

Walla Walla High School

"Home of the Blue Devils"

Welcome!

Welcome to Walla Walla High School! Wa-Hi has a long tradition of success as a comprehensive high school that incorporates our school mission "ensuring high academic achievement, building meaningful relationships and empowering all students to own their futures" into all we do. Students have access to a comprehensive curriculum, including Advanced Placement courses, STEM courses based on national curriculum standards, strong visual and performing arts programs, and career and technology classes. Wa-Hi Blue Devils can participate in a variety of extra-curricular activities, such as sports, clubs, after school activities, and field trips. We believe that a collaborative team of parents, students and staff results in a positive, successful high school experience for our students. Please visit our website at www.wahibluedevils.org to view upcoming events throughout the year.

Jerry Maher, CTE/SEATech Director

OUR WA-HI VISION

Wa- Hi: Intellectually, socially, personally transformative for all.

The Walla Walla Public Schools shall provide equal educational opportunity and treatment for all students in all aspects of the academic program without regard to race, creed, color, or national origin, sex, sexual preference, marital status, previous arrest (unless a clear and present danger exists), or incarceration or non-program-related, physical, sensory or mental disabilities, as per RCW 49.60 Law Against Discrimination.

GRADUATION REQUIREMENTS

In order to graduate from Walla Walla High School, students must complete the following requirements:

1. Earn the Required High School Credits: Students are required to meet minimum credits including the required core credits. Students must earn the total number of credits noted below in each of the required subjects and/or classes. Students need to take at least six classes each year to be best prepared for post high school options. *State graduation requirements do not necessarily meet all college entrance requirements – see pages 8 & 9.*

Subject Area	Requirement
English	4.0 credits
Math	3.0 credits (1.0 Algebra 1, 1.0 Geometry, 1.0 3rd Year math) The 3rd Year math is chosen by the student based on their interest and High School and Beyond Plan.
Science	3.0 credits (2 credits must be a lab science)
Washington State History	Not applicable if successful completion in middle school, or if transferring from another state, a student must have completed that state's history requirement. Junior or Senior students transferring from another state may receive a waiver.
Social Studies	3.0 credits (1.0 Social Studies Elective offerings, 1.0 US History, .5 from Contemporary World Problems and .5 Civics) See Social Studies Section for available classes, pages 49-51.
Physical Education	1.5 credits
Health	.5 credit
Career Technical Education/CTE (Occupational Education)	1.0 credit
Fine Arts	2.0 credits*
World Languages	2.0 credits*
Electives	4.0 credits
Total Credits	24

1.*Fine Art credits and both World Language credit requirements can be replaced with three Personalized Pathway credits. If the student has changed to the Career Ready Pathway, see pages 67-68 for details. If a student changes from the College Ready Diploma to the Career Ready Diploma, then the two World Language and one Fine Art credits are replaced with three Personalized Pathway classes. These are related courses that lead to a specific post high school career or educational outcome chosen by the student. This must be reflected in the student's High School and Beyond Plan.

2. Develop a High School and Beyond Plan: Students must develop a High School and Beyond Plan that shows how they will meet graduation requirements and their future goals. This plan will include how the student will prepare for acceptance to a four-year university, community college, trade school, military, or the workforce. Throughout high school, counselors will help students fill out their plan using [SchoolLinks](#) during classroom and/or online presentations. By completing the High School and Beyond Plan, students will receive .25 credit their freshman, sophomore, junior and senior year.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

3. Completion of one of the eight Graduation Pathways. Students are required to complete one of the eight Graduation Pathways.

Completion of 1 of these 8 Graduation Pathways	<ul style="list-style-type: none"> ● Pass statewide high school assessments (SBA or WA-AIM). ● Pass dual credit courses in English Language Arts (ELA) and math. ● Pass high school transition courses in ELA and math (Bridge to College). ● Take an Advanced Placement (AP), in ELA and math and pass the test with a 3 or higher or the class with a C or higher. ● Meet SAT or ACT benchmark for SBA. ● Meet a combination of the ELA and math requirements from the list above (for example, completing a transition course in math and meeting the graduation standard on the Smarter Balanced Assessment in ELA). ● Pass 2.0 credits of Career and Technical Education (CTE) courses that meet student’s personalized pathway. ● Pass Armed Services Vocational Aptitude Battery (ASVAB) with a 31 or higher if aligned with High School and Beyond Plan.
--	--

4. Complete a Culminating Project: The Culminating Project is a portfolio-based project which will provide students the opportunity to examine their skills and abilities as well as articulate plans for their future. In early spring, every senior will make a presentation to a panel of community members outlining their school work over the past four years.

Culminating Project presented to Community Panel	<ul style="list-style-type: none"> ● 40 hours of Community Service (10 hours per year of enrollment in WWPS). Document hours in SchoolLinks ● High School and Beyond Plan ● Best Works ● My Personal Story
--	--

Additionally, in order to participate in the graduation ceremony, all students must:

- A. Be enrolled in makeup classes no later than the beginning of second semester at Wa-Hi or the beginning of the spring quarter at WWCC (Running Start) or be able to complete up to 2.0 credits of required courses in summer school.
- B. Provide evidence to the principal or his designee that any extension, correspondence, or community college classes (other than WWCC) are completed by June 2, 2023.

Seniors who are not eligible to participate in the graduation ceremony because they have not met the above conditions will be notified, as will their parent/guardian. Refer to Walla Walla Public Schools Administrative Procedure No. 2410.

ACADEMIC PROGRAMS

School Year: Wa-Hi operates on a semester system. Students take a given schedule of classes for a period of 18 weeks, five days a week. If a student successfully completes the class requirements, one half (.5) credit is earned and grades are posted to the student's transcript. There are two semesters in a year.

Freshmen through Seniors will be enrolled in at least six classes (or 3.0 credits) per semester. Additionally, Wa-Hi offers limited 0 period options and students may enroll in a maximum of seven classes, based on curricular needs. A few additional after school and independent study options are available. See your counselor for details. Freshmen are strongly encouraged to take only six classes to start their high school career successfully.

Grading System: The State Board of Education has established the following grades and corresponding points to be used by all high schools in the State of Washington:

Grading Scale				
A = 4.0	B+ = 3.3	C+ = 2.3	D+ = 1.3	F = 0
A- = 3.7	B = 3.0	C = 2.0	D = 1.0	
	B- = 2.7	C- = 1.7		

Additionally, a P (Pass) or NC (No Credit) may be given under special circumstances. These grades will not be figured into a student's GPA.

High School and Beyond Planning: Planning a high school program is an important activity for students and their parents. Students' programs will be reviewed from year to year as students learn more about themselves and new opportunities. Counselors will be available throughout the year through classroom and/or online presentations and individual counseling appointments to assist students in achieving their goals. Each student should develop a schedule of classes and activities designed to meet their individual needs, giving special consideration to each of the following areas:

- Individual characteristics – strengths, weaknesses, abilities, interests
- Educational pathways goals
- Graduation requirements
- Curricular offerings
- Opportunities for post-high school education – 4 year colleges, community colleges, career and technical colleges, apprenticeship, etc.
- Entrance requirements for post-high school educational and occupational opportunities
- Scholarships and other sources of financial aid

Honors Program: The Honors Program is designed to prepare students to successfully complete Advanced Placement courses. These classes have rigorous academic demands such as extensive reading, analytical writing, long-term projects, and/or challenging lab experiences as well as high expectations. The courses are designed for the self-motivated student who is an independent learner. Honors classes are offered in most of the core disciplines.

College in High School Plan: In 2021, the Washington state legislature passed [HB 1302](#). This bill requires high schools that offer college in the high school (CHS) programs to relay the following information:

- There is no fee for students to enroll in a CHS or co-delivered dual credit course that includes CHS to earn only high school credit. Fees apply for students who choose to enroll in a CHS course to earn both high school and college credit.
- A description and breakdown of the fees charged to students to earn college credit.
- A description of fee payment and financial assistance options available to students.
- A notification that paying for the college credit automatically starts an official college transcript with the institution offering the course that will include the student's performance, and that college credit earned may count as elective or academic credit depending on the receiving college's transfer credit policies.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

Advanced Placement (AP) Program: Advanced Placement classes provide students with an exciting academic challenge in addition to possible savings on college tuition costs. These classes are rigorous and require a high degree of dedication from students, including the commitment to spend an average of three to ten hours per week in study outside of the classroom. By taking AP classes, students indicate that they are willing to take high-level, challenging courses and are capable of functioning successfully with college level material and expectations. During May, AP examinations are administered through Wa-Hi. These examinations are graded on a scale of 1 (minimum) to 5 (maximum). University credit is generally granted for test scores of 3 and above; however, each university has their own standard. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, fees may be waived based on the status of the family qualifying for Free and/or Reduced Lunches. Payment plans are available.

Running Start: The Running Start program allows eligible juniors and seniors to enroll tuition free in courses at local community colleges or career/technical schools. Although the college tuition is paid for by the school district, students are responsible for books, supplies, fees, and transportation to the community college. Running Start enrollment is limited to classes numbered 100 and above in both academic and career/technical areas. Students may enroll simultaneously in high school and college classes or solely in college classes. In order to participate in Running Start, students must apply to Walla Walla Community College and follow specific placement instructions. Graduation requirements for completing a high school diploma are established by Wa-Hi, and students must consult their high school counselor to identify how community college courses will apply towards graduation. If students choose to enroll part time in Running Start classes and part time at Wa-Hi, they will need to plan their Running Start classes around their Wa-Hi classes. A one-quarter, 5.0 credit, class will equal 1.0 credit of high school study in the subject taken and a one quarter, 3.0 credit, class will equal .5 High School Credits. Further information is available through the Wa-Hi Counseling Department and WWCC Running Start Webpage <https://www.wwcc.edu/high-school/running-start/>. Students need to check with their high school counselor to confirm that they have signed up for approved courses.

Enrichment Programs: Programs at Whitman College ([Whitman Enrichment Program](#)) and Walla Walla University ([Walla Walla University Enrichment Program](#)) are available to seniors. The Whitman Enrichment Program does encourage other grade levels to apply as well. These programs require an application during the spring of the year before desired admittance. You may click on the links above for detailed information about these programs and how to apply. These programs are highly competitive and very rigorous. While in these programs, students will also be expected to take a full course load at Wa-Hi and sign up for enrichment courses that do not conflict with their Wa-Hi courses.

Whitman Enrichment Program: Programs at Whitman College are available to seniors; they do encourage other grade levels to apply as well. Enrichment allows high school students to take 1 college course per semester free of tuition charge (costs for textbooks & materials must be paid for by the student). Students are permitted to enroll in only those courses that are significantly different from those offered at WaHi.

Walla Walla University Enrichment Program: The high school enrichment program provides qualified high school seniors the opportunity to enroll in one university course per semester, on a space available basis. The student must have a high school GPA of 3.25, must be a senior, and must be recommended by the high school principal or vice-principal in order to participate in the program. Cost for tuition is \$250 per class. Students purchase their own textbooks and supplies.

Career and Technical Education (CTE): A variety of subjects and programs are available in these career and technical areas: Agriculture Education, Business and Marketing Education, Family and Consumer Sciences, Health Sciences, Military Science, Skilled and Technical Sciences, and STEM (Science, Technology, Engineering, Math). Juniors and Seniors may also pursue Career and Technical Education course offerings through the WWPS SEATech Skills Center program and the WWCC Running Start program. Career and Technical Education (CTE) courses at Walla Walla High School can enhance both post high school educational pursuits and life long career objectives.

Dual Credit Courses: There are several courses, in specific Career and Technical Education classes, where a student can earn both high school and college credit at the same time. These courses are indicated throughout this course catalog as "Dual Credit" courses. Students who complete the courses with a grade of "B" or better (in most cases) and meet the requirements of the articulated course from the college granting the credit can earn Community/Technical college credit. See pages 17-28 for Dual Credit opportunities at Walla Walla High School, Walla Walla Community College and other colleges. Fees may apply for college credits or specific materials.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

Southeast Area Technical Skills Center (SEATech): Junior and Senior students enrolled at the Skills Center will receive 1.5 credits per semester for each program completed. Students will be expected to take at least three classes at Wa-Hi while enrolled at the Skills Center. Course offerings and their descriptions are on pages 63-66. Students who are interested in any of these programs should contact their high school counselor for more detailed information. Students in these programs may qualify for Walla Walla Community College Credit.

Middle School Credit: Some students earn high school credit in middle school. Beginning with the 2019-2020 school year, RCW 28A.230.090(4)(a)(b) and WAC 180-51-030 require that all high school rigor courses taken and passed by students in grades 7 and 8 will be awarded high school credit and placed on the high school transcript. The credits can be removed if requested by the student or parent/guardian prior to the end of the student's grade 11 school year. At the request of the student or parent/guardian, credits that are to remain on the high school transcript may be transcribed with a non-numerical grade, e.g., Pass or Credit. The non-numerical grade is not included in the GPA calculation, but the credit will apply to fulfilling graduation requirements. The grade can be changed to a non-numerical value if requested by the student or parent/guardian prior to the end of the student's grade 11 year.

Outside Credit: Students have the option of earning credit from outside-accredited institutions. The principal must approve all of this coursework prior to enrolling in the class. Students must contact their counselor before starting this process.

Repeated Courses: Students may repeat a course; however, the original grade they earned in the course will stay on their transcript. The higher grade earned will be used in the calculation of the student's Grade Point Average.

Contract Based Education (Opportunity Program): Walla Walla School District's Contract Based Education program, *Opportunity*, offers classes which are developed by a certificated teacher and documented in an individually written student learning plan for any student who meets the definition for enrollment specified by WAC 392-121-106. This program may be a good fit for students who struggle in a traditional high school setting or for students who are unable to attend a regular school day. Please see your school counselor for further information.

Student Athletes: At the beginning of the school year, freshman and transfer students must have passed five classes the previous semester in order to be eligible for athletics. Student athletes must be enrolled in and passing at least five classes each semester to remain eligible for participation in athletics. Please see page 13 for NCAA eligibility information.

Students Transferring to Walla Walla High School: Students who transfer to Walla Walla High School during the school year will meet with a counselor at which time they will review the student's transcript, credit history, state testing results, class schedule, and grades from their previous school. Counselors will then develop a schedule for the student, placing the student into similar classes in which they had been enrolled at their previous school. The school nurse will review immunization records. In order to receive a Walla Walla High School diploma, a student must be in residence at Wa-Hi for at least the fourth quarter of the second semester of their senior year. All Walla Walla High School graduation requirements as well as additional state testing requirements are applicable to transfer students.

Credit for Competency/Proficiency: The Board recognizes alternative ways for students to receive credit through the Seal of Biliteracy and State and National Assessments. For more information, see Board Policy No. 2409.

- ❖ **Seal of Biliteracy:** The district will award the Washington State Seal of Biliteracy to students who have attained a high level of proficiency in speaking, reading and writing in one or more world languages in addition to English. Students who meet the criteria, as established in WAC 392-410-350, will be awarded the seal on their high school diploma and transcript. The school district provides two ways for students to earn this credit; the STAMP test and the AP Language test. These tests are given in the spring.
- ❖ **State and National Assessments:** State and national test scores may be used to show competency in two ways: challenging courses or as a tool for students to recover credit for previously failed courses in math or English. Students who want to use test results to challenge courses, or for recovery of credit may request that the competency grade (P) be posted to their transcript for certain courses as designated in Table #1 and Table #2 of Board Policy 2409. Students who are not planning to replace the course with a credit-bearing course in that subject area should be advised of the potential adverse effect on college admission.

COLLEGE ENTRANCE REQUIREMENTS

It is important for all students to remember that each university and college has their own entrance requirements, which often exceed high school graduation requirements. Students need to be aware of the requirements for the specific colleges they are interested in. Please see your counselor for more information.

Public In-State Washington Requirements: All Washington state public universities require the same minimum standards. These standards are known as CADRs (College Academic Distribution Requirements). In addition, students are required to have a GPA of 2.0. College entrance exams such as the SAT or ACT are no longer required in Washington State public universities. However, test scores are considered for placement, entry into an Honors program, and/or scholarship awards, etc. The following table lists the required courses:

English	4 credits
Math	3 credits - including Algebra II or Integrated Math III
Social Studies	3 credits
Science	3 credits - 2 credits of laboratory science, one of which is Algebra-based
World Languages	2 credits of the same world language
Art	1 credit
Senior Year Math Based Quantitative Course	1 credit of a meaningful math senior year

For more information, please see the “Minimum College Admissions Standards” on the following page.

Testing Information: There are a variety of testing opportunities available at Walla Walla High School:

- **ACT and SAT:** Schools are test optional now and some are test blind, but this test is an excellent way to meet a grad pathway! Students are still encouraged to take the SAT (Scholastic Aptitude Test) and/or the ACT (American College Testing) in the spring or summer of their junior year. All seniors may have the opportunity to take the scheduled ACT test in the fall of 2022 during the school day. Scores from these tests may be accepted as part of the admissions application by four-year colleges and universities in Washington State. Each test is administered several times during the year at off-site locations and may be taken more than once if desired. Students can register and pay for the test online. Registration materials and fee waivers are available in the counseling office. See the [ACT](#) and [SAT](#) test websites for additional information.
- **PSAT:** The [PSAT](#) (Preliminary Scholastic Aptitude Test) can be taken during a student’s sophomore and junior years. This test acts as the “practice test” for the SAT. It is useful to practice taking college admissions tests, as it allows students to feel more comfortable with the material on these tests. Additionally, juniors may qualify for the National Merit Scholarship. The PSAT is given in the fall. Please see your counselor for more information.
- **ASVAB:** The [ASVAB](#) (Armed Services Vocational Aptitude Test) is a test that measures a student’s abilities in academic and career areas. While the test is provided and administered by the military, student scores are for personal and school use only. They are not utilized by the armed services without the student’s consent. The test is free and is usually given once a year. Passing the ASVAB with a 31 or higher meets a students’ graduation pathway requirement in math and English, if this aligns with their HSBP. Please see your counselor for more information.

Please Note: College entrance exams such as the SAT or ACT are no longer required in Washington State public universities.

Community College Requirements and Information: While admission at community colleges is seldom denied to high school graduates or individuals over 19 years of age, courses taken during high school can affect one’s success at a community college. Sufficient skills in reading, English and mathematics are essential before beginning vocational or academic classes in math and English. Selecting classes carefully while in high school can lessen the amount of time it will take to complete a college program. Seniors on track for graduation are automatically accepted to Walla Walla Community College as part of the Blue Devil to Warrior Program.

Students planning to attend a community college and then transfer to a four-year college or university are advised to take the same college prep courses they would have taken had they gone directly to a four-year college or university. A student planning to transfer to a program in engineering, computer science, or business administration, for example, is advised to take four years of high school mathematics in preparation.

Minimum College Admission Standards for Washington

4 Year Public Universities

An Overview for Students and Parents (Effective for Fall 2012 and beyond): Students may meet high school requirements with courses taken in middle school, provided the courses are part of a sequence which is successfully continued in high school, or the courses are included on the high school transcript as high school level courses. **Please check specific entrance requirements for colleges you are interested in and with your counselor to ensure that your High School and Beyond Plan matches those colleges' requirements.**

English – Four (4) credits of English language arts are required. Must include three credits of college preparatory coursework, including literature and composition (may include Bridge to College English). One (1) credit of elective English may be included.

Mathematics – Three (3) credits of mathematics are required. These credits must include Algebra I, Geometry, and Algebra II or Integrated Math I, Integrated Math II, and Integrated Math III, or higher level mathematics.

Senior Year Math-Based Quantitative Course: Students are required to take a math-based quantitative course during their senior year. This requirement is to ensure students continue to participate in rigorous math during their senior year, a main predictor of postsecondary success. Examples of a math-based quantitative course include additional math (such as Bridge to College Mathematics, statistics or applied math), algebra based science, math-based career and technical courses, or AP computer science. Students who have completed math beyond Algebra II or Integrated Math III, prior to the senior year, are exempt from this requirement.

Note: *The senior-year math requirement does not mean a 4th credit of math is required, nor does it require a higher level of math; the intent is for seniors to take meaningful math.*

Exception: *Completion of higher-level math prior to the senior year exempts students from the senior-year quantitative course requirement (e.g., pre-calculus, math analysis, or calculus).*

Science – Three (3) credits of science are required. 2 Two credits must be earned in lab courses, including one algebra-based course and one course in biology, chemistry or physics. A single course may meet multiple requirements. For example, a biology, chemistry, or physics course may also be lab-based. **Note:** Three credits are now required beginning with students entering college in summer or fall of 2021. The third credit does not need to be lab-based.

Note: *Western Washington University specifies that one credit must be an algebra-based chemistry or physics course.*

World Languages - Two (2) credits of the same world language are required. Examples include Spanish, French, Japanese, American Sign Language, and American Indian languages. Additional World Language coursework is encouraged. Some institutions will require three credits to meet college graduation requirements.

