Montague High School

The Montague High School, as an attendance center of the Siskiyou Union High School District, was first opened in 1921 and closed its doors in 1922. The one and only teacher was Mrs. Tarbox. The school was located in the old Montague Elementary School, which is still standing.

The following excerpt is from the 1922, White and Gold Yearbook:

> The Montague High School students have been benefitted very much by the establishment of a high school at Montague the last year (1922). We have had twenty students enrolled, and at present have an enrollment of fourteen.
>
> Everyone has shown the best of spirits in keeping up the standard of scholarship, and in helping with athletics. Our baseball team is putting faithful practice in hopes of making a good record.
>
> We feel that we owe our friends a great deal for the support they have given our baseball team. The Montague business men have thanks for giving us advertisements to insert in the 1922 “White and Gold.” We have enjoyed, too, the visits of Dr. Hauck. We hope every pupil and Montague citizen will continue to show school spirit and boost for a bigger school next year, for it is to the interests of everyone to have a larger high school.
