LOUD CHEERS FOR WITTE GIVEN IN ST. PETERSBURG

Russian Diplomat Meets with a Hearty Reception on His Return to His Home.

WELCOMED WITH AN ADDRESS.

He Says That All Classes of American Society Were in Sympathy With Him.

St. Petersburg, September 28-M. Witte arrived here at 8:25 A.M., and was accorded a very hearty reception by a large crowd of officials and others. In a brief speech, replying to a welcoming address, M. Witte showed clearly that he was deeply touched by the welcome with which he was received.

When he left Str Petersburg in July a small delegation of officials accompanied him to the railroad station to bid him larewell. There was no public demonstration whatever. To-day there were seven or eight times as many officials despite the, for Russia, very early hour of the train's arrival and an enthusiastic crowd of 500 to 600 peo-

Among the officials present were Baron Nolde, general speretary to the Committee of Ministers; General Durnave, adjutant to the Minister of the Interior; M. Wysbnegradski, formerly Finance Minister, and now Director of the International Commercial Bank: Kobeko, Privy Councillor and chairman of the Press Reform Commission, and many other prominent officials who had been M. Witte's former colleagues or subordinates. The crowd had collected near where M. Witte would descend from the train, and when he appeared they broke out into long and loud cheers, to which M. Witte bowed acknowledgment: The spokesman then advanced and read the address of welcome, all in the meanwhile standing bareheaded. The

"You have accomplished your difficult task, and the nation is grateful to you. You have given the credit for your success to Emperor Nicholas, President' Roosevelt, Emperor William of Germany, and to the press. ¿You have forgotten only yourself. We, however, fully appreciate your services to your country. The tree you planted at the Washington homestead at Mount Vernon will serve as a token of the union between the two nations. You have done much. For ourselves and for those who are ab-

sent we' will once more shout a hearty When the cheer had died away, M. Witte, who seemed deeply moved by the sincerity of the welcome, advanced a few steps and delivered his reply. He said:

was so little prepared for this kind reception that I must ask your pardon for the incoherence of my words. I have performed my duty well because I have strictly obeyed his majesty's instructions, because circumstances favored me, because the world is weary of this bloody war, because all classes of American society from President Roosevolt down were; in sympathy with my and your cause because I was true to my country and her and our interests.

Witte's last word was followed by fur ther loud and hearty cheering, after which M. Witte slowly advancing toward the en-trance shook hands with the deliverer of the welcoming address and his friends and former colleagues. The crowd followed closely toward the door, where an open carriage was in waiting. As soon as M. Witte was seated the conchman started his team and as he drove dashipgly away the crowd broke out into a succession of loud cheers.

Candidates should have bree years experience in the fire room of vessel of at least 500 tons and be familiar with water tube boilers and pumps, George Morgan of 415A Sixteenth street,

Brooklyn, who stood No. 5 on the eligible ist recently announced for superintendent ponds and reservoirs, contends that the ating of his papers was changed and that therwise he might have stood No. 3 on the list and thereby secured the fat job at \$2,000 er annum and a house, which went to G. V. Brower, the third man. Mr. Brower is chairman of the Democratic town committee of Hempstead and is a power in politics. Morgan's request for a recating of his papers was denied by Chief Examiner Ireland, to whom his protest was referred by the commission. He claimed more than the 80 per cent, on experience which Mr. Ireland allowed. Morgan is an experienced man on the work. Two years ago Brower was in the oyster business at Freeport. What his rating was on experience neither Morgan nor any of the competitors is permitted to know. President Baker, who has personally investigated Brower and has made a comparative study of all the papers in the examination, states that the examination was fair in every way and that Brower was fully entitled to stand No. 3 on the list. He says, in answer to the objections raised by the disappointed competitors, that it would not be wise to throw open to their gaze and that of their attorneys, the examination papers, for some papers might be held up to ridi-

President Baker is sustained in this view by many civil service reformers, notably by Seorge McAneny. Others contend that publicity would be the best thing to prevent oriticism ad suspicion. Some of the competitors in the superintendent of ponds and eservoirs examination contend that Brower did not fulfill the requirements of the examiner to that he did not write out in full the work by which he arrived at the answers. President Baker says that is not so. The competitors allege that Brower's technical paper was returned to him in the examina-tion room because he did not meet that requirement, and that when the paper was returned there was not time enough for him to put down all the work before the close of the examination. If they could see to make sure that the examination gave every competitor a square deal. The light the shoving good naturedly and smiled as he of publicity, however, cannot be used to prove their contention,

In accordance, with instructions from his counsel, ex-District Attorney Osborne of Manhattan, the bishop and his followers trooped into the court, and so did the members of the other faction and their lawyer, Mr. Le Barblere. Mr. Osborne said that he was not ready to proceed with the case just then, and counsel or the others agreed that it would be better o take up the hearing at some future day. The opposing interests declared that October 10 would be about right, and this was apparently settled.

