

Fall 2023

Dear Parent,

The Highland Lakes Recycling Club will meet on Fridays at 7:50-8:30 a.m. The members of the club will collect recyclables from bins around campus and take them to the large recycling bins behind the cafeteria. The students will be divided into groups that will be responsible for a part of campus ensuring that recycling bins are emptied and functional. Members will also be part of promoting recycling on campus through various activities.

Students that wish to become members need to be available every week to help with the weekly duties. Due to the physical demands of the club activities, participating students must be 4th – 8th grade. Please sign the lower portion of this paper and return it to Mrs. Schrade so your child has permission to participate.

Thanks for your support!
