

Fresh Start 4 Vets allows Project Unity to provide job training and occupational skills to Veterans who are homeless or at risk of homelessness, in need of assistance to get back on their feet. Fresh Start 4 Vets increases their likelihood of getting back into the workforce and on the path to becoming self-sufficient.

Fresh Start 4 Vets is fully funded by the U.S. Department of Labor. This is a federal, grant based employment program that allows us to work directly alongside the needs of Veterans in our community.
