

Welcome to Honors Geometry 2024-2025

Your summer assignment includes practice problems that review algebra topics and beginning geometry topics. It is expected that you complete these assignments and are ready for a test on the third day of school.

Geometry Binder Requirement:

It is required that you get a **large** binder (at least 2 inches thick) with three sections. Fill up your binder with lined paper and graph paper.

Section 1 - Notes/Homework/Handouts

Section 2 - Tests, Projects, and Quizzes

Section 3 - Vocabulary and Formulas

In addition, you will need a zippered pouch with three holes that will hold your materials in your binder. Please include the following tools:

1. At least 6 pencils
2. A few colored pencils
3. TI-83 or higher graphing calculator
4. Protractor
5. Compass
6. Ruler (cm and inches, could be small)

***You will also need to bring your Chromebook to class every day.**

You will have access to the PDF of the online textbook once you are logged into my Google classroom. E-mail me at nsoundararajan@nwr7.org if you have any difficulty.

Your summer assignment:

- Go to <https://www.deltamath.com/students?code=6X7S-Y6JJ>. You must use your school Gmail account. You will see the assignment titled Honors Geometry Summer Packet. If you forgot your password, you could reset it. Try to login with your email and a random password. After one failed login, a "forgot password" link appears. If you do not get an email, you should check your junk box for the reset link. If you have any trouble accessing your assignment, email me at nsoundararajan@nwr7.org. Do NOT wait until the night before the first day of school to start the assignment because
 1. That will not be enough time and
 2. I will not be able to help you if you have trouble.
- KEEP A NOTEBOOK OF ALL OF YOUR WORK! YOU MAY BE ASKED TO TURN IT IN OR IT WILL BE PART OF A NOTEBOOK CHECK.**
- Make sure that you use pencil for the entire assignment. INK WILL NOT BE ACCEPTED.
 - Your summer assignment will be worth **five** homework assignments and will be collected the first day of class.
 - On the third day of school, you will have a test on the summer assignment material. Keep in mind - Those first two days are not enough to review everything. It is your responsibility to return to school with questions about challenging problems from the packet.

Contact: If you have any questions, you can reach me at nsoundararajan@nwr7.org or you can leave a message at the school: 860-379-8525 ext. 3256
