

Annotated Bibliography: Formatting and Structure

You will create an annotated bibliography 'entry' for each of your sources (do not include the interview).

Your entry will include the following:

1. APA Citation
2. Summarize (What were the main ideas/arguments presented?)
3. Assess (Is this a good source? Does the source have too much bias? Does it come from a credible, reliable source?)
4. Reflect (How will you use this in your paper?)

The combined length of your summary, assessment, and reflection for each source should be *no more than 5 sentences!*
