Then, and then only, was there any truce of sorrow or reference to the bast. Mr. Scott, who procured the divorce from Molineux for his present wife, accompanied her on her initial trip to the theatre.

Mrs. Scott, not disconcerted by her disappointment yesterday, gayly related to the standard.

The carioau.

In a nutshell this is what Mme. Wade is going to do.

She is going to do.

She is going to build a corset which will be just 'me thing for mere man.

"My corset demonstrations in regard to wormen were founded on a study of physiology," said Madame Wade, "that is why they were so successful. Now with scorset for man will be built on the same principle, only, of course, it will be nothing like the woman's corset.

"The man's corset will not go in at the waist, but it will be constructed so as to support the abdomen. There is no more excuse for a man having a big stomach than a woman. Men's stomach scan be reduced the same as women's by the correct wearing of corsets. Men's corsets must be constructed so as to life up the stomach.

Mrs. Scott, not disconcerted by her disappointment yesterday, gayly refolded her Parisian embroidered claffon gown of white, and helped the maid repack all the dainty accessories of such a gown.

"Well, I'll try it again," she laughed. And again she defled the hoodoo that persists in following her.

Mr. Scott said they would remain in New York. They have taken apartments at the Webster.