Note: *A World Language course taken in middle school may satisfy one credit of the requirement if the second-year level course is completed in high school grades 9-12.*

Social Science – Three (3) credits of social sciences are required. These credits must be earned in history or any of the social sciences. Examples include anthropology, contemporary world problems, economics, geography, government, political science, psychology, or sociology.

Arts – One (1) credit of art is required. This credit must be earned in fine, visual, or performing arts. Substitution of one credit from another CADR subject area is allowed. However, some institutions limit the waiver—students should check with the admissions offices at the institutions to which they plan to apply.

Note: *The University of Washington specifies one-half credit in fine, visual or performing arts. The other half may be in the arts or in an academic elective. Western Washington University requires one semester or trimester of fine and performing arts. For more information, go to <http://www.wsac.wa.gov/college-admissions>.*

SCHEDULING INFORMATION

Pre-Registration: Students will complete pre-registration in the spring for the following year. Information gained through this process will be used to help develop the Master Schedule. Parents and students need to be thoughtful in choosing their course selections; students will be expected to adhere to their course choices. Students need to check the prerequisite for each class to ensure that they will be allowed to register for the course. Selecting a class indicates a commitment to that course. Students will be expected to remain in any course they select.

Registration: In August, students will receive a final schedule of classes. Time allotted for schedule changes for returning students is limited.

Non-attendance: If students have not attended Wa-Hi by September 9, 2022 without a pre-trip or notification to the school, their schedule will be dropped. If a student does attend after that date, they will need to meet with their counselor and create a new schedule.

Request for Schedule Changes: Parents and students should be aware that Wa-Hi has policies that limit opportunities for making changes to a student's schedule, and at times, eliminates opportunities for changes. Please note: Wa-Hi reserves the right to change student schedules for administrative reasons at any time (e.g. leveling class size, etc.). Schedule changes will be made after September 16, 2022 of the school year for the following reasons:

1. Student has failed a class required for graduation
2. College entrance/graduation requirements need to be added
3. Incomplete schedule (i.e. fewer than 6 classes)
4. Student was academically misplaced

Schedule changes are not made for the following reasons:

1. Student would prefer a different lunch
2. Student would prefer a different teacher
3. Student would prefer a class with a friend
4. Student would prefer their classes in a different order

Problem Solving Process: Students and parents are expected to work with their teachers and counselor when encountering difficulties in their classes. It is NOT an acceptable practice for students and parents to request a schedule change first. If it is agreed upon that there has been consistent effort by and communication between the student, parent, teacher, and counselor, and there has not been any improvement, then it may be necessary for the administrator to approve a schedule change.

Students requesting course changes after seven days of the term may earn a grade of W or N/C.

Waivers of Graduation Requirements: Graduation requirements are established with the expectation that all students will complete them. It is recognized, however, that individual students may have reason to request a waiver to accomplish specific academic or personal goals not possible with the required program. Therefore, Walla Walla High School will consider a request that a student be excused from a particular requirement when the Waiver Form is completed with the principal's approval. See your counselor for the form and waiver process.

Course Offerings Limitations: Walla Walla High School endeavors to offer all classes listed in this Course Catalog. However, if an insufficient number of students enroll in a class, it may be necessary to cancel the class and enrolled students will be moved to one of their alternate courses.

COUNSELING AND CAREER SERVICES

Counseling: The Counseling Department assists students in becoming responsible adults who can develop realistic and fulfilling life plans. The counselors are responsible for presenting information to students in the classroom in addition to providing individual counseling. Students will have the same counselor during their time at Wa-Hi. We encourage students to find out who their counselor is and meet with them often to discuss the following:

- Academics: Schedule changes, academic responsibilities, post-secondary options, career and college planning
- Personal/Social: Emotional health, effective communication skills, anti-bullying assistance

Students are designated to a counselor by their last name. The designations are as follows:

- [Elisabeth Roberts](#): A - Ce and AVID 9/12
- [Mrs. Nicole Mueller](#): Ch-G
- [Jeff Bockert](#): H-Mc
- New Counselor TBD: Me-Se
- [Mrs. Shari Widmer](#): Sh – Z and AVID 10/11

Career Center: The Career Center is a drop-in student resource that strives to provide general campus information and assist students with the following:

- Career Services: Job applications, career exploration, career fairs, job search assistance, job shadows
- College Services: Financial aid/scholarship information, application help, specific college presentations, college and scholarship fairs
- Culminating Project: Volunteer information

Contact [Karen Ruzicka](#) in the Career Center.

Health Center: The Health Center offers basic medical, behavioral health, and care management services to students during school hours to promote the overall health of students so they can benefit fully from their educational program. Licensed medical and mental health professionals provide all services. Some of these services include updating students' immunizations, administering Tylenol to help treat pain or headaches, providing a counselor for students to talk with, and helping connect students to care available in the community. All services are FREE and available to all students once they are registered with the Health Center. No insurance or government documentation is required (though insurance may be billed).

WSU GEAR UP: The GEAR UP staff provides college readiness support in a variety of ways:

- Academic Support: Tutoring services, assistance with the senior Culminating Project, and class support
- College Support: College campus visits, financial literacy training, and college application support
- Parent Support: Workshops are available that cover information about post-secondary options

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

CLASS RANKING: Calculation changes will start with the class of 2026. For the classes of 2023-2025, rank will be calculated on regular grade point average.

Walla Walla High School Grade Descriptors, Grade Ranges, & GPA Points

* For **GPA** calculations, the traditional, **unweighted** 4.0 scale will be used (as shown in the blue column below). Continuing the use of unweighted grades in the student GPA calculation is meant to recognize that college and university admissions offices will actually recalculate the GPA of applicants whose GPA is calculated using weighted grades so that admissions committees can more easily and accurately compare applicants' GPAs before further examining how many challenging courses the student took.

* Class ranking changes based on weighted GPA will start with the class of 2026. For the classes of 2023-2025, rank will be calculated on regular grade point average. For **Rank** calculations, the weighted rank points (as shown below in green) will be used with AP, and Honors courses being **weighted** heavier. Rankings that use weighted GPAs reflect students' efforts in challenging courses, while those using unweighted GPAs do not. The Rank will be used when considering academic recognition, including **Honor Roll, Valedictorian & Salutatorian selection, and NHS candidate eligibility**. Adopting the use of weighted grades in the student ranking is meant to further encourage students to challenge themselves in high school by taking more challenging courses over the course of their high school career.

Proficiency Level/ Descriptor	Letter Grade	Weighted Rank Points [AP Courses & College Enrichment Courses]	Weighted Rank Points [Honors Courses]	Weighted Rank Points [All other non-AP Courses & non-College Enrichment Courses]	Unweighted GPA Points [All Courses]
Advanced Proficiency	A	5	4.5	4	4
	A-	4.7	4.2	3.7	3.7

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

Scholarships and Financial Aid: Financial aid and scholarships are important for anyone pursuing technical, 2-year, or 4-year institutions (T-2-4). A list of scholarships is consistently updated in [SchoolLinks](#) and in announcements. Additionally, the Career & College Center offers assistance in applying for financial aid, including completion of the FAFSA, WASFA, and CSS. Assistance is available at evening events during the fall or by making an appointment with the Career Specialist. Students who need assistance with college applications or testing fees can contact their counselor for a fee waiver.

NCAA Requirements: Students interested in participating in sports at the NCAA Division 1 or 2 level must meet additional requirements. If a student wishes to participate, they need to submit an application to the NCAA Clearinghouse at the end of their junior year. The Clearinghouse determines a player's eligibility based on their GPA and test scores in the core-course requirements. **For more information, please visit the following website:**
<https://www.ncaa.org/sports/2021/2/8/student-athletes-future.aspx>.

Note to the NCAA: For year long classes, transcripts will display first semester courses utilizing the course code displayed in the course catalog and the second semester will be displayed with a modified course code. For example, CP Algebra 2 would be transcribed as MAT460 for the first semester and MA 460 for second semester.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

TWO FOR ONE POLICY

CTE TWO for ONE Policy: Students who take CTE equivalent courses will satisfy two graduation requirements while earning one credit for a single year long course; hence, “two for one”. The purpose of this policy is to create flexibility for students to choose more elective courses or to address other graduation requirements.

Course Title	Course Code	Graduation Requirement Met
ACCOUNTING 1 or 2	BUS746 or BUS786	Occupational Education AND 3 rd Year Math
AMERICAN MILITARY HISTORY	MSC959	Occupational Education AND Social Studies Elective OR Contemporary World Problems
ANIMAL BIOLOGY	AGR851	Occupational Education AND Lab Science
AP COMPUTER SCIENCE A	TIE883	Occupational Education AND 3 rd Year Math
AP COMPUTER SCIENCE PRINCIPLES	TIE881	Occupational Education AND Science Elective
AP ENVIRONMENTAL SCIENCE	SCI594	Occupational Education AND Lab Science
APPLIED ALGEBRA 2	TIE802	Occupational Education AND 3 rd Year Math
BIOTECHNOLOGY	TIE882	Occupational Education AND Lab Science
BUSINESS LAW	BUS777	Occupational Education and 1.0 Social Studies Elective OR .5 credit in Social Studies Elective and .5 credit in Contemporary World Problems

AVID Elective

Advancement Via Individual Determination (AVID) is an academic elective course that prepares students for college readiness and success, and is scheduled during the regular school day as a year long course. Each week, students receive instruction utilizing a rigorous college preparatory curriculum provided by AVID Center, tutor-facilitated study groups, motivational activities and academic success skills. In AVID, students participate in activities that incorporate strategies focused on writing, inquiry, collaboration, organization and reading to support their academic growth. To participate in AVID, students can self-nominate or a teacher may nominate a student. Once nominated, students submit an application, interview with a team, and are selected based on AVID criteria for student success in the program. Students wishing to self-nominate should see their counselor.

AVD109 9th GRADE AVID ELECTIVE			Credit: 1.0 Term: Year
Prerequisite: Application	Open to: 9	Graduation Requirement Satisfied: Elective	
<p>Description: The ninth grade AVID Elective course will introduce the AVID philosophy and strategies. Students will work on academic and personal goals and communication, as well as adjusting to the high school setting. Students will increase awareness of their personal contributions to their learning, as well as their involvement in their school and community. There is an emphasis on breaking down prompts and setting personal goals and advancing skills. They will take an active role in field trips and guest speaker preparations and presentations. Their college research will include building their knowledge on colleges and careers of interest.</p>			

AVD110 10th GRADE AVID ELECTIVE			Credit: 1.0 Term: Year
Prerequisite: Application	Open to: 10	Graduation Requirement Satisfied: Occupational Education if taken 3 consecutive years OR Elective	
<p>Description: During the tenth grade AVID Elective course, students will refine the AVID strategies to meet their independent needs and learning styles. As students increase the rigorous course load and school/community involvement, they will refine their time management and study skills accordingly. Students will expand their writing skills to include supporting arguments and claims, character analysis and detailed reflections. Text analysis will focus on specific strategies to understand complex texts and increase academic vocabulary. Students engage with community members to learn soft skills for career success as they develop resumes and will narrow down their college and careers of interest, based on personal strengths and goals.</p>			

AVD111 11th GRADE AVID ELECTIVE			Credit: 1.0 Term: Year
Prerequisite: Application	Open to: 11	Graduation Requirement Satisfied: Occupational Education if taken 3 consecutive years OR Elective	
<p>Description: The eleventh grade AVID Elective course focuses on writing and critical thinking expected of first and second year college students. Students study in depth exceptional leaders in contemporary society and examine the effect these individuals have had on culture, politics, education, history, science and the arts. The course requires that students read essays, speeches, articles and letters by these leaders, as well as at least one full-length work by the leader or about the leader. In addition to the academic focus of the AVID seminar, there are college-bound activities, methodologies and tasks that should be undertaken during the junior year to support students as they apply to 4 year universities and confirm their postsecondary plans. Students will have the opportunity to participate in a 4 year college visit.</p>			

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

AVD112 12th GRADE AVID ELECTIVE		Credit: 1.0 Term: Year
Prerequisite: Application	Open to: 12	Graduation Requirement Satisfied: Occupational Education if taken 3 consecutive years OR Elective
<p>Description: The AVID Elective twelfth grade course focuses on writing and critical thinking expected of first and second year college students. In addition to the academic focus of the AVID senior seminar, there are college-bound activities, methodologies and tasks that should be achieved during the senior year that supports students as they apply to 4-year universities, complete scholarships, financial paperwork, analyze financial packages. Students will also be exposed to entrepreneurship, personal budgeting, finances, credit, taxes and confirm their postsecondary plans.</p>

Dual Credit Courses: There are several courses, primarily in specific Career and Technical areas, where a student can earn both high school and college credit at the same time through Walla Walla Community College or other Community and Technical College(s). These courses are indicated throughout this course catalog as “Dual Credit” courses. Students who complete the courses with a grade of “B” or better and meet the requirements of the articulated course from the college granting the credit can earn Community/Technical college credit. Programs at Wa-Hi includes Agriculture Education, Business Education, Child Development, Culinary Arts, and Welding and Metal Fabrication. *A service fee for Dual Credits may apply.*

NOTE: Courses that are Dual Credit will indicate Dual Credit in the course description.

CAREER & TECHNICAL EDUCATION COURSE DESCRIPTIONS

BUSINESS AND MARKETING EDUCATION

BUS720 MICROSOFT OFFICE APPLICATIONS (Dual Credit)		Credit: .5 or 1.0 Term: Year or 1st Semester
Prerequisite: None	Open to: 9-12	Graduation Requirement Satisfied: Occupational Education
<p>Students will learn how a computer works and how to best utilize it as a tool for academic and professional work. Email, word processing, desktop publishing, spreadsheet, and presentation fundamentals will be covered using Microsoft Office 2019 software. After each application, students will have the opportunity to use what they learned to complete the Microsoft Office Specialist (MOS) 2019 certification exams. Upon completion of this course, students should have a good understanding of how to use Microsoft Office 2019 and the skills to help students pass the computer literacy requirement at many colleges and universities.</p>		
<p>Note: Semester 1 will focus on Microsoft Word and PowerPoint. Semester 2 will focus on Microsoft Excel and Access.</p>		

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

TIE874 INTRODUCTION TO COMPUTER PROGRAMMING		Credit: 1.0 Term: Year
Prerequisite: None	Open to: 9-12	Graduation Requirement Satisfied: Occupational Education
<p>Students will learn the basics of computer programming along with the basics of computer science. The material emphasizes computational thinking and helps develop the ability to solve complex problems. Students will learn to program using the Python language. This course will cover beginning computer science, number calculations and data, making decisions, repetition with loops, and graphics, loops, text and string processing, subprograms, arrays, 2-D arrays, and the Internet. This course will prepare students for AP Computer Science Principles and AP Computer Science A.</p>		
TIE881 AP COMPUTER SCIENCE PRINCIPLES		Credit: 1.0 Term: Year
Prerequisite: Introduction to Computer Programming (TIE874) recommended but not required.	Open to: 10-12	Graduation Requirement Satisfied: Occupational Education AND Science Elective
<p>Students will explore the 7 “Big Ideas” in computer science using project-based approaches. The course introduces students to the creative aspects of programming, abstractions, algorithms, large data sets, the Internet, cybersecurity, and how computing impacts our world. Students will develop the computational thinking skills needed to fully exploit the power of digital technology and help build a strong foundation in core programming and problem-solving. This course is designed to be equivalent to a first-semester introductory college level computing course. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify.</p>		
TIE883 AP COMPUTER SCIENCE A		Credit: 1.0 Term: Year
Prerequisite: Concurrent enrollment of CP Algebra 2 (MAT460) or higher; Introduction to Computer Programming (TIE874) required	Open to: 10-12	Graduation Requirement Satisfied: Occupational Education AND 3rd Year Math
<p>AP Computer Science A is equivalent to a first-semester, college level course in computer science. The course introduces students to computer science with the fundamental topics that include problem solving, design strategies and methodologies, organization of data (data structure), approaches to processing data (algorithms), analysis of potential solutions, and the ethical and social implications of computing. The course emphasizes both object-oriented and imperative problem solving and design using Java language. These techniques represent proven approaches for developing solutions that can scale up from small, simple problems to large, complex problems. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify.</p>		
BUS726 CAREER PLANNING		Credit: .5 Term: Semester
Prerequisite: None	Open to: 9-12	Graduation Requirement Satisfied: Occupational Education
<p>Students will learn the skills necessary to be successful in the world of work and life after high school. Students will learn more about themselves and explore careers and post-secondary training and education options. They will develop work readiness skills including resumes, job applications, interviewing skills, problem-solving, communication and teamwork. This course may apply to all program areas.</p>		
BU727 PERSONAL FINANCE		Credit: .5 Term: Semester
Prerequisite: None	Open to: 9-12	Graduation Requirement Satisfied: Occupational Education
<p>Students will learn personal finance skills necessary for life after high school. Students will learn more about income, money management, spending and credit, as well as saving and investing. Students will design personal and household budgets utilizing checking and savings accounts, gain knowledge in finance, debt and credit management, and evaluate and understand insurance and taxes. This course will prepare students for multiple Business Marketing pathways, including, but not limited to Accounting 1 and 2.</p>		
BUS743 MARKETING OPERATIONS (Student Store)		Credit: .5 or 1.0 Term: Year or Semester
Prerequisite: None	Open to: 10-12	Graduation Requirement Satisfied: Occupational Education
<p>Students will be required to apply their knowledge of management and leadership by planning, organizing and controlling activities for the student store. This course emphasizes the importance of teamwork, responsibility, and decision-making. A large part of this class will be a hands-on experience in. Both in the store and in the classroom, the student will work in areas such as promotions, sales operations, human relations, communication and more.</p>		

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

BUS744 WORKSITE LEARNING			Credit: .5 or 1.0 Term: Year or Semester
Prerequisite: Career Planning (BUS726)	Open to: 11-12	Graduation Requirement Satisfied: Occupational Education	
<p>Students will extend their learning from the classroom to the worksite. Students can earn credit through their learning experiences at a worksite that supports their program of study, and “High School and Beyond Plan.” Under the supervision of school and worksite personnel, students receive opportunities to develop related occupational and employability skills, and networking resources. Students qualify to earn .5 credit for every 180 hours worked. Students must be currently enrolled in or have successfully completed a CTE class related to the student’s career pathway and worksite, be age 16 before enrolling, and provide personal transportation during the Worksite Learning experience. Required: Career Planning or qualifying course. This course may be applied to Agriculture Education, Business and Marketing, Family and Consumer Sciences, Health Sciences, Skilled and Technical Sciences, or STEM, depending upon the qualifying course and WSL experience.</p>			
BUS734 SOCIAL MEDIA MARKETING			Credit: 1.0 Term: Year
Prerequisite: None	Open to: 9-12	Graduation Requirement Satisfied: Occupational Education	
<p>Students will learn the different aspects of social media and how it is used in our society today. Students will learn to research, to think critically, and to communicate effectively through social media. They will be able to adapt those skills to the ever-evolving social media technologies. Students will learn skills they will be able to apply in real life and future careers as well as how to make themselves more marketable online. In this class, students will also be responsible for writing for the Wa-Hi Journal, the online newspaper, and making ads for social media events. Students will need to use judgment, show responsibility, independently produce original work, be accurate and fair, and adhere to legal limitations as they exercise their free expression rights. Students will need to work outside of class time.</p>			
BUS736 YEARBOOK STAFF			Credit: 1.0 Term: Year
Prerequisite: Graphic Arts Design (BUS772) and Digital Photography (ART250) recommended	Open to: 9-12	Graduation Requirement Satisfied: Occupational Education	
<p>Students will document the history of Wa-Hi through the publication of Wa-Hi’s yearbook, “The Royal Blue”. In this course, students will be responsible for photography, layout and design, and meeting all deadlines. Students must be self-motivated, recommended, and enjoy working as a team. Students will be required to attend and photograph student events outside of the school day. This course may be repeated more than once.</p>			
BUS891 MARKETING PRINCIPLES (Dual Credit)			Credit: .5 or 1.0 Term: Year or Semester
Prerequisite: None	Open to: 9-12	Graduation Requirement Satisfied: Occupational Education	
<p>Students will learn about the free-enterprise system and world economics and gain an understanding of marketing essentials within a competitive, free-enterprise system. The curriculum will cover an examination of basic business, economic and marketing and promotion concepts. The units covered are based on the following nine functions of marketing: pricing, distribution, promotion, marketing information management, risk management, product/service planning, selling, finance, and purchasing. Students will learn basic, essential principles that affect their lives as an owner, employee, or consumer and explore how these principles are applied in retail, sports, event marketing, and the hospitality industries. This class will provide students with foundational knowledge and skills applied in multiple business and marketing pathways.</p>			
BUS777 BUSINESS LAW			Credit: 1.0 Term: Year
Prerequisite: None	Open to: 11-12	Graduation Requirement Satisfied: Occupational Education AND 1.0 Social Studies Elective OR .5 Social Studies Elective AND .5 Contemporary World Problems	
<p>Students will study criminal, civil and contract law, which involves sales, insurance, banking, employment, and buying and renting property, and the basics of personal finance. Students will review Supreme Court cases and research current and historical developments in law.</p>			
BUS746 ACCOUNTING 1			Credit: 1.0 Term: Year
Prerequisite: None	Open to: 10-12	Graduation Requirement Satisfied: Occupational Education AND 3rd Year Math	
<p>Students will learn the “language of business.” Areas include keeping track of money for business and personal use, and record and understand the transactions that occur in a business. Students will learn how to reconcile a checking account with the bank, understand accounting concepts, principles and practices, and apply procedures using the computerized accounting program, QuickBooks. This class will provide students with foundational knowledge and skills applied in Accounting 2.</p>			

