

AASD Annual Wellness Report 2020-21

WHY is this important?

Per our *School Wellness Policy 458*, each site will need to complete an assessment tool (Action for Healthy Kids) based on the School Health Index (SHI). The purpose of the assessment is for schools to identify the strengths and weaknesses of their health and safety policies and programs, and develop action plans for improving student health.

WHAT is the report?

The Action for Healthy Kids Wellness Assessment examined nine (9) aspects of the school wellness environment:

- | | | | |
|----------------------------------|---------------------------|---------------------|---------------------------|
| 1. School Health and Environment | 2. Nutrition Environment | 3. Health Education | 4. PE & Physical Activity |
| 5. Social & Emotional Climate | 6. School Health Services | 7. Staff Wellness | 8. Family Involvement |
| 9. Community Involvement | | | |

The report compared AFHK schools in the district and state, and identified opportunities for growth. The SHI score indicates if a school provides an environment where students are healthy, active and ready to learn.

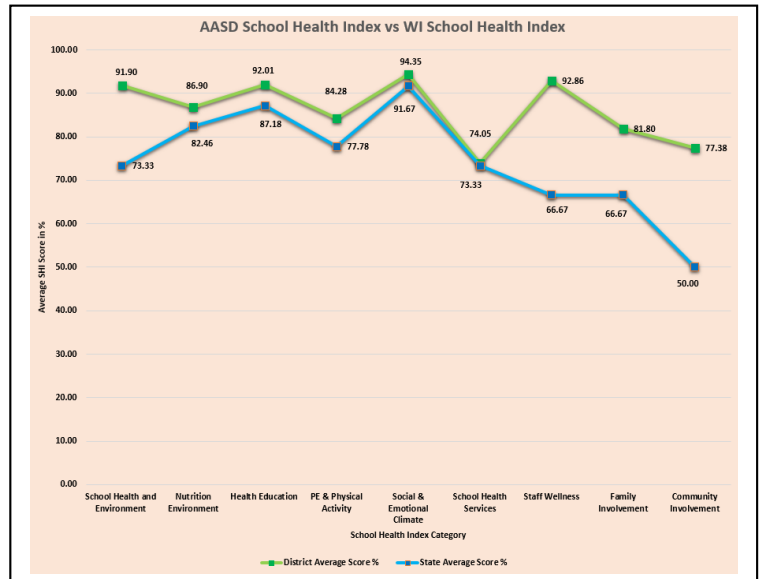

HOW will the report support student success?

Promoting healthy and safe behaviors among students provide young people with the knowledge and skills needed to become healthy and productive adults. Improving student health and safety can increase students' capacity to learn, reduce absenteeism and improve physical fitness and mental alertness.

SUMMARY: AASD's school health index rating is excellent. AASD scored excellent in 8 of 9 SHI categories. The district exceeds the state average in all 9 SHI categories. The district's overall score increased by 0.16% from 89.41% in 2019-20 to 89.57% in 2020-21.

Overall Score	
Accountability Ratings	Score
Excellent	76-100
Good	51-75
Fair	26-50
Needs Improvement	0-25
