting access to accelerated learning opportunities, including Advanced Placement and Dual Credit courses. After reviewing student enrollment data, all high schools sought for ways to increase participation in our AP and Dual credit courses among students qualifying for free/reduced lunch. Since 2018/19 school year, we have utilized Title IV funds to alleviate the financial burden for the abovementioned student group. Moreover, our district, as well as our School Board of Education, has invested local district funds to increase the ACT scores of at JCS D high-schoolers. This college-entrance exam is vital for students to be awarded scholarships and other financial aid opportunities. Therefore, stakeholders would like for Title IV to supplement efforts to increase ACT scores across the district.

List Activity Goal(s)

1. Increase ACT scores at all three high schools.
2. Increase student participation among students receiving free/reduced lunch.
3. Increase student efficacy in computer science and the acquisition of technology skills.

List Activity Objective(s)

JCS D will use Title IV fund to reach the overall goal of providing students with the following educational opportunities:

1. Providing programming to improve instruction and student engagement in science, technology, engineering and mathematics (STEM) including computer science, and increasing access to these subjects for underrepresented groups across all JCS D schools. At least 50% Elementary and Secondary students will receive access to at least 1 hour of instruction.
2. Promoting access to accelerated learning opportunities including Advanced Placement and dual or concurrent enrollment programs with at a 25% increase in student enrollment across all three high schools within JCS D.
3. Provide additional learning opportunities for student's college and career preparation including additional practice and interventions for the ACT assessment and ACT WorkKeys with an increase in overall scores by at least 10% across all three high schools within JCS D.

2. Safe and Healthy

\$ 37,732.00 Amount

Description of activity (number activities if more than one).

1. Funding to improve school conditions for all student learning that will address bullying prevention, suicide prevention, drug prevention, and other mental health activities
2. Funding for supplies that will support bullying prevention, drug prevention, suicide prevention, and other mental health activities
3. Funding for School Counselor Professional Development to build trauma-informed schools, both on-site and off-site, which includes

Describe the need for the activity.

JCSD has experienced tremendous loss within the school district. Suicides and other fatal tragedies have occurred, which has shifted our focus to building trauma-sensitive schools. We have had student suffering from various mental health issues that has also plagued the classrooms and the communities these students and staff members reside in. Parents have asked that our school counselors have an opportunity to exercise their gifts and actually have the skillset and the time to provide effective school counseling. For the FY23 school year, school counselors have had their job descriptions re-defined to promote the utilization of SEL skills and implementation of both direct and indirect services.

List Activity Goal(s)

1. To decrease suicides, bullying incidents, drug use, and mental health crises.
2. To equip students, teachers and school counselors with the resources needed to decrease suicides, bullying incidents, drug use, and mental health crises.
3. To empower and professionally develop school counselors in understanding and implementing SEL/CASEL standards.

List Activity Objective(s)

1. To decrease all suicides, bullying incidents, drug use, and mental health crises/incidents by 25%.
2. To Increase school counselor efficacy and school counseling services by 25% during the 22-23 school year.

3. Effective Use of Technology

\$ 25,760.70 Amount

Description of activity (number activities if more than one).Uses RDIM to intelligently populate based on amount budgeted to the "linked" budget tag.

1. Funding for Professional Development to improve instructional technology practices for both local school and district-level personnel.

Describe the need for the activity.

Parents, teachers, and community members were surveyed to determine how technology could be effectively utilized in JCSD. Many principals and teachers presented a clear present need for students to obtain and develop technology skills that align to the new MDE technology standards. These standards must be taught by certified, well-trained teachers. These teachers will need additional training to develop competencies in the effectively teaching the new computer science standards mandated MDE.

List Activity Goal(s)

1. To provide professional development in the use of technology (which may be provided through partnerships with outside organizations) to enable teachers and instructional leaders to increase student achievement in the areas of science, technology, engineering, and mathematics, including

computer science; and

List Activity Objective(s)

1. Every school throughout the district will successfully teach at least one computer science lesson a week, ensuring that all technology standards are taught to students in all grades K-12.