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

BUS786 ACCOUNTING 2 (Dual Credit)		Credit: 1.0 Term: Year
Prerequisite: Accounting 1 (BUS746)	Open to: 11-12	Graduation Requirement Satisfied: Occupational Education AND 3rd Year Math
<p>Study will cover manual and computerized accounting, partnerships, departmental, and corporate accounting practices. This course is a must for students who want to: become accounting clerks upon graduation, obtain the accounting skills necessary to advance to the level of junior or assistant accountant following experience as accounting clerks, go to college and major in accounting or some phase of business, or broaden and improve knowledge, understanding, and application of accounting competencies.</p>		

FAMILY AND CONSUMER SCIENCE

HFL780 TEACHING ACADEMY 1		Credit: 1.0 Term: Year
Prerequisite: None, 10th with teacher permission	Open to: 10-12	Graduation Requirement Satisfied: Occupational Education
<p>Teaching Academy is a 180-hour course designed to give students a “total teaching experience.” The first 90 hours of instruction take place in a traditional classroom setting. Students learn about and explore current and relevant issues in education, as well as various teaching strategies. During this time, students complete observations in local pre-K, elementary, and middle schools. It is through these observations that students begin to apply their foundational knowledge of teaching. At the conclusion of the first 90 hours, students are placed with mentor teachers that best match their grade and subject interest. Through this practicum students will engage in practical, hands-on experiences to complement their first semester learning. This course may apply to all program areas.</p>		

HFL781 TEACHING ACADEMY 2		Credit: 1.0 Term: Year
Prerequisite: Teacher Academy 1	Open to: 11-12	Graduation Requirement Satisfied: Occupational Education
<p>Teacher Academy 2 is a 180-hour course designed for students who have completed Teacher Academy 1 as they continue preparation for careers in education. Students will continue to draw from their first year of this program to apply and improve their understanding of theory and teaching methods. Students will continue participation in a practicum at a local pre-k and/or elementary school and participate in seminars in a traditional classroom setting to satisfy their coursework. Students will create a portfolio and get support as they consider post-secondary training opportunities.</p>		

HFL753 FOODS AND YOU		Credit: .5 Term: Semester
Prerequisite: None	Open to: 9-12	Graduation Requirement Satisfied: Occupational Education
<p>In this semester-long course, techniques in food preparation are developed as well as the basic kitchen utensils and equipment usage. Topics covered will include basic nutrition concepts for health and fitness, current dietary recommendations for maximizing well-being and minimizing risk of chronic disease, as well as unique nutrition needs for selected stages of the life cycle, methods for evaluating credibility of nutrition claims, principles of vegetarian nutrition, principles of energy balance, basic elements of food safety, diet for exercise and sports, and personal dietary evaluation techniques. Participate in multiple food labs and “eat your homework.” Participation in FCCLA project activities will be used as assessments. Food Handler’s Permit is included in this course. This class will provide students with foundational knowledge and skills applied in Culinary Arts and/or Food Production Services - Culinary Arts Internship.</p>		

HFL773 CHILD DEVELOPMENT (Dual Credit)		Credit: .5 Term: Semester
Prerequisite: None	Open to: 10-12	Graduation Requirement Satisfied: Occupational Education
<p>Equip yourself with skills to make a difference in the lives of children. This course explores prenatal through adolescent developmental stages, as well as the various career fields that work with children. In this semester-long course, students will experience guest speakers, field trips, and multiple cooperative learning activities. By partaking in an infant simulation activity, students will learn about the realities of infant care. Students will participate in field observations, have an opportunity to earn a food handler’s card, and get basic training for early childhood education childcare workers and licensed family day care personnel (STARS Certification). Emphasis is on care and guidance of children, infant to age eight. Merit Certified Child Care Basic WWCC ECED & 100, 3 credits; Child Development WWCC EDUC & 115, 5 credits.</p>		

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

HFL764 CULINARY ARTS 1 (Dual Credit)		Credit: 1.0 Term: Year
Prerequisite: None, but Foods & You is highly recommended to be taken beforehand	Open to: 10-12	Graduation Requirement Satisfied: Occupational Education AND Lab Science; with a maximum of 1.0 Science credit for Culinary Arts 1 & 2
<p>Culinary Arts 1st year is a National Restaurant Association approved program. Students work in teams to prepare and serve food. They develop an understanding of the Restaurant and Food Industry, Service and Management. This class focuses on the relationship between food preparation, food science, consumption, health and service. Students learn professional knife cuts, various types of moist and dry heat cooking methods and preparation methods for sandwiches, soups, sauces, stocks, salads, dressing, and introduction to baking such as cookies, cakes, and desserts. All students will obtain a food handlers card included in the class. ServSafe will be taught and testing will be offered to the student. Students passing the ServSafe test will earn 2 credits through Walla Walla Community College. Upon completion of a second year (4 semesters) in this class a student will earn 5 credits towards a Culinary Degree at Walla Walla Community College. Students have opportunities to compete in cooking contests and will participate in National ProStart level testing and ServSafe Certification. Note: The hat and jacket are provided/or students may purchase their own.</p>		

HFL766 CULINARY ARTS 2 (Dual Credit)		Credit: 1.0 Term: Year
Prerequisite: Culinary Arts 1; HFL764	Open to: 11-12	Graduation Requirement Satisfied: Occupational Education AND Lab Science; with a maximum of 1.0 Science credit for Culinary Arts 1 & 2
<p>This course is the 2nd year of the National Restaurant Association approved program. Students need to successfully complete Culinary arts 1 to be in Culinary Arts 2. Students work in teams to prepare and serve food, practicing entry-level culinary skills needed to work in the food industry. In addition to developing professional cooking and baking skills, students will learn budgeting, purchasing, marketing, personnel management and menu planning. A hands-on introduction to the fundamentals of professional cooking, includes kitchen safety operations, professional knife skills, basic food cooking and stock preparation, teamwork, leadership, general housekeeping, sanitation, clean up and inventory. Students completing two years (4 semesters) of this class with a B or better and passing the Restaurant Association tests with 80% or better are eligible to earn 18 community college credits towards a Culinary Degree at Walla Walla Community College. The hat and jacket are provided/or students may purchase their own. This class will provide students with foundational knowledge and skills applied in Food Production Services.</p>		

HFL765 FOOD PRODUCTION SERVICES CULINARY ARTS INTERNSHIP		Credit: 1.0 Term: Year - 400 hour Internship
Prerequisite: Culinary Arts 1 (HFL764) or Foods and You HFL753)	Open to: 10-12	Graduation Requirement Satisfied: Occupational Education
<p>This course will be held at a Personal and Culinary Services Cooperative work site. Upon completion of a ProStart National Certification of Achievement, work-based learning opportunity a student will earn 1 high school credit. This class helps you get and keep a job by teaching valuable skills in hospitality/food service professions. The student will complete a paid or non-paid internship with a mentor working in the food industry. Job site mentors will work with students to provide them with training related to important job skills. The internship combined with classroom experience will prepare students for the world of work or career advancement in the culinary field. Students must be taking the Culinary Arts class to receive work credit for on-the-job training. The culmination of 400 hours can be earned anytime throughout a student's high school career.</p>		

SKILLED AND TECHNICAL SCIENCES

BUS772 GRAPHIC ARTS DESIGN		Credit: .5 or 1.0 Term: Year or Semester
Prerequisite: None	Open to: 9-12	Graduation Requirement Satisfied: Occupational Education AND Fine Arts
<p>Students will explore and apply the principles of design to create computer-generated art. Areas of study will include typography, vector and bitmap imaging, illustration, video, motion graphics, and 2D animation. Graphic Arts combines the design skills of the artist with computer techniques used in today's digital media industry. This course will prepare students for Yearbook Staff, Social Media Marketing, and Careers in Media and Entertainment at SEATech Skill Center.</p>		

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

TIE805 AMPED/Algebra 1 (Two Period Block)		Credits: 2.0 Term: Year
Prerequisite: None	Open to: 9-10	Graduation Requirement Satisfied: 1.0 Algebra 1 AND 1.0 Occupation Education
<p>Algebra 1 in Manufacturing Processes, Entrepreneurship and Design (AMPED on Algebra) is a two period block learning experience. Students will learn and apply Algebra concepts and practices while running an advanced lab business. This business customizes and manufactures textile products and other merchandise composed of wood, metal, an/or plastic. Students will develop skill sets and engineering techniques in composite technologies, laser cutting and engraving, and computer graphics and design. This class also deals with principles of entrepreneurship and use of spreadsheets. Students will receive fundamental knowledge and skills that can be applied in Welding and Fabrication at Wa-Hi and Advanced Manufacturing and Welding at SEATech Skill Center, while also ensuring students have covered the essential topics in Algebra allowing them success in future math classes.</p>		

ITE762 GEOMETRY IN CONSTRUCTION (Two Period Block)		Credits: 2.0 Term: Year
Prerequisite: Completion of Algebra 1 (MAT435) or AMPED/Algebra 1 (TIE805)	Open to: 9-12	Graduation Requirement Satisfied: Occupational Education AND 1.0 Geometry
<p>Geometry in Construction (GeoCon) is a two period block course that combines Geometry and construction to give students an incredible opportunity with a hands-on introduction to the construction building trades. This integrated hands-on approach for learning math blends Geometry concepts with real-world construction skills. Students will be exposed to construction careers such as engineering, architecture, construction trades and management, interior design, and surveying. Students will learn: geometry in the context of construction, safety, problem solving, employability and leadership skills, tool use, and drawing interpretation as they build a functional, full sized structure on campus. Leadership and 21st century skills development is an integral component of this program. This class will provide students with foundational knowledge and skills applied in the Construction Technology program at SEATech Skill Center.</p>		

ART250 DIGITAL PHOTOGRAPHY		Credit: .5 or 1.0 Term: Year or Semester
Prerequisite: None	Open to: 9-12	Graduation Requirement Satisfied: Occupational Education AND Fine Arts
<p>Students will learn the basics of manual camera operation and image exposure as well as compositional use of principles and elements. Specific assignments take each student through a progression of camera operation, exposure experience and compositional learning. Cameras are provided, however, students may use their own manual DSLR. This course will prepare students with foundational knowledge and skills applied in Graphic Arts Design, Yearbook Staff, Social Media Marketing, or Careers in Media and Entertainment at SEATech Skill Center.</p>		

MSC930 MILITARY SCIENCE 1: Introduction to Citizenship		Credit: 1.0 Term: Year
Prerequisite: None	Open to: 9-12	Graduation Requirement Satisfied: Occupational Education AND Physical Education; Health requirement is satisfied if taken 2 consecutive years
<p>Introduction to citizenship, basic duties of the branches of the military, understanding of our national symbols (Anthem, flag, etc.), and organizational principles. This course introduces teamwork and leadership development through team building scenarios, group activities, and team sports. Continual discussion and practice of fitness and healthy lifestyles. This class will provide students with foundational knowledge and skills applied in Military Science 2.</p>		

MSC940 MILITARY SCIENCE 2: Introduction to Leadership Development		Credit: 1.0 Term: Year
Prerequisite: Military Science 1 (MSC930) and Teacher Permission	Open to: 10-12	Graduation Requirement Satisfied: Occupational Education AND Physical Education; Health requirement is satisfied if taken 2 consecutive years
<p>Discussion of managerial techniques, the aspects of mutual respect (leader/subordinate relationship), duties of a leader/manager, the building of teamwork and team spirit, the flow of communications, and the problem-solving process. Students begin the process of transitioning to college or the workplace through instruction and practical application. This class will provide students with foundational knowledge and skills applied in Military Science 3.</p>		

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

MSC950 MILITARY SCIENCE 3: Intermediate Leadership Development		Credit: 1.0 Term: Year
Prerequisite: Military Science 2 (MSC940) and Teacher Permission	Open to: 11-12	Graduation Requirement Satisfied: Occupational Education AND Physical Education; Health requirement is satisfied if taken 2 consecutive years
<p>Discussion of managerial techniques, the aspects of mutual respect (leader/subordinate relationship), duties of a leader/manager, the building of teamwork and team spirit, the flow of communications, and the problem-solving process. Students begin the process of transitioning to college or the workplace through instruction and practical application. This class will provide students with foundational knowledge and skills applied in Military Science 4.</p>		

MSC980 MILITARY SCIENCE 4: Advanced Leadership Development		Credit: 1.0 Term: Year
Prerequisite: Military Science 3 (MSC950), Senior Standing and Teacher Permission	Open to: 12	Graduation Requirement Satisfied: Occupational Education AND Physical Education
<p>Students will learn the psychology of leadership, moral aspects of leadership, group relations and behavior, communications management of resources. Students assume leadership roles and manage major projects throughout the year. This course also prepares for post high school endeavors including college, managerial employment, and service in the military. Students learn basic real world financial management including insurance, investment, banking, and day-to-day budgeting.</p>		

MSC959 AMERICAN MILITARY HISTORY		Credit: .5 or 1.0 Term: Year or Semester
Prerequisite: None	Open to: 10-12	Graduation Requirement Satisfied: Occupational Education AND Social Studies Elective OR Contemporary World Problems
<p>This class examines the development of western warfare from the Greeks to the Civil War first semester and World War I to modern day second semester. The course includes technological and weapon development, battle tactics, great warrior leaders, and the relationship between the military, the nation, and society. Course instruction includes lecture, discussion of current events and links to the past, historical video presentation, hands on artifacts, and real world in-class presentations and experiences from military veterans.</p>		

MSC949 RIFLE MARKSMANSHIP 1		Credit: 1.0 Term: Year
Prerequisite: None	Open to: 9-12	Graduation Requirement Satisfied: Occupational Education AND Physical Education; Health requirement is satisfied if taken 2 consecutive years
<p>Introduction to firearms safety, and rifle marksmanship. Instruction is performed with the use of air rifles and includes the opportunity to participate as a member of the Wa-Hi Competition Rifle Team. This class will provide students with foundational knowledge and skills applied in Rifle Marksmanship 2.</p>		

MSC969 RIFLE MARKSMANSHIP 2		Credit: 1.0 Term: Year
Prerequisite: Rifle Marksmanship 1 (MSC949) (or Hunter Education with a B average or higher)	Open to: 10-12	Graduation Requirement Satisfied: Occupational Education AND Physical Education; Health requirement is satisfied if taken 2 consecutive years
<p>Advanced Rifle Marksmanship offers the theory and practice of Three Position air rifle shooting. Curriculum includes sports physiology, and the technical aspects of Olympic caliber competition rifles and equipment. Students also learn many components of leadership theory and application and aspects of peer coaching using the Army JROTC model. This course is offered to advanced competitive rifle shooters and requires instructor permission.</p>		

AGRICULTURE EDUCATION

AGR847 FLORICULTURE (Dual Credit)		Credit: 1.0 Term: Year
Prerequisite: None	Open to: 10-12	Graduation Requirement Satisfied: Occupational Education AND Fine Art
<p>This course is designed to provide students with introductory training and skills needed for employment as a floral designer or employment related to nursery management and ornamental horticulture. Students will design and fashion live, cut, dried, and artificial floral arrangements for special events. Activities include learning retail-pricing methods, gaining knowledge of design and design patterns, use of industry standard supplies, and employment opportunities. Although not a required prerequisite, this class will provide students with foundational knowledge and skills applied to Horticulture and/or Biotechnology.</p>		

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

AGR860 HORTICULTURE/LANDSCAPING (Dual Credit)		Credit: .5 or 1.0 Term: Year or Semester
Prerequisite: None	Open to: 9-12	Graduation Requirement Satisfied: Occupational Education
<p>This course is open to students interested in studying career opportunities in horticulture and in developing skills of the orchardist, vegetable grower, and greenhouse operator. Emphasis will be given to vegetable crops, ornamental plant materials and management, plant propagation, and basic landscape design. Classroom safety is an integral part of this class. Although not a required prerequisite, this class will provide students with foundational knowledge and skills that could be applied in Floriculture and/or Biotechnology.</p>		

AGR843 PHYSICAL SCIENCE IN AGRICULTURE		Credit: 1.0 Term: Year
Prerequisite: None	Open to: 9	Graduation Requirement Satisfied: Occupational Education AND Lab Science
<p>Satisfies 2 High School Graduation requirements. Lab Science and Occupational Education. Year 1 in a 3-year sequence designed to meet high school and college requirements. The focus of this class is to expose students to mechanics, power, technology, and career options in the world of agriculture. Students participating in this course will have experiences in various mechanical and engineering concepts with hands-on activities, projects, and problems. Students' experiences will involve the study of energy, tool operation and safety, material properties, machine operation, and structural components. Students will acquire the basic skills to operate, repair, engineer, and design agricultural tools and equipment. Throughout the course, students will apply the engineering principles to the construction of machines and structures. Students will explore projects and problems similar to those that a technician or engineer may face in their respective careers. In addition, students will understand specific connections between science, math, and technical skills applied to Supervised Agricultural Experiences and FFA components that play an important role in developing an informed agricultural education student. Students will investigate, experiment, and learn about documenting a project, solving problems, and communicating their solutions to their peers and members of the professional community. Although not a required prerequisite, this class will provide students with foundational knowledge and skills applied in Plant Biology, Animal Biology, or Agricultural Mechanics. This course will prepare students for the WCAS, Washington's State Science Assessment.</p>		

AGR851 ANIMAL BIOLOGY (Dual Credit)		Credit: 1.0 Term: Year
Prerequisite: None	Open to: 10-12	Graduation Requirement Satisfied: Occupational Education AND Lab Science
<p>Satisfies 2 High School Graduation requirements. Lab Science and Occupational Education. Year 2 in a 3-year sequence designed to meet high school and college requirements. Animal Biology is designed to provide learning experiences for students in the areas of animal nutrition, cell structures, anatomy and physiology. Students will investigate, experiment, and learn about documenting a research project, solving problems, and communicating their solutions to their peers and members of the professional community. Leadership development in FFA will also be encouraged. Although not a required prerequisite, this class will provide students with foundational knowledge and skills applied in Veterinary Assistance, AP Environmental Science and/or Biotechnology. This course will prepare students for the WCAS, Washington's State Science Assessment.</p>		

AGR861 PLANT BIOLOGY (Dual Credit)		Credit: 1.0 Term: Year
Prerequisite: None	Open to: 10-12	Graduation Requirement Satisfied: Occupational Education AND Lab Science OR Biology
<p>Satisfies 2 High School Graduation requirements. Lab Science and Occupational Education. Year 2 in a 3-year sequence designed to meet high school and college requirements. Plant Biology is designed to provide "hands-on" activities, projects, and problems. Student experiences will include the study of plant anatomy and physiology, soil science, hydroponics and the fundamentals of growing and propagating plants. Students will learn how to apply scientific knowledge and skills to use plants effectively for agronomic, forestry, and horticultural industries. Students will discover the value of plant production and its impact on the individual, the local, and the global economy. Students will work on major projects and problems similar to those that plant science specialists, such as horticulturalists, agronomists, greenhouse and nursery managers, and plant research specialists, face in their respective careers. Leadership development in FFA will also be encouraged. Although not a required prerequisite, this class will provide students with foundational knowledge and skills applied in Floriculture, Horticulture, AP Environmental Science and/or Biotechnology. This course will prepare students for the WCAS, Washington's State Science Assessment.</p>		

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

SCI594 AP ENVIRONMENTAL SCIENCE		Credit: 1.0 Term: Year
--	--	--------------------------------------

Prerequisite: Honors Geometry (MAT448) OR Geometry (MAT480) OR Geometry in Construction (ITE762)	Open to: 9-12	Graduation Requirement Satisfied: Occupational Education AND Lab Science
---	----------------------	---

This introductory course is designed to be the equivalent of a one-semester, introductory college course in environmental science covering the following topics: energy conversions underlie all ecological processes, the Earth itself is one interconnected system, humans alter natural systems, environmental problems have a cultural and social context, human survival depends on developing practices that will achieve sustainable systems. Successful completion of this course will prepare students for AP Biology, AP Chemistry, or AP Physics. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify. All 9th and 10th grade students are required to have a recommendation from their previous science teacher to enroll in this course.

AGR841 VETERINARY ASSISTANT		Credit: 1.0 Term: Year
------------------------------------	--	--------------------------------------

Prerequisite: None	Open to: 11-12	Graduation Requirement Satisfied: Occupational Education AND Lab Science
---------------------------	-----------------------	---

This course is designed to prepare students for careers relating to veterinary science. Students in this class will learn about companion animals and livestock with emphasis in animal handling, restraint procedures, medical examinations, vaccinations, routine medical procedures, office administration skills, patient and owner management, animal health, and nutrition. Students will have the opportunity to bring their own animals to class for examinations and assist with the birthing and care of school farm animals. Be prepared to get your hands dirty.

