

THE SCHOOL BREAKFAST PROGRAM

1. What is the School Breakfast Program?

The School Breakfast Program (SBP) is a federally assisted meal program operating in public and non-profit private schools and residential child care institutions. The SBP started in 1966 as a pilot project, and was made a permanent entitlement program by Congress in 1975.

Participation in the SBP has slowly but steadily grown over the years: 1970: 0.5 million children; 1980: 3.6 million children; 1990: 4.0 million children; 2000: 7.5 million children; 2010: 11.67 million children; and 2016: 14.57 million children.

2. Who administers the SBP?

The Food and Nutrition Service (FNS) of the United States Department of Agriculture (USDA) administers the Program at the Federal level. At the State level, the Program is administered by State agencies, which operate the SBP through agreements with local school food authorities. State agency contact information is available at: <https://www.fns.usda.gov/school-meals/school-meals-contacts>.

3. How does the Program work?

The SBP is generally operated by public or non-profit private schools of high school grade or below. Public or non-profit private residential child care institutions may also participate in the SBP, and charter schools may participate in the SBP as public schools. School districts and independent schools that choose to participate in the Program must serve breakfast meals meeting Federal nutrition requirements, and offer free or reduced

price breakfasts to all eligible children. In exchange, participating institutions receive cash subsidies from the USDA for each reimbursable meal served.

4. What are the nutrition requirements for school breakfasts?

All school breakfasts must meet Federal nutrition requirements, though decisions about the specific foods to serve and how the foods are prepared are made by local school food authorities. Information about the SBP meal pattern requirements may be found on the School Meals website: <https://www.fns.usda.gov/school-meals/nutrition-standards-school-meals>.

5. How can children qualify for free or reduced price school breakfast?

Children may be determined "categorically eligible" for free meals through participation in certain Federal Assistance Programs, such as the Supplemental Nutrition Assistance Program, or based on their status as a homeless, migrant, runaway, or foster child. Children enrolled in a federally-funded Head Start Program, or a comparable State-funded pre-kindergarten program, are also categorically eligible for free meals. Children can also qualify for free or reduced price school meals based on household income and family size. Children from families with incomes at or below 130 percent of the Federal poverty level are eligible for free meals.

Gateway Serves under CEP - All students eat free
