

### **Zeferino Farias Elementary**

2021-2022 Campus Plan

### Farias Elementary School 2021-2022 Executive Summary

### **Demographics Summary:**

As of August 2021, Farias' total enrollment consists of 418 students. Our subpopulations are 11.8% Special Education, 52.2% Emergent Learners, 1.9% Gifted and Talented, and 95.2% At Risk. The majority of our students are of a Hispanic background at 99.8%, so most of the student's home language is Spanish. In addition, Farias' attendance is consistently between 95.4 – 96.3%. Our students live in the Alamo area, encompassing the surrounding area.

### Comprehensive Needs Assessment Summary:

In combination with Domains I, II, and III, Farias Elementary School earned an A report card grade. In Domain I, the overall component score was 54. Approaches were at 82%, Meets was at 50%, and Masters was at 29%. Farias received a B rating; however, we earned 4 out of 6 distinctions in the following areas: Reading, Science, Closing the Gap, and Post-Secondary Readiness. In Domain II, Part A, we earned a scale score of 79 with a rating of a C. In part B, we achieved a scale score of 90 with an A rating. In reading, 6 out of the 6 indicators were met, and met 5 out of 6 were met for growth in math. Last, in Domain III, met 6 out of the 6 indicators were met in reading and math. In addition, we surpassed the target score of 36% with a 40% for TELPAS.

### **Curriculum and Instruction and Assessment:**

Zeferino Farias Elementary offers a rigorous curriculum with highly qualified staff. Students at our campus have the opportunity to participate in an all-English Class or Bilingual One-Way Program. On a voluntary basis, teachers offer various clubs, UIL, and extracurricular activities to our students. We are a Leader In Me; Lighthouse Campus empowers our students with SEL foundations through the 7 Habits of Happy Kids curriculum. Students have the opportunity to develop a unique approach to student-led learning and apply effective social and emotional skills in real-life situations. Students needing academic support are offered tutoring before or after school and Saturday Academies. In addition, teachers use the Madeline Hunter's lesson plan model to develop, implement, and revise lessons in the core areas of math, reading, science, and social studies. Lesson plans are designed to intentionally include the curriculum instructional strategies (CIF) to improve students' reading, writing, listening, and speaking skills. The think, pair, share, and write is another strategy to be implemented by all teachers, including support staff. Moreover, because of many ELLs, vocabulary and annotation will be a focus in all classes to assist students in acquiring the English language and comprehension. We also implement Fluency Reading in all grade levels. In the lower grade levels, teachers keep track of cold reads and hot reads for all students. In the upper-grade classes, we focus on students in need of reading fluency and comprehension.

### **Summary of Goals:**

To increase success in Domain I, we will implement reading and writing across the curriculum, including support staff. Special needs students will also be targeted through tutoring, academies, and in-class instruction to increase the performance of these students. The overall percentage of students in meets and masters level must improve in all areas; the majority are performing at the approaches level. In Domain II, our goal is to have every teacher conference with every individual and provide students with their target score for growth in math and reading. Although math scored higher in Domain I than ELA, students met their growth in reading, meeting all their growth indicators. Math needs to increase the number of students who meet goals for change in the non-continuous enrollment indicator. And last, Domain III, overall, the gap between the all student group and the economically disadvantaged population is low. We must increase the percent of students receiving meets or masters in areas, especially in the areas of non-continuously enrolled. Moreover, to assist students with their academic needs and personal needs, we implement Social and Emotional Learning once a week.

### Farias Elementary School Vision

Every Zeferino Farias Elementary student will become a productive citizen and compete intellectually and emotionally by applying 21st-century skills to prosper in a global community.

### Farias Elementary School Mission

Zeferino Farias Elementary teachers and staff will provide rigorous, relevant, innovative instruction, social and emotional support and prioritize health and safety for all. As future leaders, every student will be prepared for college and future careers and compete and succeed in a global community.

### Farias Elementary School Beliefs

### Zeferino Farias Elementary BELIEFS STATEMENT

We believe that learning is ongoing, fun, and a challenging life-long process that should take place in a warm, suitable environment.

We believe that parents should provide a supportive environment that teaches positive attitudes, habits, and values. They should become actively involved with the educational decision-making process.

We believe that a quality instructional program includes: committed school personnel, as well as the community and parents working together to provide a curriculum that is current and meets the needs of every individual child.

We believe that the community should actively participate in the educational process by supporting the school in all areas. They should serve as positive role models and should make education a priority.

### **Demographics**

### **Demographics Summary:**

### **English Language Learners (ELL):**

The following sources from across the district were used to review the Dual Language/English as a Second Language (DL/ESL) Department data by the District Education Improvement Council: State of Texas Assessments of Academic Readiness (STAAR) results, Performance-Based Monitoring Assessment System (PBMAS) and TELPAS indicators to determine strengths and needs of our ELL students. The DL Department also worked closely with the human resource department to ensure that highly qualified teachers and instructional assistants were recruited, hired, and placed in the appropriate educational setting. Each curriculum and instruction central office administrator by campus type was also assigned an English Language and Spanish Language Development coach to enhance biliteracy. In addition, the DL Department was very involved in the curriculum writing and revision for grades K-12 during the summer to address the needs of our ELL students and align the curriculum between English and Spanish Language Arts that led to a more coherent and consistent bi-literacy program. Professional development was also coordinated with the curriculum and instruction department to ensure that all general education teachers utilize best practices that support the learning of ELL students.

### Needs:

As evidenced in the STAAR assessments, the results show an achievement gap as follows:

- In Reading, the achievement gap between ELL and All students is 1%, all student group 83% compared to the ELL student group 82%
- In Mathematics, the achievement gap between ELL and All students is 4%, all student groups are 87% compared to the ELL student group of 83%.
- In Writing, the achievement gap between ELL and All students is 0%., all student group 67% compared to the ELL student group of 67%
- In Science, the achievement gap between ELL and All students is 4%, all student group 80% compared to the ELL student group 76%
- The TELPAS Yearly Progress Indicator target was 36%, Farias scored a 40%, scoring 4% above the target score.

### **Demographics**

### **Demographics Summary:**

### **Economically Disadvantaged**

The following sources from across the district were used to review the Economically Disadvantaged data by the District Education Improvement Council: State of Texas Assessments of Academic Readiness (STAAR) results and System Safeguards to determine strengths and needs of our Economically Disadvantaged Students.

### Needs:

System Safeguards Data: As evidenced in the STAAR assessments, the results show an achievement gap as follows:

- In Reading, the achievement gap between Eco Dis and All students in the school year 2018-2019/2019-2020 is 0%.
- In Mathematics, the achievement gap between Eco Dis and All students in the school year 2018-2019/2019-2020 is 0%.
- In Writing, the achievement gap between Eco Dis and All students in the school year 2018-2019/2019-2020 is 2%.
- In Science, the achievement gap between Eco Dis and All students in the school year 2018-2019/2019-2020 is 1%.