AGR850 AGRICULTURAL MECHANICS 1		Credit: 1.0 Term: Year
--	--	--------------------------------------

Prerequisite: None	Open to: 9-12	Graduation Requirement Satisfied: Occupational Education
---------------------------	----------------------	---

Agricultural Mechanics is an introductory course that explores a wide variety of mechanical processes. Students will use scientific and mathematical applications through relevant mechanical topics. In addition, students will complete numerous lab-based and project-based activities that will give students the opportunity to develop an understanding of the scientific process and increase hand-eye coordination and motor skills. Areas of study in this course include careers in agriculture mechanics, mechanical safety and hazards, and safe operation of hand and power tools. Topic clusters in this course include metallurgy, electrical power, plumbing, irrigation, hydraulics, small gas engines, rope work, measuring and scale drawing, tap & dye, basic welding and fabrication and more. In addition, students will understand specific connections between science, math, and technical skills applied to Supervised Agricultural Experiences and FFA components that play an important role in developing an informed agricultural education student. This class will provide students with foundational knowledge and skills applied in Welding or Agricultural Mechanics 2.

AGR855 AGRICULTURAL MECHANICS 2		Credit: 1.0 Term: Year
--	--	--------------------------------------

Prerequisite: Agricultural Mechanics 1 (AGR850)	Open to: 10-12	Graduation Requirement Satisfied: Occupational Education
--	-----------------------	---

Agricultural Mechanics 2 is an advanced course for students interested in studying in depth subjects relating to mechanics, technology and agricultural engineering. The goal of this course is designed to prepare students with advanced level experiences in selected major areas of agricultural mechanics technology which may include small engine maintenance and repair, metal fabrication and design, concrete construction, building construction, plumbing, electricity and wiring, maintenance of agricultural machinery, equipment and tractors, and soil and water conservation. Learning activities include information, skill development and problem solving.

AGR845 WELDING AND METAL FABRICATION (Dual Credit)		Credit: 1.0 Term: Year
---	--	--------------------------------------

Prerequisite: None	Open to: 10-12	Graduation Requirement Satisfied: Occupational Education
---------------------------	-----------------------	---

This course may be repeated with instructor approval. Students will complete units emphasizing skills in operation and safety of shop equipment. First semester will primarily be developing basic skills in SMAW (Arc) and OAW (oxy-fuel) welding. Second semester will include instruction in GMAW (Mig) and GTAW (Tig) welding, Plasma CNC operation along with individualized projects. In addition, students will understand specific connections between science, math, and technical skills applied to supervised agricultural experiences and FFA components that play an important role developing an informed agricultural education student. Students' shop safety is an essential part of this class. Coveralls or other acceptable protective clothing must be worn in shop classes and are the responsibility of each student unless other arrangements are made with the instructor. This class will provide students with foundational knowledge and skills applied in Agricultural Mechanics 1 or 2 or Advanced Manufacturing and Welding at SEATech Skills Center.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

TIE882 BIOTECHNOLOGY		Credit: 1.0 Term: Year
Prerequisite: Successful completion of a biology class: Biology (SCI564), Animal Biology (AGR851), or Plant Biology (AGR861)	Open to: 11-12	Graduation Requirement Satisfied: Occupational Education AND Lab Science
<p>Animal and Plant Biotechnology, provides students with experiences in industry appropriate applications of biotechnology related to plant and animal agriculture as well as medicine. Students will complete hands-on activities, projects, and problems designed to build content knowledge and technical skills involving micro-pipetting, bacterial cultures and transformations, electrophoresis, polymerase chain reaction, bioremediation and tissue culture.</p>		

HEALTH SCIENCE

TIE895 SPORTS MEDICINE 1		Credit: 1.0 Term: Year
Prerequisite: *Freshman should have a strong science background and/or interest in a medical field	Open to: 9*-12	Graduation Requirement Satisfied: Occupational Education AND Science Elective OR Health
<p>Sports Medicine 1 students will be introduced to the concept of the sports medicine team and the wide variety of professions within that field. They will also gain basic knowledge and skills related to the lower extremity, human performance, concussions, medical terminology, medical research, emergency procedures, and become certified in First Aid and CPR. Students will also participate in community/school engagement activities. Students will be expected to get practical experience working with the athletic training staff during practices and athletic competitions. The Sports Medicine program will include hands-on classroom and lab instruction on how to safely evaluate, treat, rehabilitate, and tape to support athletic injuries. Students will also have the opportunity to compete in the Washington Career and Technical Sports Medicine Associate state competition. Leadership development in the Washington Career and Technical Sports Medicine Association will be encouraged.</p>		

TIE898 SPORTS MEDICINE 2		Credit: 1.0 Term: Year
Prerequisite: Sports Medicine 1 (TIE895)	Open to: 10-12	Graduation Requirement Satisfied: Occupational Education AND Science Elective OR Health
<p>Sports Medicine 2 students will build upon basic knowledge gained in Sports Medicine 1, with a focus on the upper extremity, head, neck, spine, general medical conditions, and current events in sports medicine. Students will also participate in and lead community/school engagement activities. Students will be expected to get practical experience working with the athletic training staff during practices and athletic competitions. The Sports Medicine program will include hands-on classroom and lab instruction on how to safely evaluate, treat, rehabilitate, and tape to support athletic injuries. Students will also have the opportunity to compete in the Washington Career and Technical Sports Medicine Association state competition. Leadership development in the Washington Career and Technical Sports Medicine Association will be encouraged.</p>		

SCI585 HUMAN BODY SYSTEMS		Credit: 1.0 Term: Year
Prerequisite: *9th and 10th graders are required to be concurrently enrolled in an approved 9th or 10th grade science class in addition to Human Body Systems (SCI585).	Open to: 9-10*; 11-12	Graduation Requirement Satisfied: Occupational Education AND Lab Science
<p>Students examine the interactions of human body systems as they explore identity, power, movement, protection, and homeostasis. Students design experiments, investigate the structures and functions of the human body, and use data acquisition software to monitor body functions such as muscle movement, reflex and voluntary action, and respiration. Exploring science in action, students build organs and tissues on a skeletal Maniken, work through real-world cases, and play the roles of biomedical professionals to solve medical mysteries.</p>		

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

STEM (Science, Technology, Engineering, Math)

TIE802 APPLIED ALGEBRA 2			Credit: 1.0 Term: Year
Prerequisite: AMPED/Algebra 1 (TIE805) OR Algebra 1 (MAT435) AND Geometry (MAT488) OR Geometry in Construction (ITE762)	Open to: 10-12	Graduation Requirement Satisfied: Occupational Education AND 3rd Year Math	
<p>Students will learn about functions, quadratic equations, conic sections, exponential and logarithmic functions, polynomials, rational functions, sequences and series, probability, and trigonometric functions and identities. This course focuses on the application of mathematics and statistics to the solution of functional problems in fields such as engineering and the applied sciences. This second year course in algebra represents a progression from the concept of numbers as experienced in arithmetic to the notion of properties of numbers without regard to their value. The course includes practical application of mathematical concepts such as exponents and systems of equations and inequalities. This course will fulfill one of the mathematics credits required for graduation. This course may apply to all program areas.</p>			
ITE768 ENGINEERING DESIGN 1			Credit: 1.0 Term: Year
Prerequisite: None	Open to: 9-12	Graduation Requirement Satisfied: Occupational Education	
<p>Students dig deep into the engineering design process, applying math, science, and engineering standards to hands-on projects. They work both individually and in teams to design solutions to a variety of problems using 3D modeling software, and utilize current and innovative trends in materials and technology. This class will provide students with foundational knowledge and skills applied in multiple courses including, but not limited to Engineering Design 2, and Advanced Manufacturing and Welding at SEATech Skills Center.</p>			
ITE798 ENGINEERING DESIGN 2			Credit: 1.0 Term: Year
Prerequisite: Engineering Design 1 (ITE768)	Open to: 10-12	Graduation Requirement Satisfied: Occupational Education	
<p>Through problems that engage and challenge, students explore a broad range of engineering topics, including mechanisms, the strength of materials and structures, automation, and motion. Students develop skills in problem solving, research, and design while learning strategies for design process documentation, collaboration, and presentation. This class will provide students with foundational knowledge and skills applied in Advanced Manufacturing and Welding at SEATech Skills Center.</p>			
TIE820 Drones 1			Credit: 1.0 Term: Year
Prerequisite: None	Open to: 9*-12 (9 with teacher approval)	Graduation Requirement Satisfied: Occupational Education	
<p>Students will learn the skills for a "safety-inspired foundation" for any flight operation involving small unmanned aircraft systems (sUAS) and flown for commercial purposes. This course prepares students to obtain their Federal Aviation Administration (FAA) Part 107 license, if they desire. They must be 16 years or older to earn this license. Key topics will include safety, crew and resource management, and Federal Aviation Regulations. Several hours of structured drone flying will be a component of the course. This class will provide students with foundational knowledge and skills applied in Drones 2. Optional test fees apply.</p>			
TIE822 Drones 2			Credit: 1.0 Term: Year
Prerequisite: Drones 1 (TIE820)	Open to: 10-12	Graduation Requirement Satisfied: Occupational Education	
<p>Students can continue to work towards the nationally recognized sUAS (small-unmanned aircraft systems) certification exam they began in Drones 1. Structured flight time, focus on safety and Federal Aviation Regulations, and advanced foundational knowledge continue as key topics for the class. Students will also begin to work with drone mechanics, both in repairing drones and creating their own drones for various tasks. Robotics, drone racing, and programming are three other aspects new to the Drones 2 course. Optional test fees apply.</p>			

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

ENGLISH

Four (4.0) credits (8 semesters) are required for graduation, which must include Freshman, Sophomore, American Literature and British Literature or their equivalent(s).

Grade Level				Course Offering	Semester Offered	Pre Req
9	10	11	12			
•				Freshman English	ENG335	Year
•				Honors Freshman English	ENG377	Year
	•			Sophomore English	ENG345	Year
	•			Honors Sophomore English	ENG387	Year
		•		College Preparatory American Literature and Composition	ENG359	Year
		•		AP Language and Composition	ENG392	Year

ENGLISH COURSE DESCRIPTION

ENG335 FRESHMAN ENGLISH			Credit: 1.0 Term: Year
Prerequisite: None	Open to: 9	Graduation Requirement Satisfied: Freshman English	
<p>College Entrance requirement - Students will develop skills related to the reading of informational and literary texts. They will identify the author's purpose, determine and trace the development of themes and central ideas, and analyze literary and informational elements. The course includes a focus on supporting claims and analysis with textual evidence. Students also develop skills in argumentative, informative, and narrative writing, including writing a modified research paper in which they incorporate relevant information from resources. Students are also encouraged to select and read books of interest to them.</p>			

ENG377 HONORS FRESHMAN ENGLISH			Credit: 1.0 Term: Year
Prerequisite: None	Open to: 9	Graduation Requirement Satisfied: Freshman English	
<p>College Entrance requirement - This is a rigorous course designed for motivated college-bound students. It lays the foundation for the junior and senior Advanced Placement courses. The course takes a faster, more demanding approach to the skills taught in other 9th grade English courses. Students will develop skills related to the reading of informational and literary texts with an emphasis placed on close critical reading. They will identify the author's purpose, determine and trace the development of themes and central ideas, and analyze literary and informational elements. The course includes a focus on supporting claims and analysis with textual evidence. Students also develop skills in argumentative, informative, and narrative writing, including writing a modified research paper in which they incorporate relevant information from resources. Students are also required to read books selected for them or from a short reading list, both during the school year and over the summer.</p>			

ENG345 SOPHOMORE ENGLISH			Credit: 1.0 Term: Year
Prerequisite: None	Open to: 10	Graduation Requirement Satisfied: Sophomore English	
<p>College Entrance requirement - Students will continue to develop skills related to the reading of informational and literary texts with an emphasis placed on comprehension. The course includes a focus on supporting claims and analysis with textual evidence. Students also develop skills in argumentative, informative, and narrative writing, including writing a modified research paper in which they incorporate relevant information from resources. Students are also encouraged to select and read books of interest to them.</p>			

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

ENG387 HONORS SOPHOMORE ENGLISH		Credit: 1.0 Term: Year
Prerequisite: None	Open to: 10	Graduation Requirement Satisfied: Sophomore English
<p>College Entrance requirement - This is a rigorous course designed for motivated college-bound students. It continues to lay the foundation for the junior and senior Advanced Placement courses and meets the sophomore graduation requirement. The course takes a faster, more demanding approach to the skills taught in other 10th grade English courses. Students will develop skills related to the reading of increasingly complex informational and literary texts with an emphasis placed on close critical reading. Students also develop skills in argumentative, informative, and narrative writing, including writing a modified research paper in which they incorporate relevant information from resources. Students are also required to read books selected for them or from a short reading list, both during the school year and over the summer.</p>		
ENG359 COLLEGE PREPARATORY AMERICAN LITERATURE AND COMPOSITION		Credit: 1.0 Term: Year
Prerequisite: None	Open to: 11	Graduation Requirement Satisfied: Junior English
<p>College Entrance requirement - Students will continue to develop skills related to the reading of informational and literary texts through a study of American Literature. Students also develop skills in argumentative, informative, and narrative writing, including writing a research paper in which they incorporate relevant information from resources. Students are also encouraged to select and read books of interest to them.</p>		
ENG392 AP LANGUAGE AND COMPOSITION		Credit: 1.0 Term: Year
Prerequisite: None	Open to: 11	Graduation Requirement Satisfied: Junior English
<p>College Entrance Requirement; Potential College Credit - This college-level course focuses on rhetorical analysis, composition with an emphasis on argument, and an in-depth examination of several important works of American literature. Students are expected to take the Advanced Placement Language and Composition exam with the possibility of earning college credit. Partial fee waivers are available for students who qualify economically. A summer reading assignment and personal reading are required of students enrolled in this course. This course has met the College Board criteria, and the studies will include college level contents. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify.</p>		
ENG362 BRIDGE TO COLLEGE ENGLISH		Credit: 1.0 Term: Year
Prerequisite: Placement	Open to: 12	Graduation Requirement Satisfied: Senior English
<p>Bridge to College is a new English Course designed for college-bound seniors to prepare them for success in English 101 once they enter college (2-year or 4-year). Students who receive a grade of B or better in the course will automatically be placed in English 101 when they reach college without having to test into it or take remedial classes. The course includes six units over two semesters focusing on improving rhetorical reading and writing skills in a highly interactive environment.</p>		
ENG369 COLLEGE PREPARATORY BRITISH AND WORLD LITERATURE		Credit: 1.0 Term: Year
Prerequisite: None	Open to: 12	Graduation Requirement Satisfied: Senior English
<p>College Entrance Requirement - Students will continue to develop skills related to the reading of informational and literary texts through a study of British and World Literature. Students develop skills in argumentative, informative, narrative and research writing. In addition, the class will provide support for college and scholarship applications, personal essays, and the senior culminating project. Students are also encouraged to select and read books of interest to them. Springboard uses compelling texts-fiction, nonfiction, poetry, drama, visuals and film for analysis using multiple perspectives. Reading, writing, and speaking should all be learned together with a focus on close reading.</p>		
ENG398 AP LITERATURE AND COMPOSITION		Credit: 1.0 Term: Year
Prerequisite: None	Open to: 12	Graduation Requirement Satisfied: Senior English
<p>College Entrance Requirement; Potential College Credit - This college-level course is a survey of important works of world literature with particular emphasis on British literature. Summer reading assignments and personal reading are required of students enrolled in this course. This course has been reviewed by the College Board and has met College Board criteria. Students will read texts appropriate to first-year college students. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify.</p>		

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

FINE ARTS

Two (2.0) credits (4 semesters) are required for graduation. Fine Art credit can be met through the personalized pathway requirement that leads to a specific post high school career or educational outcome chosen by the student. See page 3-4 for details.

FINE ARTS COURSE DESCRIPTIONS

VISUAL ARTS

ART262 DRAWING AND PAINTING		Credit: 1.0 Term: Year
------------------------------------	--	-------------------------------

Prerequisite: None	Open to: 9-12	Graduation Requirement Satisfied: Fine Arts
---------------------------	----------------------	--

Drawing and Painting is a year long class that teaches how to think and behave like an artist. The class will take you through the artistic process, from concept through art making and revisions to final product and critique. New techniques and new media are explored through a variety of class activities, sketchbook entries, choice-based projects, and a reflection process. Students will create a digital art portfolio using Blogger, Sites, Spark, or YouTube. Art history and current artists will be introduced.

ART265 POTTERY AND SCULPTURE 1		Credit: .5 or 1.0 Term: Semester or Year
---------------------------------------	--	---

Prerequisite: None	Open to: 10-12	Graduation Requirement Satisfied: Fine Arts
---------------------------	-----------------------	--

Students in this class will work with clay using hand-building techniques, as well as a potter's wheel. A specific number of projects are required each semester. Students will create a digital portfolio of projects that will be added to all year. This class can only be taken one time, for either a year or two semesters.

ART266 POTTERY AND SCULPTURE 2		Credit: .5 or 1.0 Term: Semester or Year
---------------------------------------	--	---

Prerequisite: Pottery 1 with a grade of B or better	Open to: 11-12	Graduation Requirement Satisfied: Fine Arts
--	-----------------------	--

This course is for students to further develop their skills, their style, and their interest in pottery and sculpture. Additional sculptural materials beyond clay will be used. Students will also be active members of the learning community by mentoring beginning pottery students. A grade of B or better in Pottery I is required, (or with written permission from the pottery teacher). Students will also create artwork to build a digital portfolio for college or career.

ART273 ADVANCED ART		Credit: 1.0 Term: Year
----------------------------	--	-------------------------------

Prerequisite: Drawing and Painting (ART262)	Open to: 10-12	Graduation Requirement Satisfied: Fine Arts
--	-----------------------	--

This course is for students to further develop their skills, their style, and their interest in drawing, painting, and printmaking. Students will create artwork to build a digital portfolio for college or career.

