Introduction

The subject of records is very broad and includes several functions. Records Retention is the holding (period) of records/documents for further use. A record may be any document containing information. Records Management is a broader concept and fixes responsibility for and exercises controls over all records/documents, within an organization, from their creation to their final disposition. Records Storage is a function of Records Management, addressing the retention of original records or copies (whether photographed, micro-photographed, or otherwise reproduced on film or electronic media) and the development of a systemized storage plan and indexing with respect to preservation, easy retrieval for later use, or final destruction and disposal.

This manual is intended for Records Retention purposes only. While suggested procedures and sample forms have been included, this publication is not intended as a Records Management manual. The development of detailed procedures for Records Management must be left to individual districts to meet their own specific needs.

The Records Retention Manual is designed as a quick reference to the retention period of documents. While the lists of documents may not be totally inclusive, most documents used in school districts are represented. Various documents may appear in more than one area of responsibility. Old documents, no longer required, remain listed because they must still be maintained. The retention periods indicated are to assist district personnel in both the retention of permanent records and the timely destruction of documents.

This publication is a compilation of information from the California Education Code, California Code of Regulations – Title 5, Commercial Code, Government Code and many other sources indicating a legal document retention period for specific documents. Please refer to the Table of References for a list of sources.

This document is designed to be distributed to the appropriate departments. It is our recommendation that a copy of the Legal Provisions (beginning on page 107) accompany each section distributed. Please give credit to CASBO if any portion of this document is copied.

The contents of this manual are appropriate as of the time of publishing the manual. Future administrative decisions, regulations or legislative action could result in major changes. CASBO is not responsible for any legal conflicts resulting from the use of this manual.

Suggested Procedures

Preparatory Steps:

The Legal Provisions provided in this document (beginning on page 107) should be thoroughly reviewed. A preliminary district study should be conducted of existing applicable board policies and administrative procedures, records on hand and probable personnel requirements in order to establish and maintain new or revised procedures, assess physical facilities available for storage or records and establish a schedule for accomplishing the tasks involved.

Records of a continuing nature, i.e. active and useful for administrative, legal, fiscal or other purposes over a period of years, shall not be classified until such usefulness has ceased. A pupil's cumulative records is a continuing record until the pupil ceases to be enrolled in the district. It is then classified as a Class 1 – Permanent Record.

Classification of Records:

The school district's chief administrator shall be the person responsible for classifying school district records into the following classifications (California Code of Regulations – Title 5, Sections 16020-16030):

- Class 1 – Permanent Records (as listed in Section 16023): The original, or one exact copy, unless microfilmed, shall be retained indefinitely.
- Class 2 – Optional Records: Not required by law to be retained permanently but deemed worthy of further preservation as specified in Section 16024.
- Class 3 – Disposable Records: required retention periods and procedures for destruction or transfer of records as specified in Section 16025.

While the required retention period for some records is dependent upon the date of the applicable audit, varying audit practices of federal, state and other agencies must also be considered.

Before January 1, the superintendent (or a person designated by the district not employing a superintendent) shall classify and review every record originating during the prior school fiscal year. The retention period for Class 3 records should be designated, and such records should be physically segregated by the fiscal year in which they are scheduled for destruction. In the inventory process, those carbons or other copies which are no longer useful to the district (except one copy of an original required by law to be filed with another agency) may be destroyed without making an inventory record.

Destruction of Records:

All Class 3 records which have been held for the required retention periods and any permanent records which have been classified as Class 3 after having been duly microfilmed and held for the required retention periods may be destroyed as per Title 5, Sections 16026-16027 of the California Code of Regulations.

The governing board should be notified of pending action to dispose of records, and such notification should be recorded in the board minutes. Notification should also be given to the governing board attesting to the fact that the documents have been properly destroyed.

Disposal of records should be accomplished by burning, shredding, pulping or other means to assure complete destruction and to prevent any reconstruction of the records to any degree.

Microfilm and Other Applications

The following outlines the various applications of microfilming techniques that may be utilized by all divisions and departments in managing their individual records. Each organization is responsible for determining the applications for microfilm and the microfilm to be used, whether it is microfilm cartridge or microfiche. Microfilm, microfiche-microfilm or microfiche are all micro-photographic images of record material, which may be retained in lieu of the record itself. The following requirements apply to micro-photographic images of any class of records:

- The image must be accurate in detail.
- The film must meet American National Standards Institute (ANSI) standards.
- The film or fiche must incorporate the superintendent's signed and dated certification of compliance with the provisions of the Evidence Code.
- The image must be conveniently accessible, and provisions must be made for preserving permanently, examining and using the film.

