

Algebra 2 Summer Homework Assignment

The purpose of this summer assignment is to review all the concepts from Algebra 1 that you are expected to know as you enter Algebra 2 this fall. The summer assignment will be through the online site DeltaMath.com which will provide feedback as to if you are correct, step by step instructions if you need help, and additional practice if needed. For each section, there is a minimum number you need to complete for full credit, but you can continue to do additional practice if needed. You will receive a grade for the accurate completion of the required number of problems. In addition, there will be an in-class quiz on the concepts from the summer homework in the first few weeks of school. ****PLEASE BE PREPARED TO SUBMIT YOUR WORK WITH YOUR SUMMER HOMEWORK ASSIGNMENT THE FIRST DAY OF SCHOOL****

Students will need a TI-84+ CE calculator for this course. Students will not be able to use a graphing calculator that can download documents from computers such as the TI-nspire CX or any graphing calculator that says CAS (Computer algebra system).

INSTRUCTIONS

1. Go to <https://www.deltamath.com/students/?code=4A3T-S8VX>
2. The registration page will look like this:

Course Registration

Class Code
4A3T-S8VX

Teacher Name: Algebra 2 Teachers
Class: Algebra 2 Summer Homework 2024