ART280 AP DRAWING		Credit: 1.0 Term: Year
--------------------------	--	-------------------------------

Prerequisite: Drawing and Painting (ART262) and Advanced Studio Art (ART273)	Open to: 11-12	Graduation Requirement Satisfied: Fine Arts
---	-----------------------	--

As an AP student, you'll develop and apply skills of inquiry and investigation, practice, experimentation, revision, communication, and reflection. Portfolio Exams contain two sections. The Sustained Investigation section requires you to conduct an inquiry-guided investigation through practice, experimentation, and revision. For the Selected Works section, work is expected to demonstrate skillful synthesis of materials, processes, and ideas. For both sections of the portfolio, you are expected to share information in writing about your work and submit digital images of your work. If you submit an AP Drawing Portfolio Exam, you'll also send in 5 physical works. The AP Drawing portfolio is designated for work that focuses on the use of drawing skills, including mark-making, line, surface, space, light and shade, and composition. Consider marks that can be used to make drawings, the arrangement of marks, the materials and processes used to make marks, and relationships of marks and ideas. Drawing, painting, printmaking, and mixed media work are among the possibilities for submission. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

ART290 AP 2-D ART & DESIGN		Credit: 1.0 Term: Year
Prerequisite: Drawing and Painting (ART262) and Advanced Studio Art (ART273)	Open to: 11-12	Graduation Requirement Satisfied: Fine Arts
<p>As an AP student, you'll develop and apply skills of inquiry and investigation, practice, experimentation, revision, communication, and reflection. Portfolio Exams contain two sections. The Sustained Investigation section requires you to conduct an inquiry-guided investigation through practice, experimentation, and revision. For the Selected Works section, work is expected to demonstrate skillful synthesis of materials, processes, and ideas. For both sections of the portfolio, you are expected to share information in writing about your work and submit digital images of your work. If you submit an AP 2-D Art and Design Portfolio Exam, you'll also send in physical work or high-quality printed reproductions of physical work.</p> <p>The AP 2-D Art and Design portfolio is designated for work that focuses on the use of two-dimensional (2-D) elements and principles of art and design, including point, line, shape, plane, layer, form, space, texture, color, value, opacity, transparency, time, unity, variety, rhythm, movement, proportion, scale, balance, emphasis, contrast, repetition, figure/ground relationship, connection, juxtaposition, and hierarchy. Consider how materials, processes, and ideas can be used to make work that exists on a flat surface. Collage, fabric design, weaving, fashion design, illustration, painting, and printmaking are among the possibilities for submission. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify.</p>		

ART250 DIGITAL PHOTOGRAPHY		Credit: .5 or 1.0 Term: Year or Semester
Prerequisite: None	Open to: 9-12	Graduation Requirement Satisfied: Occupational Education AND Fine Arts
<p>Students will learn the basics of manual camera operation and image exposure as well as compositional use of principles and elements. Specific assignments take each student through a progression of camera operation, exposure experience and compositional learning. Cameras are provided, however, students may use their own manual DSLR. This course will prepare students with foundational knowledge and skills applied in Graphic Arts Design, Yearbook Staff, Social Media Marketing, or Audio and Video Production at SEATech Skill Center.</p>		

BUS772 GRAPHIC ARTS DESIGN		Credit: .5 or 1.0 Term: Year or Semester
Prerequisite: None	Open to: 9-12	Graduation Requirement Satisfied: Occupational Education AND Fine Arts
<p>Students will explore and apply the principles of design to create computer-generated art. Areas of study will include typography, vector and bitmap imaging, illustration, video, motion graphics, and 2D animation. Graphic Arts combines the design skills of the artist with computer techniques used in today's digital media industry. This course will prepare students for Yearbook Staff, Social Media Marketing, or Audio & Video Production at SEATech Skill Center.</p>		

AGR847 FLORICULTURE (Dual Credit)		Credit: 1.0 Term: Year
Prerequisite: None	Open to: 10-12	Graduation Requirement Satisfied: Occupational Education AND Fine Art
<p>This course is designed to provide students with introductory training and skills needed for employment as a floral designer or employment related to nursery management and ornamental horticulture. Students will design and fashion live, cut, dried, and artificial floral arrangements for special events. Activities include learning retail-pricing methods, gaining knowledge of design and design patterns, use of industry standard supplies, and employment opportunities. Although not a required prerequisite, this class will provide students with foundational knowledge and skills applied to Horticulture and/or Biotechnology.</p>		

DRAMA

DRM260 ACTING WORKSHOP		Credit: .5 or 1.0 Term: Year or Semester
Prerequisite: None	Open to: 9-12	Graduation Requirement Satisfied: Fine Arts
<p>This course is designed as an overview of the theatrical process for any student interested in learning about the theatre with an emphasis on acting. Students will take an active role in the class, taking part daily in physical and vocal warm-ups, drama games, improvisation, acting exercises, and much more. Students will also learn movement skills, basic play analysis skills, acting technique, theatre terminology, theatre history, and stagecraft techniques. Students will leave the course with an exposure to many different elements of the theatre. The focus of the course is on developing the students' acting skills. Students will prepare and present a variety of scenes and monologues.</p>		

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

DRM280 ACTING ENSEMBLE		Credit: 1.0 Term: Year
Prerequisite: Acting Workshop (DRM260) or Teacher Permission	Open to: 10-12	Graduation Requirement Satisfied: Fine Arts
<p>This class is a performance course for students who have completed DRM260 or auditioned for and been selected as a member of the Acting Ensemble. Auditions occur each spring. Students will study acting and directing techniques in more depth than in previous drama courses. There will be focus on working as an ensemble. Performance is mandatory for all students involved in this course.</p>		

DRM285 THEATRE PRODUCTION AND TECHNOLOGY		Credit: .5 or 1.0 Term: Year or Semester
Prerequisite: None	Open to: 9-12	Graduation Requirement Satisfied: Fine Arts
<p>This course will introduce students to many aspects of theater, showing how the pieces come together to create an artistic expression. Students will participate in several hands-on projects to help them achieve this goal. Students will focus on design and creation in areas including set, costume, critique, playwriting, lighting, directing, and production.</p>		

DRM290 CHAMBER DRAMA		Credit: 1.0 Term: Year
Prerequisite: Audition Only	Open to: 10-12	Graduation Requirement Satisfied: Fine Arts
<p>This course is designed to teach students how to utilize their voices to their full potential, while using their improvisational skills, making sure the student is both aware and comfortable on the stage. They will be the face of the Drama Department and be expected to maintain appropriate behavior as such. The students will create audition packages, explore new works, and develop college and career ready skills for the future. Students work toward the assimilation of mind, body and soul to create believable characters for their audiences.</p>		

MUSIC

MUS284 BEGINNING GUITAR		Credit: 1.0 Term: Year
Prerequisite: None	Open to: 9-12	Graduation Requirement Satisfied: Fine Arts
<p>This course deals with the fundamentals of guitar playing for students with no musical training. Students will learn to read music, play melodies, chords and a variety of strum and picking patterns, with an emphasis on folk, classic rock (Beatles, Elvis, Creedence Clearwater Revival, Eagles).</p>		

MUS231 CONCERT BAND		Credit: 1.0 Term: Year
Prerequisite: Middle School Band Level Experience	Open to: 9-12	Graduation Requirement Satisfied: Fine Arts
<p>An entry-level course open to students who wish to study instrumental music. This course deals with the fundamentals of music and instrumental techniques to prepare students for Wind Ensemble. The first two months are devoted to marching activities and the remainder to concert band music. Some evening and out-of-class time is required. Performances are mandatory.</p>		

MUS298 WIND ENSEMBLE		Credit: 1.0 Term: Year
Prerequisite: Teacher Permission	Open to: 9-12	Graduation Requirement Satisfied: Fine Arts
<p>This is a course devoted to the study of advanced band literature. The wind ensemble is Wa-Hi's top band ensemble. Students are expected to be highly motivated and eager to achieve at a very high performance level. The first two months of the year involve marching activities, while the remaining months are devoted to concert literature. Some evening and out of class time is required. Performances are mandatory.</p>		

MUS294 JAZZ ENSEMBLE		Credit: 1.0 Term: Year
Prerequisite: Teacher Permission plus additional course (see below)	Open to: 9-12	Graduation Requirement Satisfied: Fine Arts
<p>This is a course for students interested in performing jazz literature. Some evening and out-of-class time is required. Performances are mandatory. Students are required to take this course concurrently with Concert Band (MUS231) or Wind Ensemble (MUS298) (exceptions may be made with the teacher's permission).</p>		

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

MUS289 STRING ORCHESTRA		Credit: 1.0 Term: Year
Prerequisite: Audition Only (Spring)	Open to: 9-10	Graduation Requirement Satisfied: Fine Arts
<p>This course is designed primarily for students in grades 9-10. In this course, members of the orchestra study music of all historical periods and styles. Students will improve their skills in music reading, instrumental technique, and group dynamics. Performance opportunities include both large and small ensembles as well as solo experiences. This class will sometimes combine with the Symphony Orchestra for rehearsals and performances. Some evening and out-of-class time is required. Purchase of an ASB card and a performance outfit is required. All performances are mandatory.</p>		
MUS287 SYMPHONY ORCHESTRA		Credit: 1.0 Term: Year
Prerequisite: Audition Only - 1 year String Orchestra (MUS289) and Teacher Permission	Open to: 10-12	Graduation Requirement Satisfied: Fine Arts
<p>In this course, members of the orchestra study music of all historical periods and styles. Students will improve their skills in music reading, instrumental technique, and group dynamics. Performance opportunities include both large and small ensemble as well as solo experiences. This class will sometimes combine with the Symphony Orchestra for rehearsals and performances. Some evening and out-of-class time is required. Purchase of an ASB card and a performance outfit is required. All performances are mandatory.</p>		
MUS250 Musical Theater/Modern Dance Ensemble		Credit: 1.0 Term: Year
Prerequisite: Audition Only (Spring)/See Teacher	Open to: 9-12	Graduation Requirement Satisfied: Fine Arts
<p>This course is open to all students, but must meet with the instructor before registering. Course emphasizes basic concepts in vocal production in the musical theater and modern styles of singing, and preparing, blocking, choreographing, and performing music for a showcase concert at the end of each semester. Some evening and out-of-class time is required. Attendance is mandatory at all performances.</p>		
MUS245 TENOR/BASS CHOIR		Credit: 1.0 Term: Year
Prerequisite: None	Open to: 9-12	Graduation Requirement Satisfied: Fine Arts
<p>This ensemble of tenor, baritone, and bass voices studies a wide range of styles and difficulty levels of choral literature. Course promotes beginning/ intermediate vocal production, part-singing, sight-reading, and music theory concepts. This class combines with Treble Choir to perform music as well (Concert Choir). Some evening and out-of-class time is required. Attendance is mandatory at all performances. Other expenses are possibly incurred, as this group has been known to perform and travel on a regional/state basis.</p>		
MUS235 TREBLE CHOIR		Credit: 1.0 Term: Year
Prerequisite: None	Open to: 9-12	Graduation Requirement Satisfied: Fine Arts.
<p>This course is open to students with treble voices (alto, mezzo, and soprano) who function at the beginning/intermediate level. Course covers vocal production, part-singing, sight-reading, and basic music theory concepts. This class combines with Il Divo to perform music as well. Some evening and out-of-class time is required. Attendance is mandatory at all performances.</p>		
MUS234 BELLES VOIX		Credit: 1.0 Term: Year
Prerequisite: Audition only (Spring)	Open to: 9-12	Graduation Requirement Satisfied: Fine Arts
<p>This course is open to students with treble voices (alto, mezzo, and soprano) who function at the intermediate/advanced level. Some knowledge of vocal technique, pitch-matching facility, and music reading is expected as a prerequisite. Course covers vocal production, part-singing, sight reading, and advanced music theory concepts. Some evening and out-of-class time is required. Attendance is mandatory at all performances.</p>		

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

MUS296 CHAMBER SINGERS		Credit: 1.0 Term: Year
Prerequisite: Audition only (Spring) plus one year of Treble Choir (MUS235), Belle Voix (MUS 234)	Open to: 10-12	Graduation Requirement Satisfied: Fine Arts
<p>This is a course for advanced mixed voices (soprano, mezzo, alto, tenor, baritone, and bass) by audition only. Audition is held in the spring of the previous year. This course promotes upper-level vocal production, part-singing, sight-reading, and advanced music theory concepts through study of some of the very finest of choral ensemble literature. There is a heavy emphasis on public performance. Some evening and out-of-class time is required. Attendance is mandatory at all performances and a summer retreat. Other expenses may be incurred.</p>		

If students pass 4 years of consecutive vocal or instrumental courses with a B- or higher at semester, they can receive 1.0 Occupational Education credit. They must submit their portfolio to the principal prior to the 2nd semester of their senior year. See music teacher for details.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

MATHEMATICS

Three (3.0) credits (6 semesters) are required for graduation, which must include Algebra 1, Geometry, and a 3rd year Math.

Grade Level				Course Offering		Semester Offered		Pre Req
9	10	11	12			1st	2nd	
•	•			Algebra 1	MAT435	Year	•	
•	•	•		Geometry	MAT448	Year	•

MATHEMATICS COURSE DESCRIPTIONS

Students must pass the math state testing requirement. Additionally the majority of Washington State 4-year colleges require a minimum of successful completion of Algebra 2 or its equivalent for admission and a placement test, which covers the material in Algebra 2.

MAT435 ALGEBRA 1			Credit: 1.0 Term: Year
Prerequisite: Placement	Open to: 9-10	Graduation Requirement Satisfied: Algebra 1	
<p>College Entrance Requirement-Students will develop mathematical reasoning and problem-solving skills. First semester studies linear equations, inequalities, systems of linear equations and functions. Second semester studies polynomial operations, quadratic equations, exponential functions and statistics. Successful completion of this course prepares the student to take Geometry.</p>			

MAT448 GEOMETRY			Credit: 1.0 Term: Year
Prerequisite: Algebra 1 (MAT435)	Open to: 9-11	Graduation Requirement Satisfied: Geometry	
<p>College Entrance Requirement-Students will develop reasoning and problem-solving skills as they study topics such as construction, congruence, similarity, trigonometry, circles, coordinate geometry and three-dimensional objects. In addition to Geometry content, this course includes numerous examples and exercises involving Algebra 1. Successful completion of this course prepares the student to take College Prep Algebra 2.</p>			

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

MAT455 MODELING OUR WORLD WITH MATHEMATICS			Credit: 1.0 Term: Year
Prerequisite: Geometry (MAT448) and Algebra 1 (MAT435)	Open to: 11-12	Graduation Requirement Satisfied: 3rd Year Math	
<p>College Entrance Requirement-This course is designed to follow Geometry and Algebra 1. Students will use high school mathematics to analyze everyday life and work. They will develop reasoning and problem-solving skills as applied to career-connected thematic units like Health and Fitness, Environmental Science, Civic Readiness, Finances for Life, Digital World, and the Arts. Successful completion of this course prepares students to take Algebra 2.</p>			
MAT480 HONORS GEOMETRY			Credit: 1.0 Term: Year
Prerequisite: Algebra 1 (MAT435)	Open to: 9-10	Graduation Requirement Satisfied: Geometry	
<p>College Entrance Requirement-This course covers Geometric concepts in more depth than in standard Geometry. Students will perform proofs to show their understanding of concepts and logic. Students will develop reasoning and problem-solving skills as they study topics such as congruence and similarity, and apply properties of lines, triangles, quadrilaterals, circles and constructions. Students will develop problem-solving skills by using length, perimeter, area, circumference, surface area, and volume to solve problems. In addition to geometry content, this course includes numerous examples and exercises involving algebra. Successful completion of this course prepares the student to take Honors Algebra 2 or CP Algebra 2.</p>			
MAT460 COLLEGE PREP ALGEBRA 2			Credit: 1.0 Term: Year
Prerequisite: Algebra 1 (MAT435) and completion of or concurrent enrollment in Geometry (MAT448) or Honors Geometry (MAT480)	Open to: 10-12	Graduation Requirement Satisfied: 3rd Year Math	
<p>College Entrance Requirement-This course reviews and extends elementary Algebraic concepts. It includes a study of quadratic, polynomial, rational, exponential, and logarithmic functions, their operations and their graphs. Successful completion of this course prepares students for a variety of high level, rigorous mathematics courses.</p>			
MAT483 HONORS ALGEBRA 2			Credit: 1.0 Term: Year
Prerequisite: Algebra 1 (MAT435) and completion of or concurrent enrollment in Geometry (MAT448) or Honors Geometry (MAT480)	Open to: 9-11	Graduation Requirement Satisfied: 3rd Year Math	
<p>College Entrance Requirement-This course is a required course designed for those students who plan to take science or engineering or continue a study of mathematics at high school or college. This course is taught at a faster pace than Algebra 2 and some topics are covered in more depth. A study of functions and their graphs using transformations, exponential and logarithmic functions, series and sequence, and data analysis along with a study of conic sections are included in this course. Successful completion of this course prepares the student to take the next rigorous level course.</p>			
MAT486 BRIDGE TO COLLEGE MATH			Credit: 1.0 Term: Year
Prerequisite: Completion of CP Algebra 2 (MAT460) OR Honors Algebra 2 (MAT483) and Placement	Open to: 12	Graduation Requirement Satisfied: 3rd Year Math	
<p>Bridge to College Mathematics is a year long course focusing on the key mathematics readiness standards from Washington State's K-12 Learning Standards for Mathematics (the Common Core State Standards for Mathematics) as well as the eight Standards of Mathematical Practices. The course is designed to prepare students for entrance into non-calculus pathway introductory college level mathematics courses. The course addresses key learning standards for high school including Algebra 1, statistics, geometry, and Algebra 2 standards essential for college and career-readiness. The course is only open to seniors who have completed Algebra 2 and earned a 2 on the SBAC.</p>			
MAT488 PRE-CALCULUS			Credit: 1.0 Term: Year
Prerequisite: College Prep Algebra 2 (MAT460) or Applied Algebra 2 (TIE802)	Open to: 10-12	Graduation Requirement Satisfied: 3rd Year Math	
<p>The major emphasis of this course is on study of functions. Some of the topics covered are elementary logic, trigonometry, vectors, limits, series and sequences, and complex numbers. Successful completion of this course prepares students for the next rigorous course. This course will use the same text as the Honors Pre-Calculus but go at a slightly slower pace.</p>			

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

MAT492 STATISTICS		Credit: 1.0 Term: Year
Prerequisite: Completion of College Prep Algebra 2 (MAT460), Honors Algebra 2 (MAT483) or Applied Algebra 2 (TIE802)	Open to: 11-12	Graduation Requirement Satisfied: 3rd Year Math
<p>Statistics is a course designed for students who have successfully completed Algebra 2 or a higher math course. This is an introductory statistics course and over the entire year, students will complete a course that covers the majority of a college introductory statistics course. Students who are considering studying business, math, science, education, or engineering would benefit from taking this course. Students will cover descriptive statistics, probability, probability distributions, confidence intervals, hypothesis testing, correlation, and regression. Students who take this class will need to study and complete homework to be successful.</p>		
MAT490 HONORS PRE-CALCULUS		Credit: 1.0 Term: Year
Prerequisite: Honors Algebra 2 (MAT483) or College Prep Algebra 2 (MAT460)	Open to: 10-12	Graduation Requirement Satisfied: 3rd Year Math
<p>This course places major emphasis on the study of functions. Some of the topics covered are elementary logic, trigonometry, vectors, limits, series and sequences, and complex numbers. Successful completion of this course prepares students to take AP Calculus.</p>		
MAT495 AP CALCULUS AB		Credit: 1.0 Term: Year
Prerequisite: Completion of Pre-Calculus (MAT488) or Honors Pre-Calculus (MAT490)	Open to: 11-12	Graduation Requirement Satisfied: 3rd Year Math
<p>This course is designed to provide students with a background in mathematics, which will prepare them for mathematics and science courses at the college level. Students who complete this course may receive college credit for the course if they score a passing mark (3, 4, or 5) on the AB Advanced Placement Test. The course includes an intensive review of algebra, geometry, trigonometry, and analytic geometry. The course focuses on a study of limits, differentiation, and integration. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify.</p>		
MAT496 AP CALCULUS BC		Credit: 1.0 Term: Year
Prerequisite: Completion of AP Calculus AB (MAT495)	Open to: 11-12	Graduation Requirement Satisfied: Math
<p>This course is designed to provide students with a background in mathematics, which will prepare them for mathematics and science courses at the college level. Students who complete this course may receive college credit for the course if they score a passing mark (3, 4, or 5) on the BC Advanced Placement Test. The course includes an intensive review of limits, differentiation, and integration. The course focuses on the study of a series of constants, polynomial series, and further techniques of differentiation and integration studied in AP Calculus AB. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify.</p>		
MAT497 AP STATISTICS		Credit: 1.0 Term: Year
Prerequisite: Completion of College Prep Algebra 2 (MAT460), Honors Algebra 2 (MAT483) or Applied Algebra 2 (TIE802)	Open to: 11-12	Graduation Requirement Satisfied: 3rd Year Math
<p>Statistics is a course designed for students who have successfully completed Algebra 2 or a higher math course and are seeking to obtain college credit by successfully completing the AP Stats Exam. This is an Advancement Placement course in Statistics and between the start of school and the 1st of May will complete a course that covers the majority of topics on the AP Stats Exam. Students that are considering studying business, math, science, education, sociology, psychology and/or engineering would benefit from taking this course. Students will cover descriptive statistics, probability, probability distributions, confidence intervals, hypothesis testing, correlation and regression. Students who take this class need to be self-motivated, organized and willing to study and complete homework to be successful. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify.</p>		

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

TIE805 AMPED/Algebra 1 (Two Period Block)		Credits: 2.0 Term: Year
Prerequisite: None	Open to: 9-10	Graduation Requirement Satisfied: 1.0 Occupational Education AND 1.0 Algebra 1
<p>Algebra I in Manufacturing Processes, Entrepreneurship and Design (AMPED) is a two block learning experience. Students will learn and apply Algebra concepts and practices while running an advanced lab business. This business customizes and manufactures textile products and other merchandise composed of wood, metal, an/or plastic. Students will develop skill sets and engineering techniques in composite technologies, laser cutting and engraving, and computer graphics and design. This class also deals with principles of entrepreneurship and use of spreadsheets. Students will receive fundamental knowledge and skills that can be applied in Welding and Fabrication at WWJS and Advanced Manufacturing and Welding at SEATech Skill Center, while also ensuring students have covered the essential topics in Algebra allowing them success in future math classes.</p>		

ITE762 GEOMETRY IN CONSTRUCTION (Two Period Block)		Credits: 2.0 Term: Year
Prerequisite: Completion of Algebra 1 (MAT435) or AMPED/Algebra 1 (TIE805)	Open to: 9 - 12	Graduation Requirement Satisfied: 1.0 Occupational Education Elective AND 1.0 Geometry
<p>Geometry in Construction is a two period block course that combines geometry and construction to give students an incredible opportunity with a hands-on introduction to the construction building trades. This integrated hands-on approach for learning math blends geometry concepts with real-world construction skills. Students will be exposed to construction careers such as engineering, architecture, construction trades and management, interior design, and surveying. Students will learn: geometry in the context of construction, safety, problem solving, employability and leadership skills, tool use, and drawing interpretation as they build a functional, full sized structure on campus. Leadership and 21st century skills development is an integral component of this program. This class will provide students with foundational knowledge and skills applied in the Construction Technology program at SEATech Skill Center.</p>		

TIE802 APPLIED ALGEBRA 2		Credit: 1.0 Term: Year
Prerequisite: AMPED/Algebra 1 (TIE805) OR Algebra 1 (MAT435) AND Geometry (MAT488) OR Geometry in Construction (ITE762)	Open to: 10-12	Graduation Requirement Satisfied: Occupational Education AND 3rd Year Math
<p>Students will learn about functions, quadratic equations, conic sections, exponential and logarithmic functions, polynomials, rational functions, sequences and series, probability, and trigonometric functions and identities. This course focuses on the application of mathematics and statistics to the solution of functional problems in fields such as engineering and the applied sciences. This second year course in Algebra represents a progression from the concept of numbers as experienced in arithmetic to the notion of properties of numbers without regard to their value. The course includes practical application of mathematical concepts such as exponents and systems of equations and inequalities. This course will fulfill one of the mathematics credits required for graduation.</p>		

BUS746 ACCOUNTING 1		Credit: 1.0 Term: Year
Prerequisite: None	Open to: 10-12	Graduation Requirement Satisfied: Occupational Education AND 3rd Year Math
<p>Students will learn the "language of business." Areas include keeping track of money for business and personal use, and record and understand the transactions that occur in a business. Students will learn how to reconcile a checking account with the bank, understand accounting concepts, principles and practices, and apply procedures using the computerized accounting program, QuickBooks. This class will provide students with foundational knowledge and skills applied in Accounting 2.</p>		

BUS786 ACCOUNTING 2 (Dual Credit)		Credit: 1.0 Term: Year
Prerequisite: Accounting 1 (BUS746)	Open to: 11-12	Graduation Requirement Satisfied: Occupational Education AND 3rd Year Math
<p>Study will cover manual and computerized accounting, partnerships, departmental, and corporate accounting practices. This course is a must for students who want to: become accounting clerks upon graduation, obtain the accounting skills necessary to advance to the level of junior or assistant accountant following experience as accounting clerks, go to college and major in accounting or some phase of business, or broaden and improve knowledge, understanding, and application of accounting competencies.</p>		

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

TIE883 AP COMPUTER SCIENCE A		Credit: 1.0 Term: Year
Prerequisite: Concurrent enrollment of CP Algebra 2 (MAT460) or higher; Introduction to Computer Programming (TIE874) required	Open to: 10-12	Graduation Requirement Satisfied: Occupational Education AND 3rd year Math
<p>AP Computer Science A is equivalent to a first-semester, college level course in computer science. The course introduces students to computer science with the fundamental topics that include problem solving, design strategies and methodologies, organization of data (data structure), approaches to processing data (algorithms), analysis of potential solutions, and the ethical and social implications of computing. The course emphasizes both object-oriented and imperative problem solving and design using Java language. These techniques represent proven approaches for developing solutions that can scale up from small, simple problems to large, complex Problems. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify.</p>

PHYSICAL EDUCATION COURSE DESCRIPTIONS

Students will be allowed to enroll in only one Physical Education class per semester. All Physical Education classes at Walla Walla High School are co-educational. All students are required to have tennis shoes, a T-shirt or sweatshirt, and shorts or sweatpants. The student will be responsible to regularly clean his/her uniform and keep it in good repair. Fitness training is a physical fitness component in every Physical Education class.