Optical Disk:

Please refer to the Commercial Code authorization of recordation on optical disk.

Electronic Copies:

Education Code, Section 35254 states that "the governing board of any school district may make photographic, microfilm or electronic copies of any records of the district. The original of any records of which a photographic, microfilm or electronic copy has been made may be destroyed when provision is made for permanently maintaining the photographic, microfilm or electronic copies in the files of the district, except that no original record that is basic to any required audit shall be destroyed prior to the second July 1st succeeding the completion of the audit."

The following applications should be considered:

- **Space Saving:** Permanent records or records to be kept for a period of ten years or longer should be microfilmed to save storage space. This process applies whether the records are to be kept in the office or sent to the warehouse for storage when they have become inactive. Records which are too active to send to the warehouse for storage, but by volume create a storage problem in office areas, may be microfilmed and effectively save office storage space and cost.
- **Fast Retrieval:** Fast retrieval of records information saves labor costs and provides better customer service. However, to achieve any appreciable savings, the retrieval rate should be fairly high. For example, if retrieval of information took only one hour per day, the savings would be negligible. But, if retrieval time was four or five hours per day, then an attractive labor savings can be realized by implementing a document imaging system.
- **Protection of Records:** Microfilm is the least expensive of all reproduction methods. In the case of very valuable documents, which are referenced frequently, the hard copies

are microfilmed for use in the office, and the hard copies may be stored in a safe place. File integrity is also maintained, since the documents are on a microfilm roll where the images remain on the roll in proper order.

- **Reduced Filing Time:** A great deal of time can be spent in fine sorting of documents and placing them in file folders. Random microfilming using an appropriate indexing method and batch sorting beforehand can eliminate filing and thus provide a savings in clerical costs.
- **Rapid Reproduction:** Microfilm can be used for fast reproduction work in lieu of other copying processes. When documents are microfilmed and the microfilm is used to make paper prints, a savings is realized because of the low cost of the film, the speed of filming and the speed of the automatic printer.
- **Cloud-based and Digital Storage:** School districts may contract with vendors for cloud computing services, digital storage and educational software related to pupil records if they comply with the requirements of Education Code, Section 49073.1. With respect to document retention, the third-party contractor must certify that pupil records shall not be retained or available to the contractor upon completion of the contract. Failure to comply with the requirements in Education Code, Section 49073.1 may void the contract.
- **Collection and Retention of Data from Social Media:** School districts may collect information regarding students from social media sources. To do so, they must comply with several requirements regarding parental notification, public notice, document retention and contracting with third-parties, contained in Education Code, section 49073.6. Unlike other student records, information gathered from social media sources must be destroyed within one year of either a) the student turning 18 or b) the student's departure from the educational agency, whichever occurs first.

Documents and Retention Periods

By Areas of Responsibility

Introduction

This section of the Manual has been designed to be distributed to the appropriate departments. It is suggested that a copy of the Legal Provisions beginning on page 107 accompany each section distributed.

Various documents may appear in more than one area of responsibility. Old documents, no longer required, remain listed because they still must be maintained. This manual update reflects new additional documents as well as all previous ones.

In some instances the documents listed have retained the same title but have a new document number. The new number appears in the far left column, and the old number is printed, just below it, in parentheses.

To assist the reader in understanding the Column Headings on the subsequent pages, the following explanations are provided:

- Form No. (if any): If the document or form has a number, the number will be listed in the far left column for each document. If there is no form or document number, the space will be blank.
- Class: The column contains a 1, 2 or 3. This represents Class 1 – Permanent Records, Class 2 – Optional Records and Class 3 – Disposable Records. If other characters appear, refer to the footnotes within each section.
- Record Title: The title or heading on the document or form is listed in this column.
- Required Hard Copy Retention Period: The required legal retention period as found in Title 5, the Education Code, Civil Code, etc. (refer to the Table of References) is listed in this column. If other characters appear, refer to the footnote within each section.
- Recommended Retention: The recommended retention period is the authors' recommendation. This is usually greater than the legal requirement due to the reasons listed in the next column.
- Reasons for Recommended Period: There may be reasons for recommending an extra year over the legal requirement. Where no legal requirements have been found, recommendations have also been provided. Following are some examples:
 - Audit Purposes: retain until after completion of the audit.
 - Audit Resolutions.
 - Timing/Fiscal Year End: legal retention period may not coincide with the fiscal/school year end.
 - Fiscal Accountability: maintain for reference purposes for Fiscal Accountability.
 - Retain until a pertinent document is received.
 - Retain in case of dispute.
 - Retain for possible litigation.

