All employees of the district shall be covered by workers compensation. Workers compensation coverage is provided for all employees regardless of assignment, length of assignment, and/or hours worked per day. Benefits are for personal injury from accident or industrial diseases arising out of and in the course of employment in the district.

The workers compensation plan will provide coverage for medical expenses and wages to the extent required by statute to those employees who qualify; however, the amount of workers compensation benefits and sick leave benefits shall not exceed a regular daily rate of pay. An employee using sick leave, or other available leave, in combination with workers compensation will be charged for one full or partial day of sick leave, as provided for in the sick leave policy or the negotiated agreement, for each day of absence until the employee's sick leave is exhausted.

Any employee who is off work and drawing workers compensation shall be required to provide the clerk of the board with a written doctor's release before the employee is allowed to return to work. In addition, should the employee be released to return to work by a doctor and fail to do so, all benefits under sick leave shall be ended and those benefits under workers compensation shall be restricted as provided by current statute.

**Safety Inspections**

The superintendent, building principals and/or maintenance personnel will regularly inspect each attendance center, playground and playground equipment, boilers, bleachers and other appropriate areas to see that they are adequately maintained. Written records of these inspections shall be maintained.

If repairs are necessary, the individual conducting the investigation shall immediately inform the building principal, superintendent or immediate supervisor in writing. Necessary steps either to repair or to remove the defect will be taken as soon as possible. Defects requiring expenditure of money in excess of \$20,000 will be reported to the board. A plan for emergency dismissal of students during the school day shall be developed by the superintendent and approved by the board. A copy shall be filed with the clerk, and procedures for dismissal shall be given to parents and students at the beginning of each school year.

School will not be dismissed early because of an emergency when the safety of students and teachers is better served by remaining at school.

During an emergency period when there is insufficient warning time, the district will keep all students under school jurisdiction and supervision. The staff shall remain on duty to supervise students during this time. Parents may come to school and pick up their children. Students shall be released according to board policy for release of students during the school day.

**School-Closing Announcements**

When the superintendent believes the safety of students is threatened by severe weather, health or safety concerns, or other circumstances, parents and students shall be notified of school closings or cancellations by announcements made over radio/TV station(s), (KOAM-TV/Fox 14, KODE-TV 12, KCTV 5, KKOW 96.9FM, KLKC 93.5FM, KGGF 690AM,).

**EBBE**

Building principals shall be responsible for scheduling and conducting emergency and safety drills as required by law and for ensuring students are instructed in the procedures to follow during the drills and in an actual emergency.

Each building principal shall develop a written plan for specific emergency drills required by law. The plan shall include specific arrangements for the evacuation of mobility impaired and other individuals who may need assistance from staff members to safely exit the building. Although plans for evacuation are essential, the state fire marshal may grant exemptions to the number or manner of drills required by law with regard to students receiving special education or related services, upon request.

Each principal shall conduct briefings with the staff concerning the emergency plan.

Each teacher shall explain relevant portions of the plan to students under their jurisdiction prior to a date established by the principal. Within one week thereafter, the building principal shall conduct a surprise drill. Other drills shall be held at times determined by the building principal.

The four fire drills and three crisis drills required by law may be scheduled at any time during the school year. However, the two tornado drills required shall be conducted in September and

March. All these drills

must be conducted by each school during school hours and cannot be made part of regular dismissal at the close of the school day.

# Copyright Regulations and "fair use" rules for educators.

## *Suggested Handbook Language*

In accordance with school board policy ECH, the following regulations will be observed to comply with the copyright laws of the United States.

Under the "fair use" doctrine, unauthorized reproduction of copyrighted materials is permissible for such purposes as criticism, comment, news reporting, teaching, scholarship or research. If duplicating or altering a product is to fall within the bounds of fair use, these four standards must be met for any of the purposes:

### The Purpose and Character of the Use

The use must be for such purposes as teaching or scholarship and must be nonprofit. Fair use would probably allow teachers acting on their own to copy small portions of work for the classroom but would not allow a school system or an institution to do so.

### The Nature of the Copyrighted Work

Copying portions of a news article may fall under fair use but not copying from a workbook designed for a course of study.

### The Amount and Substantiality of the Portion Used

Copying the whole of a work cannot be considered fair use; copying a small portion may be. At the same time, however, extracting a short sequence from a 16mm film may be far different from a short excerpt from a textbook, because two or three minutes out of a 20-minute film might be the very essence of that production and thus outside fair use. Under normal circumstances, extracting small amounts out of an entire work would be fair use, but a quantitative test alone does not suffice.

### The Effect of the Use Upon the Potential Market for or Value of the Copyrighted Work

If resulting economic loss to the copyright holder can be shown, even making a single copy of certain materials is an infringement, and making multiple copies can result in greater penalties.

