

CHESTER A. ROUSH EDUCATIONAL HALL OF FAME

PURPOSE

In 1975, the Kettering Board of Education established the Chester A. Roush Educational Hall of Fame, to place in perpetuity, for remembrance and inspiration, those individuals who exemplify the life and career of distinguished educator, Chester A. Roush.

The Kettering City Schools and Kettering community are genuinely indebted to Mr. Roush for his legacy of exemplary service to the students, District employees and community at-large. To commemorate the high ideals that characterized his life and career, inductees will be selected who have distinguished themselves in their contribution to education in the Kettering City Schools. A maximum of three individuals will be honored each year.

CRITERIA

The Roush Hall of Fame Selection Committee will consider individuals (teachers, District staff, administrators, Board of Education members, and/or members of the community at-large) who have contributed to the pursuit of excellence in education within the District. Nominees should have retired from the Kettering City School District. The Selection Committee may choose to waive this criterion for Board of Education members and members of the Kettering community. Candidates may be nominated posthumously.
