OVERVIEW

2008-2009 BUDGET OVERVIEW

One of the by-products of the budgeting process is the opportunity for the District to communicate to the community, staff and students some of the District's strengths and challenges in an environment that promotes trust.

Growth

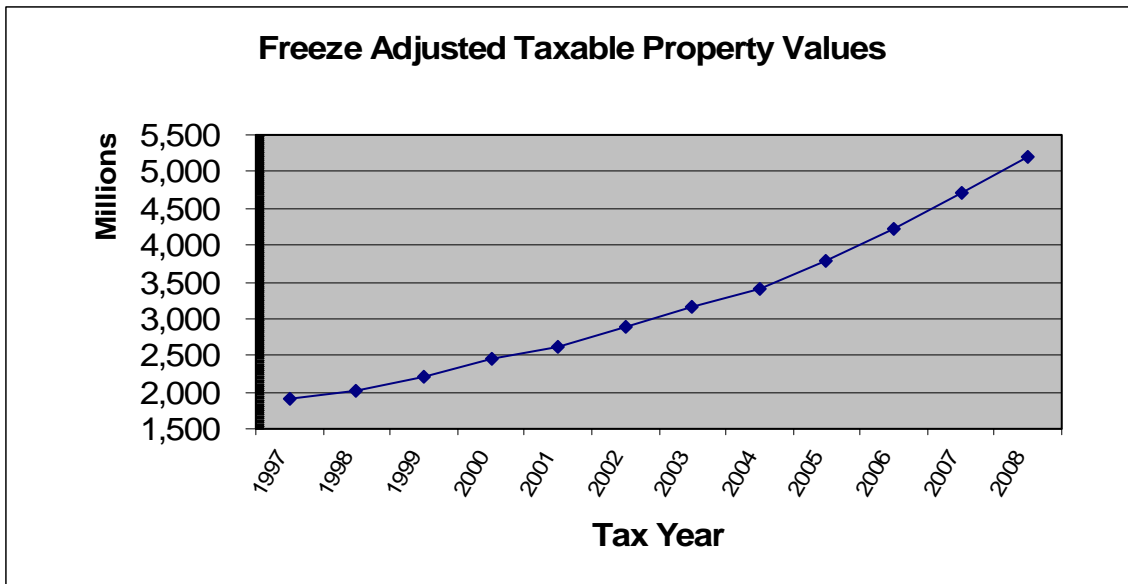

The District continues to experience growth in student enrollment and average daily attendance (ADA.) The preliminary enrollment projections for the 2008-2009 school year continue to trend upward. ADA for the 2007-2008 school year increased over the 2006-2007 school year by 3.56 percent. The District experienced an average annual rate of growth in ADA for the five year period beginning with the 2003-2004 school year and ending with the 2007-2008 school year of 3.71 percent. The chart below provides a visual depiction of the District's ADA statistics for the past ten years.

Increasing enrollment can be seen as a signal that the community is a vibrant place where families want to reside. It also is an indicator that the constituents of College Station ISD want their children to be a part of the District. Every effort is made by the District to provide a safe and healthy learning environment that encourages academic, social and emotional success for each student.

Property Values

The total taxable value of all property within the boundaries of the District continues to increase. The 2008 certified tax roll indicates that the freeze adjusted taxable value of property within the District increased by 10.17 percent over the same category in 2007. The District has experienced an average rate of increase in freeze adjusted taxable value of 10.51 percent over that previous five years. This is a key factor for the District to continue its ability to generate revenues to fund its debt service.

Legislative Scenario

The budget development process has included the impact of House Bill 1, 79th Texas Legislature, 3rd Called Session. A major provision of House Bill 1 is the imposition of Target Revenue amounts for public school districts in Texas. General Fund revenues from state aid and local tax revenues are capped at the Target Revenue amount per student in weighted average daily attendance (WADA.) General Fund revenues are limited to the product of the Target Revenue amount multiplied by the number of students in weighted average daily attendance. If local property taxes are below that amount, the state provides funding to make up the difference. If local property taxes exceed that amount, a district must pay the excess back through recapture payments.

