

Hello Future 4th Graders!

I want to welcome you to 4th Grade for the year 2024-2025. My name is Mrs. Masi. I look forward to having each and every one of you next year. Buckle up...you're in for a GREAT ride! You are going to learn so much!

The reason for this letter is to let both student and parent/guardian know of some of the supplies you should have for a successful year. Your student will also greatly benefit from reading all summer. It keeps the "cobwebs" from forming. In addition, your student needs to know their basic math facts (addition, subtraction, multiplication, and division). Flash Cards work wonders! This is very important for them to memorize their basic facts in order to transition into 4th grade more easily.

See the attached for the supply list. You may bring any supplies you'd like in addition to this list. I will provide many items for you, but please feel free to bring your own. Also, keep your extra supplies for later in the year. We always run out by then. Any Expo-type markers are a *MUST*! I can't provide those, so please provide one to start the year with. Take advantage of the school supplies sales in July and August!

I can't wait to meet you all next year! Have a great summer and don't forget to READ!

Sincerely,
Mrs. Masi
