

Advanced Placement Latin Summer Assignment

For your Summer Assignment you will complete a journal entry for selections from the *De Bello Gallico* and the *Aeneid*. The goal here is for you to closely examine the content of the passages before we actually read them in Latin. In the fall we will explore the ways in which our understanding of the text deepens when the syllabus is read in Latin.

After choosing a translation (see me for a text or links), read each selection noted in this journal and choose quotations significant and interesting to you, in English, from the text. Write a thoughtful analysis which includes your honest reaction as you read. This packet contains a cover page and 15 response pages, all of which must be completed before the first day of school.

In the fall, we will also lay out curricular themes inherent in the text. These curricular themes will form the basis for further discussion about our readings.

The formatting of this document, if it is in word, is intended for digital use, so that you can type in your reaction as you read. If you wish, you may print it out and record your responses by hand. If you do this, add in to each box of the table on each page. Do not write beyond one page for each response.
