

From a Chrome Device i.e. Chromebook:
Press the following key combination:

ctrl + shift + Backspace

From within the Google Chrome web
browser on MacOS or WindowsOS

Press the following key combination:

ctrl + shift + delete

The screenshot shows the 'Clear browsing data' dialog box in Google Chrome. The 'Basic' tab is selected. The 'Time range' dropdown is set to 'All time'. Three checkboxes are checked: 'Browsing history', 'Cookies and other site data', and 'Cached images and files'. The 'Clear data' button is highlighted in blue. Red arrows point from text annotations to these elements.

Set the Time range to "All time"

Check the boxes for "Browsing History", "Cookies and other site data", and "Cached images and files"

Then click the blue "Clear data" button

At this point you will need to logout of the Chromebook and back in or quit and relaunch the web browser
