To prepare students for lifelong success through excellence in education

info@scasd.org - 814.231.1042

То:	Board of Directors
From:	Robert O'Donnell, Randy Brown and Donna Watson
Subject:	2020-2021 Budget Development
Date:	April 24, 2020

As discussed in our most recent <u>update</u>, the COVID-19 pandemic has significantly impacted our budget development process negatively. In that update, we outlined changes in our financial projections. While numerous factors continue to impact our future, this update assumes Penn State University Park students are in session this fall.

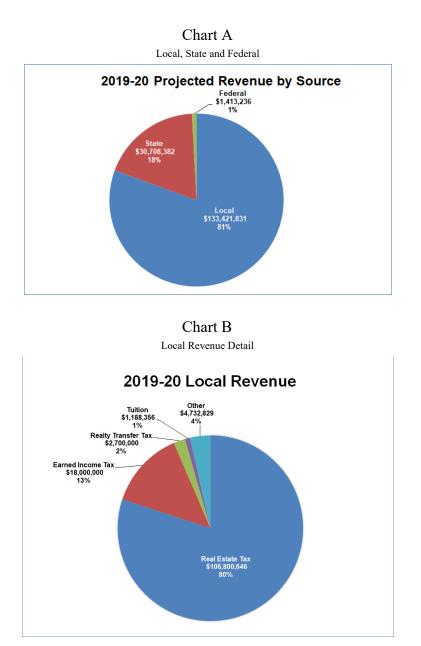

Although we've been working on our budget proposal for the 2020-2021 year, this pandemic caused us to go back to the drawing board. Beginning with our April 6 meeting, we will have seven budget-focused meetings with the Board. Following this new budget development period, we will propose the Board takes action on our proposed budget. The administration's goal is to develop a budget proposal that minimizes disruptions of student learning experiences.

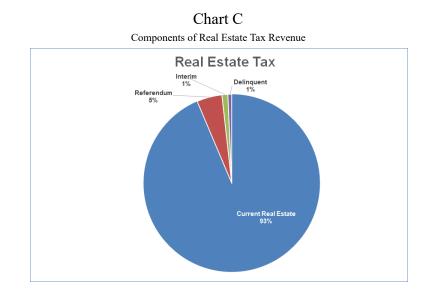

To be ready for different situations, we are preparing a second budget scenario that takes into account Penn State continuing remote learning this fall. Although we hope not to see this circumstance materialize, we need to plan for that possibility.

Revenue - Budget Year 2020-2021

District revenue derives from three sources: local, state and federal. As is typical, we continue to include a flat revenue projection at the state and federal level. For now, this approach may be considered a best-case scenario. Reports from the state government and Pennsylvania Association of School Business Officials (PASBO) have cautioned that districts might receive less revenue than previous years. Therefore, we are projecting that any lost revenue will be offset by funding from the <u>CARES Act</u>. While this is federal revenue, it flows through the state before arriving in school districts, which creates some uncertainty since the state has not yet announced distribution channels or amounts.

Because local sources accounted for 81 percent of district revenue in 2019-2020, a local economic downturn is very harmful to our district. Real estate and earned income taxes make up 93 percent of our local revenue at 80 percent and 13 percent, respectively. (See Charts A, B, and C.)

Real Estate Tax Revenue

This revenue is generated by applying the Board-established tax rate to the assessed value of properties, determined by the county. Changes in the amount of revenue result from changes in the tax rate, additions or deletions to the assessed value of taxable properties, and the actual tax collected. The projected tax rate for the 2020-21 budget is 46.0875 mills, the same as in 2019-2020. The assessed value of taxable properties can change from year-to-year in multiple ways:

- Properties added and deleted to the tax roles by new construction or demolition
- Tax appeal from property owners resulting in adjustments of the assessed value

Assessed Value

Over the past number of years, our average assessed value has grown by 1.20 percent, the rate of growth generally included in our projections. The assessed value growth was higher than average at 1.95 percent according to the July 2019 tax roles. As a result of the slowing economy and a higher-than-average expected number of real estate tax assessment appeals, our budget includes only .80 percent assessed value growth.

