### Stage 3 – Learning Plan

**Suggested Learning Activities to Include Differentiated Instruction and Interdisciplinary Connections:** *Consider the WHERETO elements. Each learning activity listed must be accompanied by a learning goal of A= Acquiring basic knowledge and skills, M= Making meaning and/or a T= Transfer.*

***This is a list of possible activities to be implemented in the humanities classroom. Not every teacher will include every activity in his or her learning plan.***

- Teacher notes and PowerPoint presentations on various aspects of the self (A).
- Participate in philosophical experiments both individually and in large groups--i.e., The Trolley Problem (A, M).
- Attempt to prove that people are not living in a simulation using philosophical theories such as the Justified True Belief triangle (A, M, T).
- View "Inception" and/or "The Matrix" and discuss views of reality (A, M).
- Apply conceptions of self to artificial intelligence. (M, T).
- Find an example of humor and analyze why and how the humor is effective (A, M).
- Keep a journal of behaviors and decisions, then analyze it using theories of self (A, M, T).
- Watch the short film "The Wave" and discuss its implications for conformity and human behavior (A, M).
- Debate the ethics of psychological experiments such as the Milgram Experiment and the Stanford Prison Experiment (A, M).
- Take a personality inventory such as the Myers-Briggs, evaluate the results, and determine how it could be applied (A, M, T).
- Read Dunbar's poem "The Mask" and create a mask showing both how others perceive them and their true selves (A, M, T).
- Study self-portraits by various artist and in different art forms, examining each for insights into self (A, M, T).
- View excerpts from "Her" and discuss the effects of technology on human relationships (A, M).
- Freud's defense mechanisms skits- students are assigned two different defense mechanisms, in groups of three or four and they have to create an original skit to be performed in front of the class. The class guesses what defense mechanism is being portrayed based on the role play. (M)
- Students fast from technology--cell phones, Internet, etc.--for a period of time, while keeping a journal reflecting on the experience (A, M, T).
- Debate the benefits and detriments of social media on perceptions of self (A, M, T).
- Read a short story, play, various poems by authors whose fiction focuses on love and relationships (A).
- View clips of "Catfish" and discuss misrepresentations of the self (A, M).
- Examine attempts throughout history by governments and other entities to control nonconformists (A, M).