If filmed: if the documents have been filmed or copied, the legal retention of the original document is four years, and the copy must be retained permanently. If dashes (--) appear in the column, it refers to the footnote "Feasibility to Microfilm or copy electronically at District Discretion." The usual rule of thumb is that if a document must be retained from 15-20 years, it may be considered appropriate to copy or microfilm it. Footnotes are provided at the bottom of each page to clarify the information provided.

Pupil Records

A pupil's cumulative record is of a continuing nature as it is active and useful over a period of time, if not transferred, and is not classified until such usefulness has ceased or the pupil ceases to be enrolled in the district. (Title 5, Division 1, Chapter 16, sub-chapter 2, article 1, Section 16022 (b) for k-12 and Title 5, Division 6, Chapter 10, sub-chapter 2.5, article 1, Section 59022 (b) for C.C. of the California Code of Regulations). For further information as to what records make up a pupil's/student's record, the reader should read Title II, Division 4, Part 27, Chapter 6.5 PUPIL RECORDS (K-12) or Title III, Division 7, Part 47, Chapter 1.5 STUDENT RECORDS (C.C.) in the California Education Code. Pertinent portions of the 2 chapters appear in the Legal Provisions section of this document.

Legal Provisions

**California Code of Regulation
Title 5. Education
Division 1. California Department of Education
Chapter 16. Governing Boards of School Districts
Subchapter 2. Destruction of Records of School Districts
Article 1. General Provisions**

Section 16020. Definition of Records

(a) As used in this article, "records" means all records, maps, books, papers, and documents of a school district required by law to be prepared or retained or which are prepared or retained as necessary or convenient to the discharge of official duty.

Section 16022. Classification of Records

(a) Prior Year Records. Before January 1, the district superintendent (or a person designated by the district not employing a superintendent) shall review documents and papers originating during the prior school year and classify them as Class 1 -Permanent, Class 2 -Optional, or Class 3 -Disposable.

(b) Continuing Records. Records of a continuing nature, i.e., active and useful for administrative, legal, fiscal, or other purposes over a period of years, shall not be classified until such usefulness has ceased. A pupil's cumulative record, if not transferred, is a continuing record until the pupil ceases to be enrolled in the district.

(c) Microfilm Copy. Whenever an original record is photographed, microphotographed, or otherwise reproduced on film, the copy thus made is hereby classified as Class 1 -Permanent. The original record, unless classified as Class 2 -Optional, may be classified as Class 3 - Disposable and may then be destroyed in accordance with this chapter if the following conditions have been met:

(1) The reproduction was accurate in detail and on film of a type approved for permanent, photographic records by the United States Bureau of Standards.

(2) The superintendent has attached to or incorporated in the microfilm copy his signed and dated certification of compliance with the provisions of Section 1531 of the Evidence Code.

(3) The microfilm copy was placed in a conveniently accessible file, and provision was made for preserving permanently, examining and using same.

 - (1) The reproduction was accurate in detail.
 - (2) The chief executive officer, or other designee, has attached to or incorporated in the copy or system a signed and dated certification of compliance with the provisions of section 1531 of the Evidence Code, stating in substance that the copy is a correct copy of the original, or a specified part thereof, as the case may be.

School districts shall establish, maintain, and destroy pupil records according to regulations adopted by the State Board of Education. Pupil records shall include a pupil's health record. Such regulations shall establish state policy as to what items of information shall be placed into pupil records and what information is appropriate to be compiled by individual school officers or employees under the exception to pupil records provided in subdivision (b) of Section 49061. No pupil records shall be destroyed except pursuant to such regulations or as provided in subdivisions (b) and (c) of Section 49070.

Section 49068

(a) The Legislature finds and declares that the academic record of a transferring pupil is essential to the pupil's placement, academic success, and timely graduation. The Legislature further finds and declares that an accurate, updated pupil record enhances school safety, academic achievement, and pupil welfare when the record of a transferring pupil includes transcripts, immunization records, and, when applicable, suspension notices, expulsion records, and individualized education programs.

(b) If a pupil transfers from one public school to another or to a private school, or transfers from a private school to a public school within the state, the pupil's permanent record or a copy of it shall be transferred by the former public school or private school no later than 10 schooldays following the date the request is received from the public school or private school where the pupil intends to enroll.

