Continuous Improvement

- These external systems and external measures of student achievement show that we are doing quite well;
 - However, there is always room for growth and improvement;
 - These external measures are also not the only way that we measure our performance;
 - Teacher teams develop and utilize common formative assessments throughout the school year to inform their instruction and to identify students in need of additional support;

- Our strategic planning process has identified other areas that we will be working on, including:
 - Support for all learners, academically, socially, emotionally, and behaviorally;
 - Ensuring that learning activities are providing real-world, relevant experiences to students
