

# KINGSWAY REGIONAL HIGH SCHOOL

*Committed to Excellence*

## HYFLEX COURSES

Flexible learning environment with a combination of synchronous and asynchronous experiences designed to engage students in active learning with more control over the time, place, pace, and path of their learning.

## PERSONALIZED

The purposeful infusion of digital resources to spark student engagement, combined with actionable feedback from teachers, drives individual learning.

***"HyFlex lets me work at my own pace outside the classroom while still being able to ask my teacher for help!"***

*-Grace Boyer C'22*

## FLEXIBLE

Student and family schedules benefit from late arrival and early dismissal flex privileges. Students learn time management skills and build agency as they exercise discretion to learn when and where it's best for them.

***"HyFlex has enhanced my learning experience this year due to the flexibility it provides students with. It allows us to explore new ways of learning in addition to teaching us how to manage our time."*** *-Madison Lavender C'22*

# PREPARATION

HyFlex courses present a unique opportunity to have a college-like experience while at Kingsway. Students can explore hyflex and virtual instruction while in high school to build or hone time management skills for college & career.

**"My HyFlex course has taught me how to be accountable for doing work independently and in a timely manner. If I were given the opportunity to choose HyFlex again, I would."**

*- Molly Fitzpatrick, C'22*

# CHOICE & VOICE

Student-centered courses structured to increase student ownership, and allow for added student choice in learning and assignments.

**"Doing my school work at my own pace has been beneficial to me this year with my busy work and school schedule. I can understand my content better and can finish my work in a much more efficient way."** - *Jasmine Kobeissi C'22*