Collection Rate

Another factor on real estate tax revenue is property owners ability to pay. Traditionally, our collection percentage is above 97 percent. Unpaid tax bills are turned over to the county tax collection office on Dec. 31 of each year. In the current economic climate, the collection percentage is expected to decrease to 95 percent based upon historical data, resulting in lower tax revenue.

	Tab	le l	
Assumption	3/2/2020 Projection	Revised Projection	Real Estate Revenue Decrease
Collection %	97.1%	95.0%	(\$2,306,580)
Assessed Value Growth	1.2%	0.8%	(\$425,125)
Tax Rate Increase	2.0%	0%	(\$2,149,409)
Total Decrease in Budgete	(\$4,881,124)		

Table 1 shows the impact of these factors on our revenue projections.

Earned Income Tax

Earned income tax (EIT) revenue comes to the district primarily through the Centre Tax Agency. The historical average growth of EIT is 2.50 percent. Due to the economic impact of the pandemic, we are not predicting this rate in the 2020-2021 budget. Based upon local and state-wide predictions, we are planning for a 10 percent drop, which is about \$1,800,000. Fortunately, earned income tax only accounts for 11 percent of total revenue.

Real Estate Transfer

The real estate transfer tax is expected to decline from 1.6 percent of the total budget to .9 percent, equating to \$1.3 million less, as a result of fewer properties being sold.

Delinquent Real Estate Tax

Because of job losses and other economic factors, we expect an increase in delinquent real estate taxes owed to the district. We will be projecting the tax revenue to increase from .5 percent of the total budget to .7 percent, equating to \$350,000 more, as a result of higher unpaid tax bills.

Revenue - Future Years 2021-2023

The impact of the economic decline that began last month cannot be forecasted with great certainty. What is known is that this decline has been more impactful than the previous economic slides in 2008 and 2011. Economic predictions, including those from PASBO, have warned that districts should prepare for a slower, longer recovery. In preparing revenue projections, we have maintained lower-than-average growth assumptions for our revenue in 2021-2022 and 2022-2023 for real estate, earned income, and realty transfer tax.

Real Estate Tax Revenue

Traditionally, our average tax increase has been 2 percent, and now we are working with a 1 percent tax rate increase for the next two years. Under this scenario, we may require additional cost-reduction measures depending upon the length of economic downturn related to the change in assessed value and collection rates.

Other Impacted Revenue

- Local services tax: Although this revenue stream is marginal compared to others; however, increased unemployment is expected to slow this revenue.
- Payment in Lieu of Tax: Penn State makes a payment in lieu of tax to the district for facilities, or portions of their facilities, not used in their overall mission and leased by third parties. Their closure may impact this revenue stream in the future.
- Property tax reduction (homestead/farmstead revenue): This state revenue source is guaranteed for 2020-2021; however the future years may be impacted by the economic conditions.
- Delinquent Real Estate Tax: Unlike the majority of our revenue, due to the decline in the collection of real estate tax the delinquent tax collected would be expected to increase in the future years.

Expenses - Budget Year 2020-2021

The current budget proposal includes salary and benefit expenses that have been adjusted to reflect current projections for all employee groups. In addition, health insurance costs have been adjusted to reflect the negotiated rate.

Future updates will include adjustments to expenses that are both recurring and non-recurring in nature. In the interest of closing the gap between revenue and expense, the budget does not include a transfer to the capital reserve fund.

The proposed reductions are expected to be reviewed with the finance committee at the upcoming meeting, May 7.

Expenses - Future Years 2021-2023

Salary and Benefits

Salary and benefit expenses represented 70 percent of the district budget in 2019-2020 and, therefore, require careful analysis moving forward.

Health insurance rates typically increase between 10 and 15 percent each year and have been estimated accordingly in our projections. PSERS employer contribution, or retirement expense, during the projection period, is estimated at 34 percent to 38 percent in 2029-2030. Recent discussion in Harrisburg warns that low earnings levels on the PSERS fund investments could

result in even higher employer contribution rates. We are unable to quantify this potential impact in our projections at this time.

