Subject: Districtwide Facilities Master Plan Update
Date: March 27, 2024

The architects, Crabtree Rohrbaugh and Associates (CRA), will provide an initial report on the district facility assessment. The evaluation categories in the assessment includes: site conditions, exterior envelope, building structure, interior building conditions, HVAC systems, plumbing, and electrical.

The assessment will aid in confirming the current deferred maintenance projects and potentially identifying additional projects. The assessment document is available for review [using this link](#).

Next steps begin in April and include refinement of the narratives, developing a budget for the projects as well as creating a prioritization and assignments within the five-ten year capital plan.

An update on the development of the educational program from the Park Forest Middle School will be shared.
