

Before & After School, and Early Release Day Educational Programs

- Before care programs are available starting 1 hour prior to the school day.
- After care or early release day programs are available immediately following school dismissal.

Our goal is to provide our students with a solid foundation of academics, character and faith to launch them on a path toward a self-sufficient, service-driven life as inspirations to their families and communities. Our programs form character and inspire growth in students' knowledge and skills.

A Full
and Lasting
Education

“

Compass has completely changed how we see ‘school’. We thought once our kids attended school we would be disconnected from them, always worrying if they were safe, but Compass has made our mindset change completely by providing communication, safety, positive learning and growing... I could go on and on. We are very grateful to have found such an amazing program.”