Capital Reserve Transfer

The capital reserve transfer has been returned to the projections in 2022-2023. We do not make this recommendation lightly. The district has worked diligently to fund capital project transfers in order to improve and plan for the most necessary facility needs. In this spirit, we will continue to evaluate avenues to support this fund in future years.

Multi-year Projections

During the budget development process, the administration prepares multi-year projections several times. These projections include both the general and capital reserve fund, looking at revenue, expense and fund balance.

For the 2020-2021 budget, we are working to make proposed cost reductions which are both recurring and non-recurring. We will continue to monitor the situation, keeping in mind the longer the economy takes to recover, the more likely we'll need additional recurring reductions in future years.

We are tentatively projecting the general fund balance to be as much as \$77 million in deficit for 2029-2030. This is not a concrete estimate because many factors can occur over a 10-year period. In light of our current situation, we recommend focusing on a five-year duration. Our goal is to adjust the district's expenses in the near term to achieve a positive ending fund balance at the end of 2024-2025. We believe this is a more strategic approach than using the 10-year projection.

Additional Factors

One particular economic indicator which has a significant impact on the district is Penn State, which recently announced significant operational changes in response to the economy. We have prepared initial revenue projections should Penn State remain online for the fall. These projections, available on page 23, show a potential further decrease in local revenue of \$9.2 million in 2020-2021. Until Penn State announces their decision, we will continue to prepare for the possibility of further reductions.

As mentioned previously, we are estimating CARES funding will maintain level funding in the 2020-2021 budget year for state and federal funding. However, since CARES funding is expected to be one-time money, we will need to address declines in state and federal funding in future years.

As previously noted, PASBO continues to provide insight and analysis to the administration during these challenging times. PASBO materials are attached to this memo for your review, which also provide support for the various factors and drivers in our projections.

Timeline

Here is the timeline of meetings to understand all aspects of our budget proposal:

- April 6, 2020 Full Board Meeting
- April 21, 2020 Finance Committee
- April 27, 2020 Full Board Meeting
- May 4, 2020 Full Board Meeting
- May 7, 2020 Finance Committee
- May 18 Full Board Meeting
- June 1, 2020 Full Board Meeting
- June 15, 2020 Budget Hearing and full Board Meeting
- June 29, 2020 Full Board Meeting

(1) Projected decrease in 2019-20 and 2020-21 are related to the estimated impact of COVID-19. Future years are assumed to increase gradually to slightly less than the historical 5-year average of 3.2% for years prior to COVID-19.
 (2) Projected 2020-21 and 2021-22 reflect the estimated impact of COVID-19. Years 2022-23 forward assume historical 10-year average of 1.2% through 2019-20.
 (3) Excludes reimbursement due to the district for debt service payments related to the high school and elementary project debt paid during construction.
 (4) Other State Revenue for 2018-19 and 2019-20 include DCED grant revenue related to the State High Project and three elementary buildings. Projected 2019-20 is less than budget because a larger amount was received in 2018-15
 (3) than projected. This grant revenue is included in both revenue and expense.

(1) Assumes further decreased in assessed value growth from .8% to 0% (\$831,724) due to property assessment appeals and a further decline in the collection percentage from 95% to 90% (\$5,400,690).

(2) Assumes further decrease in earned income compared to projected 2019-20 from 10% to 25%.

(3) Assumes further decrease in property transfers.

