

## The Delta Program | *Newsletter* – October

### Delta High-Experiential Days

Delta is a school that embraces hands-on learning. We implement this in multiple ways, but one example is our experiential days. This semester, for three days scattered through September, October, and December, students do not attend their regularly scheduled classes; instead, they attend their experiential class all day long. Experiential classes are a time for exploration and learning outside the boundaries of the traditional classroom and the constraints of time. Here are a few things they did!

*Jess took students on a hike to Musser Gap to learn about the evolutionary history of our local ecosystem in partnership with ClearWater Conservancy.*

*As well as Tussey Pond fishing trip in partnership with Spring Creek Trout Unlimited and PA Fish and Boat Commission.*

*Experiential Law taught by Lynda went to the Centre County Courthouse in Bellefonte to meet with District Attorney Bernie Cantorna and Assistant District Attorney Crystal Hunt. Students took various courtroom roles in a mock (very mock) trial. In the afternoon, the class explored evidence of a crime and participated in a plea-bargaining simulation.*

# PTSO Update

11/6 –PTSO Meeting 7-8pm

\*Superintendent Bob O'Donnell will be asking for feedback regarding the Delta Program Application process.

## Upcoming Fundraisers

- The Field 11/25

## Box Tops

The company is starting to transition to an electronic accounting system where you use an app to scan receipts. There are still plenty of physical Box Tops to clip and send in to school!

## Super Smash Bro's Tournament Fundraiser

*Evan Marcinkevage (Delta High, 10<sup>th</sup> grade)*

*The Tournament was held for students in both Delta Middle and Delta High on 10/17.*

Smash Bros. is a game that I enjoyed from a young age. I started to get into the competitive scene, and it taught me a lot about how to think critically and logically. The game also has an amazing community, and I was able to find close friends and make even more friends through the game. It is a game that most people can play and enjoy, so I thought that hosting a tournament would be a great way to benefit the community in two ways...

- To help get the school some money
- To bring everyone together and have a good time!

I organized and ran the tournament the whole way through. We had prizes and 2 brackets. My friends graciously brought in consoles and monitors as well as food! We had about 28 people there, and everyone had an amazing time! Collectively, we raised about **\$230** for the school!

**Students!!**  
**What are some creative ways you can raise money for your school?**