PEM901 HEALTH			Credit: .5 Term: Semester
Prerequisite: None	Open to: 9-10	Graduation Requirement Satisfied: Health	
This class is designed to teach about aspects of health, including personal health, injury prevention, community health, nutrition and fitness, personal development, family living, and alcohol, tobacco, and drugs. Health CBA will be administered.			

PEM903 INTRO TO TEAM SPORTS			Credit: .5 or 1.0 Term: Semester or Year
Prerequisite: None	Open to: 9-12	Graduation Requirement Satisfied: Physical Education	
Intro to Team Sports will offer an introduction to a wide variety of team sports that can be played both indoors and outdoors. The units will give students skill development and game knowledge. Possible sports played: Flag Football, Ultimate Frisbee, Team Handball, Speedball, Basketball, Soccer (indoor/outdoor), and various other sports. Fitness training is a class component.			

PEM904 INTRO TO NET SPORTS			Credit: .5 or 1.0 Term: Semester or Year
Prerequisite: None	Open to: 9-12	Graduation Requirement Satisfied: Physical Education	
Intro to Net Sports is designed to introduce students to a wide variety of net sports that can be played both indoor and outdoor. Curriculum will include Badminton, Pickleball, Tennis, Volleyball and other net game variations. The units will give students skills development and game knowledge. Fitness training is a class component.			

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

PEM905 LOW IMPACT FITNESS		Credit: .5 or 1.0 Term: Semester or Year
Prerequisite: None	Open to: 9-12	Graduation Requirement Satisfied: Physical Education
<p>To develop lean muscle mass and decrease body fat while improving joint mobility and stability. A variety of challenging metabolic strength training and body weight exercises will be incorporated along with light running, walking, yoga, and more. Emphasis will be placed on improving knowledge of proper nutrition, goal setting, and overall wellness. Fitness training is a class component.</p>		

PEM955 WEIGHT TRAINING AND AEROBICS		Credit: .5 or 1.0 Term: Semester or Year
Prerequisite: None	Open to: 9-12	Graduation Requirement Satisfied: Physical Education
<p>Improve your strength, muscle tone and develop your core. This course is designed for all levels of ability and experience. Functional strength training and conditioning will emphasize both traditional and non-traditional strength training methods and various forms of cardiovascular exercise. The course is designed to develop full body strength, muscle tone, bone density, improve your balance and increase your metabolic rate. Fitness training is a class component.</p>		

PEM965 STRENGTH TRAINING AND CONDITIONING		Credit: .5 or 1.0 Term: Semester or Year
Prerequisite: None	Open to: 9-12	Graduation Requirement Satisfied: Physical Education
<p>To develop strength, lean muscle mass, and overall fitness by utilizing functional strength training, metabolic training, and aerobic exercise. Emphasis will be placed on proper nutrition and wellness. Running is a class component.</p>		

PEM995 ADVANCED STRENGTH TRAINING AND CONDITIONING		Credit: .5 or 1.0 Term: Semester or Year
Prerequisite: A minimum of 1 semester of Strength Training and Conditioning (PEM965)	Open to: 10-12	Graduation Requirement Satisfied: Physical Education
<p>To enhance athletic ability and help prevent injury by utilizing functional strength training, speed and agility drills, and plyometrics. Additional emphasis will be placed on unilateral training, core stability, proper nutrition and recovery methods. Freshman may be approved to take this class 2nd semester of their freshman year. Successful completion of Strength Training required.</p>		

IND935 INDEPENDENT STUDY PE		Credit: 1.0 Term: Year
Prerequisite: Application required	Open to: 11-12	Graduation Requirement Satisfied: Physical Education
<p>Independent Study PE is a fitness class offered outside the traditional school day with priority going to seniors who need an option to meet PE requirements. An application is required for admittance and weekly progress check-ins are required.</p>		

MILITARY SCIENCE

MSC930 MILITARY SCIENCE 1: Introduction to Citizenship		Credit: 1.0 Term: Year
Prerequisite: None	Open to: 9-12	Graduation Requirement Satisfied: Occupational Education AND Physical Education; Health requirement is satisfied if taken 2 consecutive years
<p>Introduction to citizenship, basic duties of the branches of the military, understanding of our national symbols (Anthem, flag, etc.), and organizational principles. This course introduces teamwork and leadership development through team building scenarios, group activities, and team sports. Continual discussion and practice of fitness and healthy lifestyles. This class will provide students with foundational knowledge and skills applied in Military Science 2.</p>		

MSC940 MILITARY SCIENCE 2: Introduction to Leadership Development		Credit: 1.0 Term: Year
Prerequisite: Military Science 1 (MSC930) and Teacher Permission	Open to: 10-12	Graduation Requirement Satisfied: Occupational Education AND Physical Education; Health requirement is satisfied if taken 2 consecutive years
<p>Discussion of managerial techniques, the aspects of mutual respect (leader/subordinate relationship), duties of a leader/manager, the building of teamwork and team spirit, the flow of communications, and the problem-solving process. Students begin the process of transitioning to college or the workplace through instruction and practical application. This class will provide students with foundational knowledge and skills applied in Military Science 3.</p>		

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

MSC950 MILITARY SCIENCE 3: Intermediate Leadership Development			Credit: 1.0 Term: Year
Prerequisite: Military Science 2 (MSC940) and Teacher Permission	Open to: 11-12	Graduation Requirement Satisfied: Occupational Education AND Physical Education; Health requirement is satisfied if taken 2 consecutive years	
<p>Discussion of managerial techniques, the aspects of mutual respect (leader/subordinate relationship), duties of a leader/manager, the building of teamwork and team spirit, the flow of communications, and the problem-solving process. Students begin the process of transitioning to college or the workplace through instruction and practical application. This class will provide students with foundational knowledge and skills applied in Military Science 4.</p>			
MSC980 MILITARY SCIENCE 4: Advanced Leadership Development			Credit: 1.0 Term: Year
Prerequisite: Military Science 3 (MSC950), Senior Standing and Teacher Permission	Open to: 12	Graduation Requirement Satisfied: Occupational Education AND Physical Education	
<p>Students will learn the psychology of leadership, moral aspects of leadership, group relations and behavior, communications management resources. Students assume leadership roles and manage major projects throughout the year. This course also prepares for post high school endeavors including college, managerial employment, and service in the military. Students learn basic real world financial management including insurance, investment, banking, and day-to-day budgeting.</p>			
MSC949 RIFLE MARKSMANSHIP 1			Credit: 1.0 Term: Year
Prerequisite: None	Open to: 9-12	Graduation Requirement Satisfied: Occupational Education AND Physical Education; Health requirement is satisfied if taken 2 consecutive years	
<p>Introduction to firearms safety, and rifle marksmanship. Instruction is performed with the use of air rifles and includes the opportunity to participate as a member of the Wa-Hi Competition Rifle Team. This class will provide students with foundational knowledge and skills applied in Rifle Marksmanship 2.</p>			
MSC969 RIFLE MARKSMANSHIP 2			Credit: 1.0 Term: Year
Prerequisite: Rifle Marksmanship 1 (MSC949) or Hunter Education with a B average or higher	Open to: 10-12	Graduation Requirement Satisfied: Occupational Education AND Physical Education; Health requirement is satisfied if taken 2 consecutive years	
<p>Advanced Rifle Marksmanship offers the theory and practice of Three Position air rifle shooting. Curriculum includes sports physiology, and the technical aspects of Olympic caliber competition rifles and equipment. Students also learn many components of leadership theory and application and aspects of peer coaching using the Army JROTC model. This course is offered to advanced competitive rifle shooters and requires instructor permission.</p>

SCIENCE COURSE DESCRIPTIONS

SCI554 PHYSICS			Credit: 1.0 Term: Year
Prerequisite: None	Open to: 9-10	Graduation Requirement Satisfied: Lab Science	
<p>Physics is an introductory course designed to meet high school graduation and college entrance requirements. Physics is a conceptual science class that will focus on creating arguments from evidence. Semester 1 will cover the basic concepts of motion, energy, and forces. Semester 2 will focus on wave phenomena, light, and electricity and magnetism. Specific attention will be placed on the Science and Engineering practices of properly collecting, displaying, and analyzing patterns in data. This course will prepare students for the WCAS, Washington's State Science Assessment.</p>			

SCI584 CHEMISTRY			Credit: 1.0 Term: Year
Prerequisite: Algebra 1 (MAT435) or AMPED Algebra 1 (TIE802)	Open to: 9-12	Graduation Requirement Satisfied: Lab Science AND Quantitative (Algebra Based) Science	
<p>Chemistry is an introductory course designed to meet high school graduation and college entrance requirements. This introductory course covers the concepts of measurement, dimensional analysis, the nature of matter, chemical reactions, chemical bonding, nuclear chemistry and argument from evidence. This course meets the requirements of an algebra-based science required for entry to most four-year colleges and universities. This course will prepare students for the WCAS, Washington's State Science Assessment.</p>			

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

SCI564 BIOLOGY		Credit: 1.0 Term: Year
Prerequisite: 1 year of high school science	Open to: 10-12	Graduation Requirement Satisfied: Lab Science
<p>Biology is an introductory course designed to meet high school graduation and college entrance requirements. In this lab-based course, students will have the opportunity to better understand their relationship with other living things. Students will explore the fundamental characteristics of living matter and the unifying principles of life. The course is framed around the themes of structure and function as well as interaction and change. Students will study and learn about biodiversity, cell biology, genetics, ecology, environmental issues and evolution. Additional skills such as data analysis, collaboration, and communication will be present in all units. This course will prepare students for WCAS, Washington's State Science Assessment.</p>		

SCI585 HUMAN BODY SYSTEMS		Credit: 1.0 Term: Year
Prerequisite: *9th and 10th graders are required to be concurrently enrolled in an approved 9th or 10th grade science class in addition to Human Body Systems (SCI585).	Open to: 9-10*; 11-12	Graduation Requirement Satisfied: Occupational Education AND Lab Science
<p>Students examine the interactions of human body systems as they explore identity, power, movement, protection, and homeostasis. Students design experiments, investigate the structures and functions of the human body, and use data acquisition software to monitor body functions such as muscle movement, reflex and voluntary action, and respiration. Exploring science in action, students build organs and tissues on a skeletal Maniken™, work through real-world cases, and play the roles of biomedical professionals to solve medical mysteries.</p>		

SCI573 AP BIOLOGY		Credit: 1.0 Term: Year
Prerequisite: Chemistry (SCI584) OR AP Environmental Science (SCI594) OR AP Chemistry (SCI591)	Open to: 10*-12	Graduation Requirement Satisfied: Lab Science
<p>AP Biology is equivalent to a college class usually taken by students in their first year of college. It prepares students to take the Biology Advanced Placement Exam in the spring. This is an extremely rigorous course for the highly motivated student. The curriculum includes the chemistry of life, cells and cellular energetics, genetics and heredity, evolution, diversity of organisms, structure and function of both plants and animals and ecology. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify. *10th graders are required to have a teacher recommendation from their 9th grade science teacher.</p>		

SCI591 AP CHEMISTRY		Credit: 1.0 Term: Year
Prerequisite: Honors Algebra 2 (MAT483) OR CP Algebra 2 (MAT460) OR Applied Algebra 2 (TIE802)	Open to: *10-12	Graduation Requirement Satisfied: Lab Science AND Quantitative (Algebra Based) Science
<p>This course is designed to be the equivalent of the general chemistry course usually taken during the first year of college and follows the College Board's AP Chemistry syllabus. This course presents a rigorous treatment of the following concepts: the nature of matter, gas laws, thermodynamics, stoichiometry, bonding, chemical kinetics, chemical equilibria, and more. Students are expected to be motivated and spend extra time outside of class. The problem-solving strategies obtained during this course will prepare college-bound students for careers in the sciences, medicine, engineering, and other technical areas. This course meets the requirements of an algebra-based science required for entry to most four-year colleges and universities. AP Chemistry is available to sophomores, juniors and seniors only. Successful completion of this course will prepare students for AP Biology, AP Physics 1, or AP Environmental Science. Satisfies quantitative course requirements many colleges have for senior year. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify. *10th graders are required to have a teacher recommendation from their 9th grade science teacher.</p>		

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

SCI594 AP ENVIRONMENTAL SCIENCE		Credit: 1.0 Term: Year
Prerequisite: Honors Geometry (MAT448) OR Geometry (MAT480) OR Geometry in Construction (ITE762)	Open to: *9-12	Graduation Requirement Satisfied: Lab Science AND Occupational Education (CTE)
<p>This introductory course is designed to be the equivalent of a one-semester, introductory college course in environmental science covering the following topics: energy conversions underlie all ecological processes, the Earth itself is one interconnected system, humans alter natural systems, environmental problems have a cultural and social context, human survival depends on developing practices that will achieve sustainable systems. Successful completion of this course will prepare students for AP Biology, AP Chemistry, or AP Physics. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify. *All 9th and 10th grade students are required to have a recommendation from their previous science teacher to enroll in this course.</p>		
SCI593 AP PHYSICS 1: ALGEBRA BASED		Credit: 1.0 Term: Year
Prerequisite: Honors Algebra 2 (MAT483) OR CP Algebra 2 (MAT460) OR Applied Algebra 2 (TIE802)	Open to: 10-12	Graduation Requirement Satisfied: Lab Science AND Quantitative (Algebra Based) Science
<p>This introductory course is equivalent to a first-semester college course in algebra-based physics. The course covers Newtonian mechanics (including rotational dynamics and angular momentum): work, energy and power. Knowledge of algebra and basic trigonometry is required for the course. This course meets the requirements of an algebra-based science required for entry to most four-year colleges and universities. Successful completion of this course will prepare students for AP Biology, AP Chemistry, and AP Environmental Science. Satisfies quantitative course requirements many colleges have for senior year. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify. *10th graders are required to have a teacher recommendation from their 9th grade science teacher.</p>		
TIE881 AP COMPUTER SCIENCE PRINCIPLES		Credit: 1.0 Term: Year
Prerequisite: Introduction to Computer Programming (TIE874) recommended but not required.	Open to: 10-12	Graduation Requirement Satisfied: Occupational Education AND Science Elective
<p>Students will explore the 7 “Big Ideas” in computer science using project-based approaches. The course introduces students to the creative aspects of programming, abstractions, algorithms, large data sets, the Internet, cybersecurity, and how computing impacts our world. Students will develop the computational thinking skills needed to fully exploit the power of digital technology and help build a strong foundation in core programming and problem-solving. This course is designed to be equivalent to a first-semester introductory college level computing course. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify.</p>		
AGR843 PHYSICAL SCIENCE IN AGRICULTURE		Credit: 1.0 Term: Year
Prerequisite: None	Open to: 9	Graduation Requirement Satisfied: Occupational Education AND Lab Science
<p>Satisfies 2 High School Graduation requirements. Lab Science and Occupational Education. Year 1 in a 3-year sequence designed to meet high school and college requirements. The focus of this class is to expose students to mechanics, power, technology, and career options in the world of agriculture. Students participating in this course will have experiences in various mechanical and engineering concepts with hands-on activities, projects, and problems. Student’s experiences will involve the study of energy, tool operation and safety, material properties, machine operation, and structural components. Students will acquire the basic skills to operate, repair, engineer, and design agricultural tools and equipment. Throughout the course, students will apply the engineering principles to the construction of machines and structures. Students will explore projects and problems similar to those that a technician or engineer may face in their respective careers. In addition, students will understand specific connections between science, math, and technical skills applied to Supervised Agricultural Experiences and FFA components that play an important role in developing an informed agricultural education student. Students will investigate, experiment, and learn about documenting a project, solving problems, and communicating their solutions to their peers and members of the professional community. Although not a required prerequisite, this class will provide students with foundational knowledge and skills applied in Plant Biology, Animal Biology, or Agricultural Mechanics. This course will prepare students For the WCAS, Washington’s State Science Assessment.</p>		

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

AGR851 ANIMAL BIOLOGY (Dual Credit)			Credit: 1.0 Term: Year
Prerequisite: None	Open to: 10-12	Graduation Requirement Satisfied: Occupational Education AND Lab Science	
<p>Satisfies 2 High School Graduation requirements. Lab Science and Occupational Education. Year 2 in a 3-year sequence designed to meet high school and college requirements. Animal Biology is designed to provide learning experiences for students in the areas of animal nutrition, cell structures, anatomy and physiology. Students will investigate, experiment, and learn about documenting a research project, solving problems, and communicating their solutions to their peers and members of the professional community. Leadership development in FFA will also be encouraged. Although not a required prerequisite, this class will provide students with foundational knowledge and skills applied in Veterinary Assistance, Natural Resources, AP Environmental Science and/or Biotechnology. This course will prepare students for the WCAS, Washington's State Science Assessment.</p>			

AGR861 PLANT BIOLOGY (Dual Credit)			Credit: 1.0 Term: Year
Prerequisite: None	Open to: 10-12	Graduation Requirement Satisfied: Occupational Education AND Lab Science	
<p>Satisfies 2 High School Graduation requirements. Lab Science and Occupational Education. Year 2 in a 3-year sequence designed to meet high school and college requirements. Plant Biology is designed to provide "hands-on" activities, projects, and problems. Student experiences will include the study of plant anatomy and physiology, soil science, hydroponics and the fundamentals of growing and propagating plants. Students will learn how to apply scientific knowledge and skills to use plants effectively for agronomic, forestry, and horticultural industries. Students will discover the value of plant production and its impact on the individual, the local, and the global economy. Students will work on major projects and problems similar to those that plant science specialists, such as horticulturalists, agronomists, greenhouse and nursery managers, and plant research specialists, face in their respective careers. Leadership development in FFA will also be encouraged. Although not a required prerequisite, this class will provide students with foundational knowledge and skills applied in Floriculture, Horticulture, AP Environmental Science and/or Biotechnology. This course will prepare students for the WCAS, Washington's State Science Assessment.</p>			

AGR841 VETERINARY ASSISTANT			Credit: 1.0 Term: Year
Prerequisite: None	Open to: 11-12	Graduation Requirement Satisfied: Occupational Education AND Lab Science	
<p>This course is designed to prepare students for careers relating to veterinary science. Students in this class will learn about companion animals and livestock with emphasis in animal handling, restraint procedures, medical examinations, vaccinations, routine medical procedures, office administration skills, patient and owner management, animal health, and nutrition. Students will have the opportunity to bring their own animals to class for examinations and assist with the birthing and care of school farm animals. Be prepared to get your hands dirty.</p>			