State College Area School District

2020-21 Budget Development

State College Area School District April 27, 2020

2020-2021 Budget Update

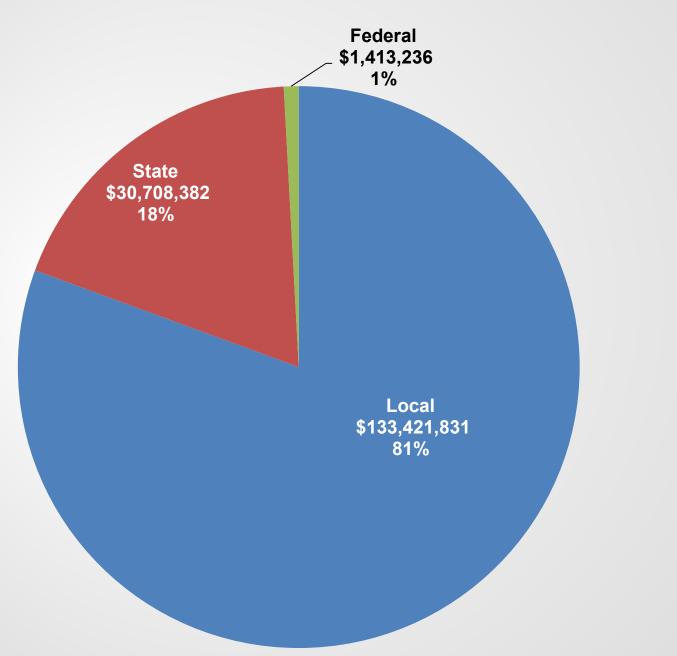

Finance Committee update

- Dramatic economic decline over short time period
- Recovery predicted over long time period
- Penn State Impact
 - Summer 2020 online
 - Fall 2020 return to classroom assumed in our projections
- 2019-2020 continue to pay district employees per Act 13
- State Revenue
 - Expected decrease offset by CARES Act funding
- 2019-2020 Budget Projections
- 2020-2021 Budget Proposal
- Multi-Year Projetions

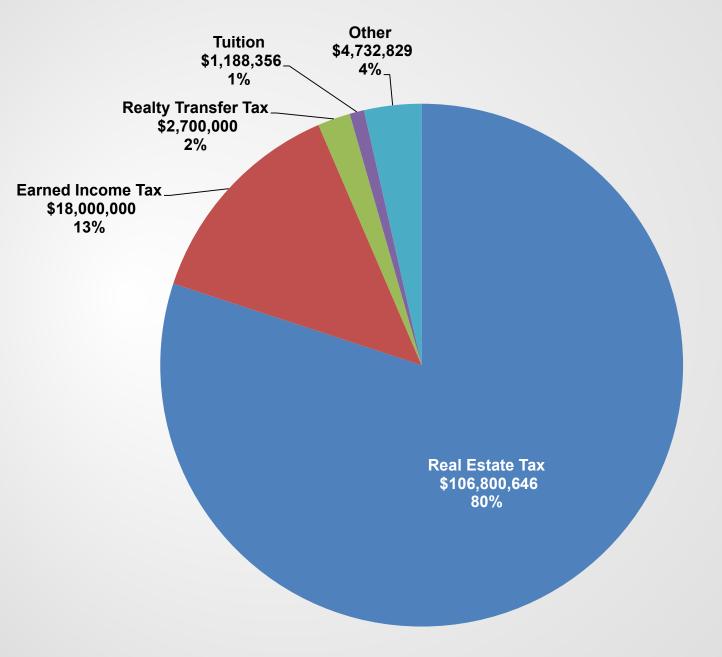

2019-20 Projected Revenue by Source

Local Revenue

Other Revenue Types

- Earned Income
 - Projecting 10% loss
 - Historical Average 2.5% growth
- Real Estate Transfer
 - Decline from 1.6% to .9%
- Delinquent Real Estate Tax
 - Currently budgeted at .5%
 - Will be changing assumption to .7% (increase of \$350,000)
 - Due to increase in delinquent accounts
 - Lower collection rate

Revenue - Future Years

- Recovery period uncertain
- Local Services Tax
- Payment in Lieu of Tax
- Property Tax Reduction
- Delinquent Real Estate

Expense

- Salary and Benefits adjusted to reflect current projections for all employee groups
- Health insurance adjusted to reflect negotiated rate
- Future updates include adjustments
 - Recurring and non-recurring
- Capital reserve transfer eliminated to close budget gap

Future Years Expense

- Salary and Benefits 70% of budget requires analysis
- Health insurance 10-15% increases
- PSERS rate 34-38% of salary and wages
 - May be higher in future
- Capital Reserve transfer
 - Returns to budget in 2022-2023
 - Funds necessary facility needs and improvements