The Russian consul had been standing near way, and one of the court officers shoved him as if he was a plain person. And, to do the representative of the Czar justice, he took was bumped against the bishop, who was also near by. Memorandum books were consulted, and both of the lawyers in the case amiably agreed to give the policeman his day off. So the case was set down at length for the 11th, All of the Syrians and the Russian consul seemed to leave the court at the same moment, and they crowded each other through the narrow doorway. Cochrane, Now Leader of the Seventeenth, Will Place Him In Nomination.

SCRAMBLE FOR COUNTY PLACES

Gottfried Westernacher Seems to Have the Inside Track for Sheriff. Political Gessip.

A call has been issued for a caucus op Friday night of the delegates from Kings County to the Democratic judiciary convention to be held on Saturday, at noon, in the court house here. The delegates are to be elected to-night in the various Assembly listricis.

There isn't any doubt now that Samuel S. Whitehouse will be nominated for the bench by the Democrats of the Second District, on Saturday. The drift toward Mr. Whitehouse in the past few days, has been so strong that the other caudidates for the nomination have given up the race.

Henry F. Cochrane, the new leader of the Seventeenth Assembly District, will make he speech placing Mr. Whitehouse in nomin-

John T. Gallagher, former president of the State Undertakers' Association, and of the Friendly Sons of St. Patrick, has come out as a candidate for the nomination for coroner in the Eastern District. Mr. Gallagher lives in the Fourteenth Assembly District, Senator McCarren's home district, and he has influential backing.

Dr. J. Richard Kevin, alderman from the Fourth Assembly District, is also a candidate for the nomination for coroner in the Eastern District. Dr. Kevin has the backing of Tax Commissioner James B. Bouck, of the Fourth District, and of other Assembly district leaders. His nomination was thought to be assured until Mr. Gallagher got into

the race. Dr. Andrew M. Gillen, alderman from the Ninth Assembly District, is a candidate for the nomination for coroner in the western district. Dr. Gillen is a son-in-law of Deputy Register P. H. Quinn, leader of the First Assembly District. Dr. Gillen was formerly opposed to ex-Senator James H. Mcthe leader of the Ninth District, but at the recent primaries he supported Mc-. Cabe, and, it is said, has demanded the nom-

ination for coroner as a reward, When ex-Senator McCabe was asked if he indersed the candidacy of Dr. Gillen for Coroner he said: "I will indorse anybody from my district who is a candidate for a nomina-

Dr. McCabe refused to make a more specific explanation of his position with reference to Dr. Gillen's candidacy. Another delegation called on Senator Mc-Carren, at Democratic headquarters, to-day to urge the nomination of Gottfried Westernacher for Sheriff. The delegation was made up of a dozen motormen and conductors of he Coney Island and Brooklyn Railroad, who told Senator McCarren that Mr. Westernacher was their friend and that he would have the support of the railroad men if he

s nominated for sheriff. Louis L. Happ of the Twenty-first District is very earnest in his candidacy for the shrievalty nomination. A local statesman with a touch of humor in his makeup to-day thus sized up the rivalry between Mr. Westernacher and Mr.

Happ for the shrievalty: "It looks as if some artful designer with Hibernian leanings has gotten two worthy and unoffending Germans into a scrap over the nomination for sheriff, so that in the end a compromise will have to be effected and an Irishman selected for the place."

Nevertheless, it is believed that Mr. Westernacher has the inside track on the nomination and that he cannot be bowled over. Deputy Water Commissioner Thomas R. Farrell, leader of the Eleventh District, annouces that he is not going to refuse to take part in the caucuses of the Kings County delegations to the various conventions. "Why shouldn't we go into the caucuses?" asked Mr. Farrell. "We are Democrats, are members of the same organization and are all out for the ticket. The primaries? Why,

the primaries were held a week ago. They are all over." Judge John J. Walsh, leader of the Second District, who, with Mr. Farrell, represents James Shevin in the local organization, will also take part in the Kings County Democratic caucuses. This means that Mr. Shevilin and his friends will abide by the will of the majority and that there will be no opposition to Herman A. Metz for Controller. Mr. Metzs' nomination, from present indica-

tions, is positively assured. NEW STEAMER BLOWN ASHORE.

Excitement Attends the Launching of Holland-America Line's New Amsterdam.

Belfast, September 28-The launching from the yards of Harland and Wolff here, of the Holland-America Line steamer New Amsterdam this morning, was attended by some excitement. A strong wind drove the steamer up the river, where she drifted ashore. After the vessel was got off she struck a pierhead, considerably damaging the staging and blocked the river for some time until tugs managed to get control of the vessel and towed her clear.

The New Amsterdam is a vessel of 17,000 tons, and 12,000 horse-power, which is expected to give her a sustained sea speed of seventeen knots an hour. She is 600 feet long and has 66 feet beam. There will be accommodations for 400 first-class, 250 second and 2,200 steerage passengers. steamer is scheduled to make her maiden trip to New York on April 7, 1966.