TIE882 BIOTECHNOLOGY			Credit: 1.0 Term: Year
Prerequisite: Successful completion of a biology class: Biology (SCI564), Animal Biology (AGR851), or Plant Biology (AGR861)	Open to: 11-12	Graduation Requirement Satisfied: Occupational Education AND Lab Science	
<p>Animal and Plant Biotechnology, provides students with experiences in industry appropriate applications of biotechnology related to plant and animal agriculture as well as medicine. Students will complete hands-on activities, projects, and problems designed to build content knowledge and technical skills involving micro-pipetting, bacterial cultures and transformations, electrophoresis, polymerase chain reaction, bioremediation and tissue culture.</p>			

TIE895 SPORTS MEDICINE 1			Credit: 1.0 Term: Year
Prerequisite: *Freshman should have a strong science background and/or interest in a medical field	Open to: 9*-12	Graduation Requirement Satisfied: Occupational Education AND Science Elective OR Health	
<p>Sports Medicine 1 students will be introduced to the concept of the sports medicine team and the wide variety of professions within that field. They will also gain basic knowledge and skills related to the lower extremity, human performance, concussions, medical terminology, medical research, emergency procedures, and become certified in First Aid and CPR. Students will also participate in community/school engagement activities. Students will be expected to get practical experience working with the athletic training staff during practices and athletic competitions. The Sports Medicine program will include hands-on classroom and lab instruction on how to safely evaluate, treat, rehabilitate, and tape to support athletic injuries. Students will also have the opportunity to compete in the Washington Career and Technical Sports Medicine Associate state competition. Leadership development in the Washington Career and Technical Sports Medicine Association will be encouraged.</p>			

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

TIE898 SPORTS MEDICINE 2		Credit: 1.0 Term: Year
Prerequisite: Sports Medicine 1 (TIE895)	Open to: 10-12	Graduation Requirement Satisfied: Occupational Education AND Science Elective OR Health
<p>Sports Medicine 2 students will build upon basic knowledge gained in Sports Medicine 1, with a focus on the upper extremity, head, neck, spine, general medical conditions, and current events in sports medicine. Students will also participate in and lead community/school engagement activities. Students will be expected to get practical experience working with the athletic training staff during practices and athletic competitions. The Sports Medicine program will include hands-on classroom and lab instruction on how to safely evaluate, treat, rehabilitate, and tape to support athletic injuries. Students will also have the opportunity to compete in the Washington Career and Technical Sports Medicine Association state competition. Leadership development in the Washington Career and Technical Sports Medicine Association will be encouraged.</p>		

HFL764 CULINARY ARTS 1 (Dual Credit)		Credit: 1.0 Term: Year
Prerequisite: None None, but Foods & You is highly recommended to be taken beforehand	Open to: 10-12	Graduation Requirement Satisfied: Occupational Education AND Lab Science; with a maximum of 1.0 Science credit for Culinary Arts 1 & 2
<p>Culinary Arts 1st year is a National Restaurant Association approved program. Students work in teams to prepare and serve food. They develop an understanding of the Restaurant and Food Industry, Service and Management. This class focuses on the relationship between food preparation, food science, consumption, health and service. Students learn professional knife cuts, various types of moist and dry heat cooking methods and preparation methods for sandwiches, soups, sauces, stocks, salads, dressing, and introduction to baking such as cookies, cakes, and desserts. All students will obtain a food handlers card included in the class. ServSafe will be taught and testing will be offered to the student. Students passing the ServSafe test will earn 2 credits through Walla Walla Community College. Upon completion of a second year (4 semesters) in this class a student will earn 5 credits towards a Culinary Degree at Walla Walla Community College. Students have opportunities to compete in cooking contests and will participate in National ProStart level testing and ServSafe Certification. Note: The hat and jacket are provided/or students may purchase their own.</p>		

HFL766 CULINARY ARTS 2 (Dual Credit)		Credit: 1.0 Term: Year
Prerequisite: Culinary Arts 1 (HFL764)	Open to: 11-12	Graduation Requirement Satisfied: Occupational Education AND Lab Science; with a maximum of 1.0 Science credit for Culinary Arts 1 & 2
<p>This course is the 2nd year of the National Restaurant Association approved program. Students need to successfully complete Culinary arts 1 to be in Culinary Arts 2. Students work in teams to prepare and serve food, practicing entry-level culinary skills needed to work in the food industry. In addition to developing professional cooking and baking skills, students will learn budgeting, purchasing, marketing, personnel management and menu planning. A hands-on introduction to the fundamentals of professional cooking, includes kitchen safety operations, professional knife skills, basic food cooking and stock preparation, teamwork, leadership, general housekeeping, sanitation, clean up and inventory. Students completing two years (4 semesters) of this class with a B or better and passing the Restaurant Association tests with 80% or better are eligible to earn 18 community college credits towards a Culinary Degree at Walla Walla Community College. The hat and jacket are provided/or students may purchase their own. This class will provide students with foundational knowledge and skills applied in Food Production Services.</p>

SERVICE COURSE DESCRIPTIONS

SSC001 TEACHER ASSISTANT			Credit: .5 or 1.0 Term: Semester or Year
Prerequisite: Teacher Permission	Open to: 11-12	Graduation Requirement Satisfied: Elective	
Open to the student who wishes to work as a teaching assistant on campus. This course applies toward meeting an elective graduation requirement. This is a Pass/Fail course.			

SSC160 OFFICE ASSISTANT			Credit: .5 or 1.0 Term: Semester or Year
Prerequisite: Attendance Secretary or Administrator permission	Open to: 11-12	Graduation Requirement Satisfied: Elective	
See your counselor for more information and signature.			

SSC985 ADAPTIVE PE TEACHER ASSISTANT			Credit: .5 or 1.0 Term: Semester or Year
Prerequisite: Teacher permission	Open to: 10-12	Graduation Requirement Satisfied: Elective	
Open to the student who wishes to work as a teaching assistant during Adaptive PE class. This is a Pass/Fail course.			

RST191/192 RUNNING START/WWCC PART TIME OR FULL TIME			Credit: Varies Term: Year or Semester
Prerequisite: Application	Open to: 11-12	Graduation Requirement Satisfied: Various	
Students have the opportunity to enroll in the "Running Start" program at Walla Walla Community College. Applicants must score into college level work on the WWCC entrance exam; the Accuplacer Test. Students may earn both high school credits toward graduation and transferable college credit or college vocational credit simultaneously. Regular tuition fees are incurred by Walla Walla School District. A bulletin, announcing parent meetings in the spring for those interested, will be sent to the homes of all sophomores and juniors.			

LDR700 INTRODUCTION TO LEADERSHIP			Credit: Varies Term: Year or Semester
Prerequisite: A desire to positively impact the culture of the school community	Open to: 9-12	Graduation Requirement Satisfied: Elective	
This course is designed for future and current leaders who have not been elected to a particular office. This course will explore themes of leadership as well as practical skills for project implementation, advertisement and inclusive planning. Students will study great leaders, as well as concepts such as belonging, school spirit and servant leadership. Students will plan and implement projects around campus.			

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

LDR701 ASB LEADERSHIP		Credit: Varies Term: Year or Semester
Prerequisite: Election to ASB Executive Office or Class Office, or by application	Open to: 9-12	Graduation Requirement Satisfied: Elective
<p>This course is for elected ASB and Class officers and commissioners. Students will develop leadership skills while positively impacting the culture of the school. Students will plan all-school events such as dances, assemblies, social events and spirit activities. Students will study concepts such as belonging, school spirit and servant leadership.</p>		

SSC199 COLLEGE ENRICHMENT		Credit: Varies Term: Varies
Prerequisite: Application	Open to: 11-12	Graduation Requirement Satisfied: None
<p>Walla Walla University and Whitman College provide cooperative enrichment programs for outstanding Walla Walla High School students. The programs are designed to enrich the academic experience of a select number of students. Students will only be permitted to enroll in those courses, which contain content that is significantly different from the content of current class offerings at Walla Walla High School. Each student whose application is approved will be entitled to enroll in one college course and will receive college credit and high school credit for successful completion of the course. The course and grade will be recorded on the high school transcript or student may request it be put on as a P/F. Regular tuition and fees will be waived at Whitman. Walla Walla University offers a reduced credit hour rate. However, It is the responsibility of the student to buy textbooks, supplies, materials, pay required fees, and provide transportation to and from the college.</p>		

***NOTE: Information, regarding application procedures for Enrichment Programs and Running Start, is available in the Counseling Office.**

SOCIAL STUDIES COURSE DESCRIPTIONS

SOC604 FRESHMAN WORLD HISTORY			Credit: 1.0 Term: Year
Prerequisite: Required for all Freshmen	Open to: 9	Graduation Requirement Satisfied: 2nd Semester meets Contemporary World Problems	
This course covers historical events that have occurred in world history from the 17th century to the present. Students will be expected to take lecture and textbook based Cornell Notes, examine primary documents, write a CBA historical research paper, and complete unit exams and comprehensive finals.			

SOC632 WASHINGTON STATE HISTORY			Credit: .5 Term: Semester
Prerequisite: None	Open to: 10- 12	Graduation Requirement Satisfied: Social Studies Elective OR Washington State History Graduation Requirement	
This class will cover the physical beginnings of the Pacific Northwest, as well as human history and settlement of the Northwest. This class fulfills the Washington State History requirement if not previously met in middle school or if a student transfers from another state and did not complete that state's history requirement. Junior or Senior transfers may receive a waiver.			

SOC636 CURRENT WORLD PROBLEMS			Credit: .5 Term: Semester
Prerequisite: None	Open to: 10-12	Graduation Requirement Satisfied: Contemporary World Problems OR Social Studies Elective	
This class will focus on major national and international news stories and how they relate to our lives. We will also look at local news stories of interest. We will use newspapers, magazines, and other means of media to help us discuss and create an awareness of news around us. Daily assignments and Cornell Notes as well as tests and projects will be required to successfully complete this course.			

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

SOC656 GEOGRAPHY AND WORLD AFFAIRS			Credit: .5 Term: Semester
Prerequisite: None	Open to: 10-12	Graduation Requirement Satisfied: Contemporary World Problems OR Social Studies Elective	
<p>This elective course class will cover physical and human geography, as well as discussion of current global issues. Students will be expected to write weekly summaries of news articles and video documentaries. Students will also need to conduct research on a topic of personal interest and present that research to the class. This project will require some research and reading outside of class. Frequent quizzes, unit exams and comprehensive final will make up the largest percentage of the course grade.</p>			
SOC655 UNITED STATES HISTORY			Credit: 1.0 Term: Year
Prerequisite: None	Open to: 11	Graduation Requirement Satisfied: U.S. History	
<p>This class is a survey of US History events in the 20th century covering topics from Progressivism to the Persian Gulf War. Students will be expected to take lecture and textbook based Cornell Notes, examine primary documents, write a CBA historical research paper, and complete unit exams and comprehensive finals.</p>			
SOC685 AP US HISTORY			Credit: 1.0 Term: Year
Prerequisite: None	Open to: 11	Graduation Requirement Satisfied: U.S. History	
<p>This course is designed to prepare students to pass the Advanced Placement United States History exam. An entry-level college course requires homework five days per week. The college level text will be read from cover to cover, and students will be asked to take Cornell Notes from all their reading. Quizzes are given daily with tests consisting of fifty multiple-choice questions, short answer questions, long essays, and primary document based questions. Students will write a minimum of 8 essays with a culminating research paper at the end of the year. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify.</p>			
SOC684 AP HUMAN GEOGRAPHY			Credit: 1.0 Term: Year
Prerequisite: None	Open to: 10-12	Graduation Requirement Satisfied: Contemporary World Problems OR Social Studies Elective	
<p>AP Human Geography focuses on the distribution, processes, and effects of human populations on the planet. Units of study include population, migration, culture, language, religion, ethnicity, political geography, economic development, industry, agriculture, and urban geography. This course is equivalent to an entry-level college course and requires nightly reading and note-taking, weekly quizzes, and chapter tests consisting of multiple choice and extended response, all of which prepare students to take the Advanced Placement exam. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify.</p>			
SOC657 SOCIOLOGY			Credit: .5 Term: Semester
Prerequisite: None	Open to: 10-12	Graduation Requirement Satisfied: Contemporary World Problems OR Social Studies Elective	
<p>This course is intended to give a broad picture in the field of sociology, emphasizing critical thinking skills, and using the sociological perspective to analyze topics in society. The course will offer you a set of intellectual tools with which to more accurately understand the society in which you live. Your participation, discussion, group cooperation, and feedback are needed in class. Students are also required to take Cornell Notes, unit tests, and complete a final exam. This course includes units which may be classified as controversial.</p>			
SOC667 PSYCHOLOGY			Credit: .5 Term: Semester
Prerequisite: None	Open to: 10-12	Graduation Requirement Satisfied: Contemporary World Problems OR Social Studies Elective	
<p>This course introduces students to the field of psychology by studying biology and behavior, sensation and perception, consciousness, learning, motivation and emotion, theories of personality, psychological disorders, and methods of therapy. Students are required to take Cornell Notes. Tests are given after every chapter and students will complete a final exam. This course includes units which may be classified as controversial.</p>			

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

SOC668 AP PSYCHOLOGY			Credit: 1.0 Term: Year
Prerequisite: None	Open to: 11-12	Graduation Requirement Satisfied: Contemporary World Problems OR Social Studies Elective	
<p>This course is equivalent to an entry-level college course. It will introduce students to the systematic and scientific study of the behavior and the mental processes of human beings and other animals. Some major units of study include the history and approaches of psychology, sensation and perception, developmental psychology, and cognition and memory. This course requires daily reading and note-taking, weekly vocabulary quizzes, and unit exams with multiple-choice and extended response questions, all which will prepare the student to pass the Advanced Placement Psychology exam. This course includes units which may be classified as controversial. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify.</p>			
SOC665 CIVICS			Credit: .5 Term: Semester
Prerequisite: None	Open to: 12	Graduation Requirement Satisfied: Civics	
<p>The content of the civics course must include, but is not limited to: (a) Federal, state, tribal, and local government organization and procedures; (b) Rights and responsibilities of citizens addressed in the Washington state and United States Constitutions; (c) Current issues addressed at each level of government; (d) Electoral issues, including elections, ballot measures, initiatives, and referenda; (e) The study and completion of the civics component of the federally administered naturalization test required of persons seeking to become naturalized United States citizens; (f) The importance in a free society of living the basic values and character traits that are essential to individual liberty, fulfillment, and happiness. Students will apply the knowledge and skills gained in the class towards the completion of a Constitutional Issue/Citizen Advocacy project.</p>			
SOC686 AP UNITED STATES GOVERNMENT AND CIVICS			Credit: 1.0 Term: Year
Prerequisite: Interest in government and willingness to work hard	Open to: 12	Graduation Requirement Satisfied: Civics .5 AND Current World Problems OR Social Studies Elective .5	
<p>This AP Course will give students the opportunity to understand their government, political parties, civil rights, components of the United States Constitution, and the influences that create public policy. The textbook, current events and class lectures are the primary resource of information. Students will be required to read on average four pages in the text nightly, including course and unit specific vocabulary. Students will be expected to take Cornell style notes on their reading, as well as participate in daily lectures and class discussion. Students will be assessed by daily reading quizzes, unit tests, and vocabulary quizzes. The objective of this class is to prepare students for the AP College Board exam. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify.</p>			
MSC959 AMERICAN MILITARY HISTORY			Credit: .5 or 1.0 Term: Year or Semester
Prerequisite: None	Open to: 10-12	Graduation Requirement Satisfied: Occupational Education AND Social Studies Elective OR Contemporary World Problems	
<p>This class examines the development of western warfare from the Greeks to the Civil War first semester and World War I to modern day second semester. The course includes technological and weapon development, battle tactics, great warrior leaders, and the relationship between the military, the nation, and society. Course instruction includes lecture, discussion of current events and links to the past, historical video presentation, hands on artifacts, and real world in-class presentations and experiences from military veterans.</p>			
BUS777 BUSINESS LAW			Credit: 1.0 Term: Year
Prerequisite: None	Open to: 11-12	Graduation Requirement Satisfied: Occupational Education AND 1.0 Social Studies Elective OR .5 credit Social Studies Elective AND .5 credit Contemporary World Problems	
<p>Student will study criminal, civil and contract law, which involve sales, insurance, banking, employment, and buying and renting property, and the basics of personal finance. Students will review Supreme Court cases and research current and historical developments in law.</p>

SUPPORT COURSE DESCRIPTIONS

MAT436 ALGEBRA SUPPORT			Credit: 1.0 Term: Year
Prerequisite: Teacher Recommendation	Open to: 9	Graduation Requirement Satisfied: Elective	
<p>This course is designed for those students who require extra support as they enter the Algebra curriculum at Wa-Hi. Taken as an elective credit concurrently with their MAT435 course, Algebra 1. The course will focus on skill development, deeper understanding of concepts, and preparation for regular class concepts. Students are placed in algebra support based on previous test scores, middle school grades, and teacher recommendation.</p>			

GST100 GUIDED STUDY			Credit: .5 or 1.0 Term: Year or Semester
Prerequisite: Teacher Recommendation	Open to: 9-12	Graduation Requirement Satisfied: Elective	
<p>Guided Study provides academic and study skills support for those selected general education students who continue to need support. Academic responsibility and accountability are encouraged via on-line grade checks, progress reports, and planner/binder/attendance checks. Students must pass all of their classes to earn credit for Guided Study.</p>			

CAP102 CREDIT RETRIEVAL			Credit: .5 or 1.0 Term: Year or Semester
Prerequisite: Teacher Recommendation	Open to: 11-12	Graduation Requirement Satisfied: Elective	
<p>Guided Credit Retrieval classes are designed to help students get back on track for graduation and feature prescriptive pretests to identify what a student has learned previously and areas of deficiency for each unit of content. An individual learning plan is automatically generated based on pretest results to direct each student to the specific material they have yet to master.</p>			

ELD140 ENGLISH LANGUAGE DEVELOPMENT 1			Credit: 1.0 Term: Year
Prerequisite: Placement by ELL staff	Open to: 9-12	Graduation Requirement Satisfied: Elective	
<p>This is a one year course which focuses on the development of English for students of other languages who are emerging in English proficiency. Students will focus on listening, speaking, reading and writing skills for conversational and academic purposes along with learning academic and conversational vocabulary. Instruction is based on WIDA's Level 1-2 English Language Proficiency Standards: students will read and analyze adapted and original text in English, develop and apply a range of reading comprehension strategies, and write in a variety of forms. Computers are used for vocabulary and language practice, word processing, and multimedia presentations. Participation in discussions and homework completion are essential to this class. Outside personal reading is required in order to enhance rapid language development and prepare students for college and careers.</p>			

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

ELD150 ENGLISH LANGUAGE DEVELOPMENT 2			Credit: 1.0 Term: Year
Prerequisite: Placement by ELL staff	Open to: 9-12	Graduation Requirement Satisfied: Elective	
<p>This is a one year course which focuses on the development of English for students of other languages who are progressing in English fluency and accuracy. Students will extend their listening, speaking, reading and writing skills for conversational and academic purposes along with learning academic and conversational vocabulary. Instruction is based on WIDA's Level 2-3 English Language Proficiency Standards: students will read and analyze adapted and original text in English, develop and apply a range of reading comprehension strategies, respond critically to print and media texts, and write in a variety of forms with an emphasis on argumentative and informational writing. Computers are used for vocabulary and language practice, word processing, and multimedia presentations. Participation in discussions and homework completion are essential to this class. Outside personal reading is required in order to enhance rapid language development and prepare students for college and careers.</p>			
ELD160 ENGLISH LANGUAGE DEVELOPMENT 3			Credit: 1.0 Term: Year
Prerequisite: Placement by ELL staff	Open to: 9-10	Graduation Requirement Satisfied: Elective	
<p>This is a one year course which focuses on the development of English for students of other languages who are advancing in English proficiency. Students will extend their listening, speaking, reading and writing skills for conversational and academic purposes along with learning academic and conversational vocabulary. Instruction is based on WIDA's Level 4-5 English Language Proficiency Standards: students will read and analyze original text in English, develop and apply a range of reading comprehension strategies, respond critically to print and media texts; and write in a variety of forms with an emphasis on argumentative and informational writing. Computers are used for vocabulary and language practice, word processing, research, multimedia presentations. Outside personal reading is required in order to enhance rapid language development and prepare students for college and careers.</p>			
ELD170 ENGLISH LITERATURE AND LANGUAGE DEVELOPMENT			Credit: 1.0 Term: Year
Prerequisite: Placement by ELL staff	Open to: 11-12	Graduation Requirement Satisfied: Elective	
<p>This is a one year course which focuses on the development of English for students of other languages who are advancing in proficiency. Students will extend their listening, speaking, reading and writing skills for conversational and academic purposes along with learning academic and conversational vocabulary. Instruction is based on WIDA's Level 5-6 English Language Proficiency Standards aligned to the ELA 11-12 Common Core State Standards: students will read and analyze literary elements, figurative language and author's point of view/bias in original English literature or informational texts; develop and apply a range of reading strategies; respond critically to print and media texts; write in a variety of forms and learn effective research skills. Computers are used for vocabulary and language practice, word processing, research, multimedia presentations. Outside personal reading is required in order to enhance rapid language development and prepare students for college and careers.</p>			

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

WORLD LANGUAGES

Four year universities require two years of world language for admission. Students who plan to attend a 4 year college needs to take 2 consecutive years of World Languages.

