

## Siskiyou Union High School District

The Siskiyou County High School (at Yreka) was established in 1893 and opened its doors in the fall of that year. This school served all the students of Siskiyou County except those of the Etna area where a high school had been established in 1892. In 1911, Dunsmuir set up a high school and in 1915, the Siskiyou County High School's name was changed to the Siskiyou Union High School.

A growing demand for branch high schools was met by including the \$70,000 bond issue, after the Yreka School burned in October, 1916, provisions for five new buildings to be erected at Dorris, Fort Jones, McCloud, Mount Shasta, and Weed. These branch schools were originally organized for a two-year course; their graduates could then take their last two years of advanced high school in Yreka.

At various times there were other branch high school established as attendance centers of the Siskiyou Union High School District. The following high schools were in the district at one time but now are either no longer in operation or have formed their own district: Butte Valley, Fort Jones, Mayten, and Montague. These high schools are still in operation and continue to be part of Siskiyou Union High School District: Happy camp, Jefferson, McCloud, Mt. Shasta, and Weed.

The following photocopies are of the Yreka High School Yearbook.
