

-Ecosystem Bowl Biology Workshop- Designed for Grades 5-12

BIOLOGY/GT

Create Your Own Self-Sustaining Ecosystem!

Discover the Secrets of Nature's Balance and Biogeochemical Cycles!

Join us for an unforgettable journey into the world of ecology! In this immersive workshop, you'll learn how to create and enjoy your very own self-sustaining ecosystem. No filtration required! Delve into the properties of water, ions, nutrient cycles, gas exchange, and more as we cover much of the Ecology unit content in Middle School and High School. This will also make a great conversation piece at home.

- Dates (Choose one option)
 - Option 1: 6/12 & 6/13, 10:00 am-12:30 pm
 - Option 2: 6/25 & 6/26, 10:00 am-12:30 pm
- Location: Carroll High School
- Workshop Fee: \$150
- Materials Fee: \$75 (supplies, glassware, hardscaping, planting materials, all plants, and snails provided)

For inquiries and registration, please email barnardbiologychs@gmail.com

Facilitated by Daphne Barnard: 9th Grade GT and Advanced Biology Teacher at CHS

By observing the ecosystem within the bowl, students can gain a deeper understanding of how different elements within an ecosystem interact to maintain balance and sustainability. Reserve your spot today.