*World Language credits can be met through the personalized pathway requirement that leads to a specific post high school career or educational outcome chosen by the student.

WORLD LANGUAGES COURSE DESCRIPTIONS

LAN253 GERMAN 1			Credit: 1.0 Term: Year
Prerequisite: None	Open to: 9-12	Graduation Requirement Satisfied: World Language	
<p>This course enables students to speak, understand, read, and write basic German covering everyday topics. Activities include speaking practice with classmates, note-taking and written assignments, role-playing, watching and discussing video stories about young people in Germany, singing, and mastery of basic questions and answers. Students have the option to host a student from Germany and travel to Germany.</p>			

LAN263 GERMAN 2			Credit: 1.0 Term: Year
Prerequisite: Successful completion of German 1 (LAN253 and/or teacher recommendation)	Open to: 10-12	Graduation Requirement Satisfied: World Language	
<p>Students in this course develop a greater ability to speak, understand, read, and write German. Activities include speaking practice with classmates, note-taking and written assignments, role-playing, watching and discussing video stories about young people in Germany, and singing. Students continue to master basic questions and answers, and develop greater ease with creative and extended conversations. Class is conducted primarily in German. Students have the option to host a student from Germany and travel to Germany.</p>			

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

LAN283 HONORS GERMAN 3		Credit: 1.0 Term: Year
Prerequisite: Demonstrate ability to work independently and take initiative. Work in a small group with other students. Class format is semi-independent study.	Open to: 11-12	Graduation Requirement Satisfied: World Language
<p>The students in this course continue their journey towards fluency in German. Students speak German to each other the whole time, and take turns assuming the role of teacher/facilitator. This class includes amplification of vocabulary, speaking and writing topics, language structures, and the study of German history and civilization. Ability to work independently and self-motivation are necessary. Students have the option to host a student from Germany and travel to Germany.</p>		
LAN252 FRENCH 1		Credit: 1.0 Term: Year
Prerequisite: None	Open to: 9-12	Graduation Requirement Satisfied: World Language
<p>This course enables students to read, write and engage in conversations involving everyday topics. Students will develop a mastery of basic questions and responses through a variety of common themes & vocabulary acquisition. Activities include audio and video instruction, speaking practice with partners and table groups, note-taking, online activities and written assignments. French culture is experienced through video, films, and music.</p>		
LAN262 FRENCH 2		Credit: 1.0 Term: Year
Prerequisite: Successful completion of French 1 (LAN252)	Open to: 10-12	Graduation Requirement Satisfied: World Language
<p>In this course students will continue taking steps toward fluency in French, through the introduction of more complex grammar concepts and verb tenses. Continued emphasis is placed on listening, speaking and reading skills. More emphasis is placed on written composition and oral presentations in the form of dialogues and skits. French culture will continue to be experienced through video, films, and music.</p>		
LAN282 HONORS FRENCH 3		Credit: 1.0 Term: Year
Prerequisite: Successful completion of French 1 (LAN252) French 2 (LAN 262) and/or teacher recommendation	Open to: 11-12	Graduation Requirement Satisfied: World Language
<p>The students in this course continue their journey toward fluency in French. Students will make greater efforts to speak in the target language during class sessions. This class includes amplification of vocabulary, speaking and writing topics, language structures, and the study of French culture, community and civilization. French culture will continue to be experienced through video, films, and music.</p>		
LAN292 HONORS FRENCH 4		Credit: 1.0 Term: Year
Prerequisite: Successful completion of French 1 (LAN252) French 2 (LAN262), French 3 (LAN282) and/or teacher recommendation	Open to: 12	Graduation Requirement Satisfied: World Language
<p>In this course, students continue with the materials and methods used in the third year with the emphasis on speaking and presenting. Though language structure is still a part of the course, more time is devoted to writing original composition and interpreting literature.</p>		
LAN256 SPANISH FOR SPANISH SPEAKERS		Credit: 1.0 Term: Year
Prerequisite: Students should be able to speak Spanish fluently	Open to: 9-12	Graduation Requirement Satisfied: World Language
<p>Spanish for Spanish speakers, is designed specifically for the native speakers of Spanish. The course emphasizes reading, writing, grammar as well as the history of Mexico from Pre-Hispanic Civilizations to independence from Spain to the present. The student's prior ability to write or read Spanish is not a prerequisite. Students completing this course will achieve a level of Advanced-Low.</p>		
LAN255 SPANISH 1		Credit: 1.0 Term: Year
Prerequisite: None	Open to: 9-12	Graduation Requirement Satisfied: World Language
<p>This course enables students to read, write and engage in conversations involving everyday topics. Students will develop a mastery of basic questions and responses through a variety of common themes & vocabulary acquisition. Activities include audio and video instruction, speaking practice with partners and table groups, note-taking, online activities and written assignments. Spanish speaking cultures are experienced through video, films, and music.</p>		

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

LAN265 SPANISH 2		Credit: 1.0 Term: Year
Prerequisite: Successful completion of Spanish 1 (LAN255) or teacher recommendation	Open to: 9-12	Graduation Requirement Satisfied: World Language
<p>In this course students will continue taking steps towards fluency in Spanish, through the introduction of more complex grammar concepts and verb tenses. Continued emphasis is placed on listening, speaking and reading skills. More emphasis is placed on written composition and oral presentations in the form of dialogues and skits. Spanish speaking cultures will continue to be experienced through video, films, and music.</p>		

LAN285 HONORS SPANISH 3		Credit: 1.0 Term: Year
Prerequisite: Successful completion of LAN255 (Spanish 1), Spanish 2 (LAN265) and/or teacher recommendation	Open to: 9-12	Graduation Requirement Satisfied: World Language
<p>The students in this course continue their journey towards fluency in Spanish. Students will make greater efforts to speak in the target language during class sessions. This class includes amplification of vocabulary, speaking and writing topics, language structures, and the study of Spanish-speaking cultures, communities and civilizations. Spanish speaking cultures will continue to be experienced through video, films, and music.</p>		

LAN 296 AP SPANISH LANGUAGE		Credit: 1.0 Term: Year
Prerequisite: Successful completion of Honors Spanish 3 (LAN285) and teacher recommendation	Open to: 9-12	Graduation Requirement Satisfied: World Language
<p>This course focuses on preparation for the Spanish Advanced Placement Exam. The course will be taught almost exclusively in Spanish and it is expected that students will speak Spanish during the class. This course encompasses aural/oral skills, reading, grammar, composition and culture components of the language. A strong work ethic is required, as much homework and study will be expected. Students can achieve a level of advance-mid to advance-high during this course. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify.</p>		

LAN298 AP SPANISH LITERATURE AND CULTURE		Credit: 1.0 Term: Year
Prerequisite: Successful completion of AP Spanish Language (LAN296) and teacher recommendation	Open to: 10-12	Graduation Requirement Satisfied: World Language
<p>The AP Spanish Literature and Culture course uses a thematic approach to introduce students to representative texts (short stories, novels, poetry, and essays) from Peninsular Spanish, Latin American, and United States Hispanic literature. Students continue to develop proficiencies across the full range of the modes of communication (interpersonal, presentational, and interpretive), honing their critical reading and analytical writing skills. Literature is examined within the context of its time and place, as students reflect on the many voices and cultures present in the required readings. The course also includes a strong focus on cultural connections and comparisons, including exploration of various media (e.g., art, film, articles, and literary criticism). Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify.</p>

SEATech SKILLS CENTER PROGRAMS

Careers in Media and Entertainment 1 (Dual Credit)			Credit: 3.0 Term: Year
Prerequisite: Approval	Open to: 11-12	Graduation Requirement Satisfied: 1.0 Fine Arts; 1.0 Junior OR Senior English; Occupational Education OR Elective for a total of 3 credits*	
<p>Students will level-up their skills and be prepared to join the rapidly expanding world of content creation. More audio and video content is being uploaded every 30 days than the major US media producers—combined—released over the last 30 years. Every analysis shows that websites and mobile apps need animation, motion graphic and video content to succeed, and the demand is greater than ever for content producers who understand how to consistently turn out high-quality media.</p> <p>Our hands-on approach is reinforced by the idea that achieving a greater fluency in story structure and storytelling techniques offers the decisive edge that content creators require in order to compete. Student work is a mix of class assignments, self-selected projects and client jobs for area schools, organizations and nonprofits. Documentary, PSA, advocacy and corporate video techniques are taught alongside fictional, genre and narrative filmmaking methods. Students acquire sufficient skills and knowledge to seek employment in a range of media production and content creation settings or to further their education in a clearly articulated pathway.</p> <p>-Students in the program may qualify for as many as 15 Walla Walla Community College credits.</p>			

Careers in Media and Entertainment 2 (Dual Credit)			Credit: 3.0 Term: Year
Prerequisite: Approval, Audio and Video Production 1	Open to: 12	Graduation Requirement Satisfied: 1.0 Fine Arts; 1.0 Junior OR Senior English (if not already earned); Occupational Education OR Elective for a total of 3 credits*	
<p>This program gives students who have completed Careers in Media and Entertainment 1 a chance to make a series of choices, quarter by quarter, to either pursue more advanced and challenging projects, to set up an individualized program of study to focus on a specific discipline—such as storyboarding, visual effects, or animation—or to provide leadership to first-year students on their projects.</p> <p>The program's focus remains on achieving a greater fluency in story structure and storytelling techniques while bearing down on the range of technical skills expected of successful content creators in an ever-changing marketplace. It is also customary for second-year students to spend some significant time with the instructor working through career and post-secondary planning and preparation.</p> <p>-Students in the program may qualify for as many as 15 Walla Walla Community College credits.</p>			

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

ADVANCED MANUFACTURING AND WELDING TECHNOLOGY 1 (Dual Credit)		Credit: 3.0 Term: Year
Prerequisite: Approval	Open to: 11-12	Graduation Requirement Satisfied: .5 3rd Year Math; .5 Junior OR Senior English; .5 Lab Science OR .5 Science Elective; Occupational Education OR Elective for a total of 3 credits*
<p>ADVANCED MANUFACTURING AND WELDING TECHNOLOGY 1 is a state of the art, industry based shop environment designed for the student who is ready to develop skills and understanding of manufacturing, welding and metal fabrication. Students will learn skills that will prepare them to further their education/ career for industries such as building fabrication, machining, construction, foundry work, agricultural, aerospace and many more. This learning opportunity will provide hands-on practice and knowledge, which could lead to industry certification and college credits. Students who are successful in this class are ready for their post high school step of career, trade school, community college, or university. This is a Boeing partner program and students who earn their CorePlus Certification are eligible for an interview.</p> <p>Class subjects include: Safety, Computer Aided Drafting (CAD), Welding (GMAW, SMAW, GTAW), fabrication, safety, aerospace drilling and riveting, CNC Plasma Cutting, CNC Laser cutting/engraving, and more. Students have the opportunity to earn the following certifications: COREPlus Manufacturing Certification; OSHA 10hr Construction Safety; Forklift/Scissor Lift Operator; First Aid/CPR; Students in the program may qualify for as many as 10.4 Walla Walla Community College credits.</p> <p>* A Welding jacket, helmet, safety glasses, gloves and a tape measure will be provided for student use.</p>		

ADVANCED MANUFACTURING AND WELDING TECHNOLOGY 2 (Dual Credit)		Credit: 3.0 Term: Year
Prerequisite: Approval, Advanced Manufacturing and Welding Technology 1	Open to: 12	Graduation Requirement Satisfied: .5 3rd Year Math; .5 Junior OR Senior English; .5 Lab Science OR .5 Science Elective; Occupational Education OR Elective for a total of 3 credits*
<p>ADVANCED MANUFACTURING AND WELDING TECHNOLOGY 2 is a continuation of the skills learned in AMWT 1. Students will widen their manufacturing skills by getting hands-on experience using manual and CNC lathes and milling machines. They will also learn to weld on aluminum and stainless steel as well as continue to improve their overall welding and fabrication skills. A particular emphasis will be placed on quality assurance and project management.</p> <p>This learning opportunity will provide hands-on practice and knowledge, which could lead to industry certification and college credits. Students who are successful in this class are ready for their post high school step of career, trade school, community college, or university. This is a Boeing partner program and students who earn their CorePlus Certification are eligible for an interview.</p> <p>Students have the opportunity to earn the following certifications: COREPlus Manufacturing Certification; OSHA 10hr Construction Safety; Forklift/Scissor Lift Operator; First Aid/CPR; Students in the program may qualify for as many as 10.4 Walla Walla Community College credits.</p> <p>* Welding jacket, helmet, safety glasses, gloves and a tape measure will be provided for student use.</p>		

CONSTRUCTION TECHNOLOGY 1 (Dual Credit)		Credit: 3.0 Term: Year
Prerequisite: Approval	Open to: 11-12	Graduation Requirement Satisfied: 1.0 3rd Year Math; .5 Junior OR Senior English; .5 Lab Science OR Science Elective, .5 Fine Arts; Occupational Education OR Elective for a total of 3 credits*
<p>Construction Technology 1 will prepare students with occupational skills in areas of blueprint reading, carpentry, electrical systems, masonry, and plumbing. This incredible opportunity introduces the individual to the construction building trades. Each year students will research and design both renewable and nonrenewable energy sources including the construction of residential structures. These skills are applicable to a wide range of careers. In addition, safety is key in this industry which is why it is our priority to identify appropriate hand and power tool usage. Upon completing this course, students will also be eligible to earn college credits and/or industry certification including the introduction to apprenticeship opportunities.</p> <p><u>Course Goals:</u> Students will understand the career options, career ladders, and job search techniques within their area of career preparation; Students will be able to work cooperatively and demonstrate a positive attitude; identify, use, and maintain tools, equipment and materials; perform mathematical calculations needed for industry and the common skills of general construction, electrical systems, print reading, carpentry, masonry, and plumbing. Students will develop a quality work ethic.</p> <p>Students have the opportunity to earn the following certifications: OSHA 10hr Construction Safety; Forklift/Scissor Lift Operator; First Aid/CPR; Rigging; Students in the program may qualify for as many as 7.4 Walla Walla Community College credits.</p> <p><i>It is expected that students in this class develop and maintain a professional and respectful ethic. Because this is a Career and Technical Education class, work ethic is extremely important to success in this class. Students must be ready to work in class each day. Students must strive to do their best and be self-motivated. Students will be expected to work in small and large groups.</i></p>		

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

CONSTRUCTION TECHNOLOGY 2 (Dual Credit)		Credit: 3.0 Term: Year
Prerequisite: Approval, Construction Technology 1	Open to: 12	Graduation Requirement Satisfied: 1.0 3rd Year Math (if not already earned); .5 Junior OR Senior English; .5 Lab Science OR Science Elective, .5 Fine Arts; Occupational Education OR Elective for a total of 3 credits*
<p>Construction Technology 2 is the next step in the construction program. It gives students who have completed Construction Technology 1 a chance to develop more experience in the industry. They will gain project management as well as leadership skills. Second year students will also take a more advanced approach in the trades developing skills needed for a future in the construction industry.</p> <p>Each year students will research and design both renewable and nonrenewable energy sources including the construction of residential structures. These skills are applicable to a wide range of careers. In addition, safety is key in this industry, which is why it is our priority to identify appropriate hand and power tool usage. Upon completing this course, students will also be eligible to earn college credits and/or industry certification including the introduction to apprenticeship opportunities.</p> <p><u>Course Goals:</u> Students will understand the career options, career ladders, and job search techniques within their area of career preparation. Students will be able to work cooperatively and demonstrate a positive attitude; identify, use, and maintain tools, equipment and materials; perform mathematical calculations needed for industry and the common skills of general construction, electrical systems, print reading, carpentry, masonry, and plumbing. Students will develop a quality work ethic.</p> <p>Students have the opportunity to renew the following certifications: First Aid/CPR; Forklift/Scissor Lift Operator; Rigging; Students in the program may qualify for as many as 7.4 Walla Walla Community College credits.</p> <p><i>It is expected that students in this class develop and maintain a professional and respectful ethic. Students must strive to do their best and be self-motivated. Students will be expected to work in small and large groups.</i></p>		
HEALTH SCIENCE CAREERS (Pre-Nursing) (Dual Credit)		Credit: 3.0 Term: Year
Prerequisite: Approval	Open to: 11-12	Graduation Requirement Satisfied: 1.0 Junior OR Senior English; .5 Health; 1.0 Lab Science OR Science Elective; Occupational Education OR Elective for a total of 3 credits*
<p>Students will be introduced to the healthcare field, with an emphasis on knowledge and skills applicable to many healthcare occupations. Students explore health careers in their areas of interest, as well as target high demand areas for future job opportunities. Students successfully completing all coursework, and the clinical internship, will be eligible to take the Washington State Nurse Assistant Certification (NAC) exam. Students successfully completing the course with a B or better grade may qualify to earn college credits. *Personal transportation is required for clinicals.</p> <p>Students in the program may qualify for as many as 13.1 Walla Walla Community College credits. Students prepare to take the Washington State Certified Nurse Assistant (NAC) Exam (fees apply) and meet several entry requirements for Allied Health and Nursing courses. Food Handler's Card, CPR, First Aid Certification and 7 hours of HIV-Certification are included in the course. Scrubs and Stethoscope will be provided for student use. A Background check, COVID-19 vaccine, 2-step TB test will be required per requirements to participate in clinical rotations at partner facilities.</p>		
CRIMINAL JUSTICE 1 (Dual Credit)		Credit: 3.0 Term: Year
Prerequisite: Approval	Open to: 11-12	Graduation Requirement Satisfied: 1.0 Junior OR Senior English; .5 Civics; .5 Contemporary World Problems OR Social Studies Elective (up to 1.0 Social Studies credit); .5 Physical Education; Occupational Education OR Elective for a total of 3 credits*
<p>Criminal Justice 1 is an overview of the criminal justice system and the careers available in this growing employment field such as policing, corrections, and criminal justice support and homeland security. Students will investigate the roles of local and state law enforcement agencies, federal agencies, corrections and supporting careers. Learning opportunities include field trips to criminal justice and public service facilities, discovering pathways through guest speakers, as well as participating in career level training in the criminal justice community. Students will receive training in critical analysis, conflict resolution, record keeping, technical writing, fingerprinting, investigative procedures, patrol procedures and criminal/traffic laws. How laws are created, the difference between criminal and civil laws, and law enforcement ethics will also be explored. This course is delivered in a police academy style setting where mental and physical fitness are emphasized. Classes are conducted in a professional and disciplined manner with a strong team building and participation environment paralleling the criminal justice field. This course includes progress towards an Associates of Applied Science Degree in Criminal Justice and career pathway to a variety of criminal justice careers including law enforcement, corrections, security and law. CPR certification included in the course. Students in the program may qualify for up to 5.4 Walla Walla Community College Credits.</p>		

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2022-2023

CRIMINAL JUSTICE 2 (Dual Credit)		Credit: 3.0 Term: Year
Prerequisite: Approval, Criminal Justice 1	Open to: 12	Graduation Requirement Satisfied: Equivalency credits pending; Occupational Education OR Elective for a total of 3 credits*
<p>Criminal Justice 2 is a continuation of Criminal Justice 1, with additional instruction, exploration, and course work in Leadership, middle management, and administration within all three subcategories of the criminal justice system. Students will have the opportunity to focus on a more direct career path as well as receive additional off site experiences within the local criminal justice community. Students in Criminal Justice 2 will have the chance to develop additional skills to help prepare them for this demanding and rewarding career field. Learning opportunities include field trips to criminal justice and public service facilities, discovering pathways through guest speakers, as well as participating in career level training in the criminal justice community. Students will receive training in critical analysis, conflict resolution, record keeping, technical writing, fingerprinting, investigative procedures, patrol procedures and criminal/traffic laws. How laws are created, the difference between criminal and civil laws, and law enforcement ethics will also be explored. Career Connected Classes

DESCRIPTION: The following visual diagrams are designed to help students select classes that align to careers. You might utilize the visual diagrams in this document to select classes that allow you to explore career options, deepen your knowledge and skills related to one or multiple careers or areas of interest, or choose classes that are eligible for the Career and Technical Education (CTE) Graduation Pathway. See page 4 of the Walla Walla High School Course Catalog for more information regarding education pathways.

SELECTING CAREER CONNECTED CLASSES

OR

HOW TO FULFILL THE CTE GRADUATION PATHWAY REQUIREMENTS
