AP Computer Science A / Honors Java Summer Assignment 2024-2025

Welcome to AP Computer Science A (AP CSA) or Honor Java! You will be learning to code in the Java programming language. The purpose of the summer assignment is to complete the first day's assignment and get to know the learning platform, CodeHS.

1. Go to <https://codehs.com/go/D6EC6> and sign in using your Google account.
2. Complete Unit 0 activities (pre-test) and all Lesson 1.1 activities "Why Programming; Why Java?"
3. Get a 3-ring binder with 3 sections: Notes/HW, Vocabulary, and Tests
4. Find Digital Textbook in CodeHS and Read 1.1 Introduction and 1.2 Why programming? Why Java? Copy the Vocabulary list at the bottom of section 1.2 into your vocabulary section. This will become a good reference section throughout the year.
5. Join AP Computer Science A 2024-2025 on Google Classroom with the following link (or the email invite) <https://classroom.google.com/c/NjgwMjc3MDkwNTQw?cjc=x27lno2>

I am looking forward to a great year. Be prepared to be busy with nightly homework consisting of instructional videos and many coding projects throughout the year. Have a wonderful summer! Please email me with any questions or concerns: gmitesser@nwr7.org
