School Annual Education Report (AER) Cover Letter

January 12, 2024

Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER) which provides key information on the 2023-24 educational progress for Twin Rivers Elementary School. The AER addresses the complex reporting information required by federal and state laws. The school's report contains information about student assessment, accountability, and teacher quality. If you have any questions about the AER, please contact Twin Rivers Principal Paul Frost (616-522-0005) for assistance.

The AER is available for you to review electronically by visiting the following [LINK TO TWIN RIVERS' COMBINED REPORT](#), or you may review a copy in the main office at your child's school.

For the 2023-24 school year, schools were identified based on previous years' performance using definitions and labels as required in the Every Student Succeeds Act (ESSA). A Targeted Support and Improvement (TSI) school is one that had at least one underperforming student subgroup in 2022-23. An Additional Targeted Support (ATS) school is one that had a student subgroup performing at the same level as the lowest 5% of all schools in the state in 2022-23. A Comprehensive Support and Improvement (CSI) school is one whose performance was in the lowest 5% of all schools in the state or had a graduation rate at or below 67% in 2022-23. Some schools are not identified with any of these labels. In these cases, no label is given.

Our school has not been given one of these labels.

One of the key challenges for Twin Rivers Elementary School, as evidenced by the data contained in this report, is to accelerate the growth of our economically disadvantaged student subgroup in math, reading, science, and social studies. This school year we will again be using our Title 1 resources to help provide differentiated

reading instruction to all students for at least thirty minutes each day in an attempt to help accelerate student achievement and close persistent gaps in achievement.

State law requires that we also report additional information.

1. PROCESS FOR ASSIGNING PUPILS TO THE SCHOOL

Ionia Public Schools has five neighborhood elementary schools. Student assignment is based primarily upon geographic location. Class size, special education needs, and transportation availability are other factors that are also considered when students are placed at district elementary schools by Central Office personnel. This process is consistent from year to year and has been in place for several years.

3. A BRIEF DESCRIPTION OF EACH SPECIALIZED SCHOOL

Twin Rivers Elementary School is a KinderStart-Fifth grade school and is not a specialized school.

4. IDENTIFY HOW TO ACCESS A COPY OF THE CORE CURRICULUM, A DESCRIPTION OF ITS IMPLEMENTATION AND AN EXPLANATION OF THE VARIANCES FROM THE STATE'S MODEL

Curriculum Development at Ionia Public Schools – Elementary Schools, 2022-2023

Curriculum development at Ionia Public Schools is a process that requires a large commitment from the teachers and administrators involved. These stakeholders must accept the responsibility for interpreting and aligning the Michigan Standards. They are developing or have developed essential component curriculum maps and learning targets from these standards in math and ELA. These stakeholders were also involved in researching and recommending materials.

The district continues to commit to the process of installing a Multi-Tiered System of Support. The research that supports this process shows that the achievement of all students increases. Also, the research shows that the greatest gains are for at-risk students. The district has committed to continuing to expect high achievement for all while closing the existing achievement gaps. We have established minimum instructional time expectations for math, English Language Arts, science, and social studies.

The curriculum focus continues to be the implementation of Reading Wonders and the integration of the Literacy Essentials. Data shows that the skills of our students are increasing. We have continued supporting grade-level problem solving for reading and behavior. Elementary teachers are working hard to support students with the five essential reading components (phonemic awareness, phonics, fluency, vocabulary development, and reading comprehension).

Bridges Math continues to be implemented by all kindergarten through fifth grade teachers. This curriculum will equip teachers to fully address state standards in a rigorous, engaging, and accessible manner. It will help students gain a deep understanding of concepts, proficiency with key skills, and the ability to solve complex problems. The curriculum is composed of three distinct but integrated components: Problems & Investigations, Work Places, and Number Corner.

New this school year was the implementation of a social emotional learning curriculum called TRAILS. TRAILS stands for Transforming Research into Action to Improve the Lives of Students. This curriculum equipped classroom teachers to deliver 20 brief, developmentally-appropriate lessons which align with Michigan's focus on student safety, health, and wellness.

Academic success and improvement are of vital importance at Ionia Public Schools. Through continuous reflection and professional development, our teachers work to improve learning for all students.

In addition, parent attendance at March parent-teacher conferences for the 2022-2023 school year was

very similar (3.8% less) than parent attendance at March (spring) parent-teacher conferences for the 2021-2022 school year.

Thank you to the hard-working students, parents, and staff at Twin Rivers Elementary School. Test results show that Twin Rivers' students are doing a solid job learning the taught curriculum, but there is room for much improvement. I look forward to the next school year as we implement the strategies and activities of our School Improvement Plan and continue to work together to inspire our students to even greater levels of achievement.

Sincerely,