House Bill 1 provides some state aid to the District. However, the recapture provision is not eliminated. Approximately 16 percent of all Maintenance and Operations tax revenues collected from owners of taxable property located within the District are scheduled to be sent outside the District in the form of recapture payments during the 2008-2009 budget year.

The implementation of House Bill 1 has provided a reduction in the property tax rate. It has also provided the Board of Trustees with limited discretion in establishing the tax rate. The proposed tax rate for Maintenance and Operations of \$1.00005 does not include an additional levy of \$0.04 available under the provisions of House Bill 1.

Future Vision from a Budget Perspective

The vision for the current budget development process has been to provide adequate resources to support the success of current students while at the same time placing the District in a financial position so that future growth needs can be met in an orderly manner to support the success of future students.

The need for future construction of new campuses is now a reality. The construction of the District's seventh elementary school, Creek View Elementary School, is currently underway.

Past planning efforts have enabled The District to be positioned financially to address the budget needs presented by enrollment growth. The District currently is engaged in a planning process lead by the Long Range Educational Planning Committee. That planning process is focused on developing recommendations that will enable The District to meet future needs resultant from continued growth in student enrollment.

Human Resources

The proposed budget provides an average salary increase to teachers, librarians, nurses and counselors of approximately 4 percent. The budget proposal provides an increase in compensation for other employees based on 4 percent of current salary.

Student enrollment growth has created the need to add positions throughout the District. The proposed 2008-2009 budget provides funding for the staffing plan to meet the class size requirements in the elementary grade levels, and to meet identified needs in special areas.

The proposed District budget includes a monthly contribution of \$325 per employee toward the cost of the District's group health insurance plan made available through the Texas Teacher Retirement System. This monthly contribution is available to employees regularly scheduled to work 20 or more hours per week.

Proposed Tax Rate Reduction

The proposed total tax rate of \$1.22105 per one hundred dollars in taxable property valuation is comprised of the following components:

Maintenance and Operations	\$1.00005
Debt Service	<u>0.22100</u>
Total Rate	<u>\$1.22105</u>

This proposed tax rate represents a total reduction of two cents from the tax rate for 2007. This compares to tax rates for the last few years as follows:

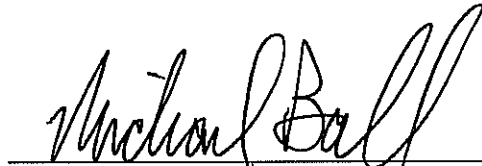

<u>2000-01</u>	<u>2001-02</u>	<u>2002-03</u>	<u>2003-04</u>	<u>2004-05</u>	<u>2005-06</u>	<u>2006-07</u>	<u>2007-08</u>
\$1.75	\$1.79	\$1.79	\$1.77	\$1.77	\$1.675	\$1.48	\$1.24105

Acknowledgments

We appreciate the continuing support of the College Station Independent School District Board of Trustees, and the Community, for continuing to make resources available to the District to facilitate the success of each student. Our pledge is to be good stewards of the resources entrusted to us as we develop, implement, and maintain excellent educational opportunities to meet the unique needs of all students of the College Station Independent School District.

Increase (Decrease) in Annual Taxes		\$161.54	

Please note that all residence values did not change from the prior year, or change by the average above. The average home value is influenced by the revaluation of existing homes, and the value of new homes constructed during the year. The taxable value of an individual home can only be determined by reviewing your appraisal notice or by contacting the Brazos County Appraisal District.

Under state law, the dollar amount of school taxes imposed on the residence homestead of a person 65 years of age or older or of the surviving spouse of such a person, if the surviving spouse was 55 years of age or older when the person died, may not be increased above the amount paid in the first year after the person turned 65, regardless of changes in tax rate or taxable value.

For homeowners over age 65, property taxes are frozen at the dollar amount they were in the year the homeowner first became eligible for the over age 65 exemption. In addition to the standard exemption noted above, over age 65 homeowners also receive an additional \$5,000 local and \$10,000 state over age 65 exemption. This means that unless new improvements are added to an over age 65 homestead, taxes will not increase due to revaluation or tax rate increases.

The average residence value in the District in 2008 was \$203,284. Average home value in 2007 was \$186,990. This represents an increase in the average value of 8.7138 percent.
