The Stadium Tradition

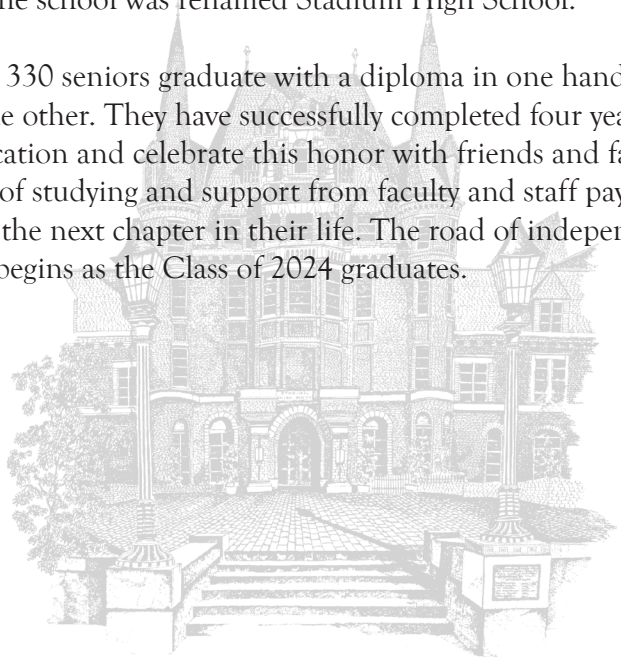

"Academic Excellence"

Stadium High School has always been known for its remarkable beauty. Architect Frederick Heath designed the new building after a fire had engulfed the original structure in 1898. The building, with its magnificent view of Commencement Bay, the Cascades and Olympic Mountains, had been boarded up since the Panic of 1893 caused work to cease completely.

On February 19, 1904, the school district bought the charred ruins for $35,000. The intention was to build a high school for the expanding education system. Tacoma High School opened on September 10, 1906, with 878 students and 38 teachers.

In 1908, civil engineer L.A. Nicholson submitted a plan and estimate for grading a stadium in the gulch north of the school. A committee of representatives drew up a resolution to ensure completion of the stadium. The stadium was the setting for great speeches by Presidents Theodore Roosevelt, Woodrow Wilson and Warren G. Harding. Five years later the school was renamed Stadium High School.

Today, over 330 seniors graduate with a diploma in one hand and a future in the other. They have successfully completed four years of high school education and celebrate this honor with friends and family. The long hours of studying and support from faculty and staff pay off as they prepare for the next chapter in their life. The road of independence and adulthood begins as the Class of 2024 graduates.
