

# MILLER HIGH SCHOOL AUXILIARY GYM SOUTHERN LOCAL SCHOOL DISTRICT

Corning, Ohio

*Rapid and cost-effective design of secondary gym resolves scheduling struggles*

Limited gym space at Miller High School created scheduling conflicts and forced teams to practice at irregular times.

Rustic brown brick and white metal trim complement the materials and colors of the preK-12 campus.

A new standalone secondary gym designed in just two months eliminates the problem. Located 20 feet from the school, the pre-engineered metal facility houses a main court, two side courts, and restrooms.