(b) The governing board of the school district and the superintendent of such district shall not order a pupil's grade to be changed unless the teacher who determined such grade is, to the extent practicable, given an opportunity to state orally, in writing, or both, the reasons for which such grade was given and is, to the extent practicable, included in all discussions relating to the changing of such grade.

Article 4 Rights of Parents

Section 49070

Following an inspection and review of a pupil's records, the parent or guardian of a pupil or former pupil of a school district may challenge the content of any pupil record.

(a) The parent or guardian of a pupil may file a written request with the superintendent of the district to correct or remove any information recorded in the written records concerning his or her child which the parent or guardian alleges to be any of the following:

(1) Inaccurate.

(2) An unsubstantiated personal conclusion or inference.

(3) A conclusion or inference outside of the observer's area of competence.

(4) Not based on the personal observation of a named person with the time and place of the observation noted.

(5) Misleading.

(b) Within 30 days of receipt of a request pursuant to subdivision (a), the superintendent or the superintendent's designee shall meet with the parent or guardian and the certificated employee who recorded the information in question, if any, and if the employee is presently employed by the school district. The superintendent shall then sustain or deny the allegations. If the superintendent sustains any or all of the allegations, he or she shall order the correction or the removal and destruction of the information. However, in accordance with Section 49066, the superintendent shall not order a pupil's grade to be changed unless the teacher who determined

the grade is, to the extent practicable, given an opportunity to state orally, in writing, or both, the reasons for which the grade was given and is, to the extent practicable, included in all discussions relating to the changing of the grade. If the superintendent denies any or all of the allegations and refuses to order the correction or the removal of the information, the parent or guardian may, within 30 days of the refusal, appeal the decision in writing to the governing board of the school district.

(c) Within 30 days of receipt of an appeal pursuant to subdivision (b), the governing board shall, in closed session with the parent or guardian and the certificated employee who recorded the information in question, if any, and if the employee is presently employed by the school district, determine whether or not to sustain or deny the allegations. If the governing board sustains any or all of the allegations, it shall order the superintendent to immediately correct or remove and destroy the information from the written records of the pupil, and so inform the parent or guardian in writing. However, in accordance with Section 49066, the governing board shall not order a pupil's grade to be changed unless the teacher who determined the grade is, to the extent practicable, given an opportunity to state orally, in writing, or both, the reasons for which the grade was given and is, to the extent practicable, included in all discussions relating to the changing of the grade. The decision of the governing board shall be final. Records of these administrative proceedings shall be maintained in a confidential manner and shall be destroyed one year after the decision of the governing board, unless the parent or guardian initiates legal proceedings relative to the disputed information within the prescribed period.

(d) If the final decision of the governing board is unfavorable to the parent or guardian, or if the parent or guardian accepts an unfavorable decision by the district superintendent, the parent or guardian shall be informed and shall have the right to submit a written statement of his or her objections to the information. This statement shall become a part of the pupil's school record until the information objected to is corrected or removed.

Section 49072

Whenever there is included in any pupil record information concerning any disciplinary action taken by school district personnel in connection with the pupil, the school district maintaining such record or records shall allow the pupil's parent to include in such pupil record a written statement or response concerning the disciplinary action.

(7)

(A) A certification that a pupil's records shall not be retained or available to the third party upon completion of the terms of the contract and a description of how that certification will be enforced.

Child Nutrition and Food Distribution Division Office of Child Nutrition Services

Policy Memorandum No. 85-306, February 1990

Policy

Effective January 1, 1990, Child Nutrition Program records shall be retained for a period of three years after the submission of the fiscal year's final Claim for Reimbursement. In cases where audit findings have not been resolved, records shall be retained beyond the three-year period until the audit issues are resolved. This policy also applies to adult day care food program sponsors.

Background

Federal regulations governing Child Nutrition Programs stipulate a three-year record retention period; however, based on requirements of the California Education Code, Section 33421, a five-year record retention for Child Nutrition Program records has been in effect.

On July 21, 1989, Assembly Bill 1226 was signed into law as Chapter 194, Statutes of 1989, effective January 1, 1990. This legislation specifies that Child Nutrition Program records shall be retained in accordance with regulations adopted by the United States Department of Agriculture. The enactment of this legislation establishes consistency between state law and federal regulation with regards to the retention of Child Nutrition Program records.