### Prohibited Practice

No one may make multiple copies of a work for classroom use if it has already been copied for another class in the same institution; make multiple copies of a short poem, article, story, or essay from the same author more than once in a class term or make multiple copies from the same collective work or periodical issue more than three times a term; make multiple copies of works more than nine times in the same class term; make a copy of works to take the place of an anthology; and may not make a copy of "consumable" materials, such as workbooks.

### Permitted Practice

A teacher may make--for use in scholarly research, in teaching or in preparation for teaching a class--a single copy of the following: a chapter from a book; an article from a periodical or newspaper; a short story, short essay or short poem (whether or not from a collected work); a chart, graph, diagram, drawing, cartoons or picture from a book, periodical or newspaper; may make (for classroom use only and not to exceed one per student in a class) multiple copies of the following: a complete poem (if it has fewer than 250 words and is printed on not more than two pages), an excerpt from a prose work (if the excerpt has fewer than 1,000 words or 10 percent of the work, whichever is less) and one chart, graph, diagram, cartoon or picture per book or periodical.

A library may, for interlibrary-loan purposes, make up to six copies a year of a periodical published within the last five years, make up to six copies a year of small excerpts from longer works, make copies of unpublished works for purposes of preservation and security and make copies of out-of-print works that cannot be obtained at a fair price.

### Guidelines for Off-Air Recording of Broadcast

#### Programming for Education Purposes

A broadcast program may be recorded off-air simultaneously with broadcast transmission (including simultaneous cable retransmission) and retained for a period not to exceed the first 45 consecutive calendar days after date of recording. Upon conclusion of such retention period, all off-air recordings must be erased or destroyed immediately.

Off-air recordings may be used once by individual teachers in the course of relevant teaching activities and repeated once, only when instructional reinforcement is necessary, in classrooms and similar places devoted to instruction within a single building, cluster or campus, as well as in the homes of students receiving formalized home instruction, during the first 10 consecutive school days in the 45 calendar day retention period. "School days" are school session days--not counting weekends, holidays, vacations, examination periods or other scheduled interruptions--within the 45 calendar day retention period.

Off-air recordings may be made only at the request of and used by individual teachers and may not be regularly recorded in anticipation of requests. No broadcast program may be recorded off-air more than once at the request of the same teacher, regardless of the number of times the program may be broadcast.

A limited number of copies may be reproduced from each off-air recording to meet the legitimate needs of teachers under these guidelines. Each such additional copy shall be subject to all provisions governing the original recordings.

After the first 10 consecutive school days, off-air recordings may be used up to the end of the 45 calendar day retention period only for evaluation purposes by the teacher, i.e., to determine

whether or not to include the broad-cast program in the teaching curriculum. They may not be used for student exhibition or any other nonevaluation purpose without authorization.

Off-air recordings need not be used in their entirety, but the recorded programs may not be altered from their original content. Off-air recordings may not be physically or electronically combined or merged to constitute teaching anthologies or compilations.

All copies of off-air recordings must include the copyright notice on the broadcast programs as recorded.

#### Computer Software

District employees may make a back-up copy of computer programs as permitted by current Federal Law. Back-up copies may be used for archival purposes only and all archival copies shall be destroyed in the event that continued possession of the computer program should cease to be rightful.

When software is used on a disk-sharing system, efforts shall be made to secure this software from copying.

Illegal copies of copyrighted programs shall not be made or used on school equipment.

Approved by Board of Education: August 11, 2003

**ED Student Transportation Management (See JGG)**

**ED**

Use of buses by the district shall conform to current state law. At times it may be expedient to pay mileage to parents who transport their child to a specified point to meet the bus, or to provide private transportation in lieu of providing bus service. Mileage payments to parents may be made only with board approval.

Except as may be permitted elsewhere in policy, district buses shall not be available for use by outside groups. (See EDDA)

Approved: KASB Recommendation-7/96

**EDAA   School Vehicles (District-Owned Buses)**  
(See ED, JBCA, and JGG)

**EDAA**

School buses and other school vehicles will not be loaned, leased, or subcontracted to any person, groups of persons, or organizations except as allowed by law subject to board approval.

**Liability**

All school vehicles will be adequately insured.

**Safety**

For the purposes of this policy, "school transportation provider" is defined to include school bus drivers, school passenger vehicle drivers, and other school employees who may transport students.

Every school transportation provider shall have a valid driver's license. Such drivers shall have full authority and responsibility for the passengers riding in school vehicles.

Students or other persons riding in school buses or school vehicles who violate district policy or bus and/or school vehicle rules will be reported to the proper administrative official. Violations of these policies and/or rules may result in disciplinary action by school officials or reports to law enforcement as appropriate.

**Speed Limits**

The board may set speed limits for district vehicles, which may be lower than state-allowed maximum speed limits.

**Safety Inspection**

The superintendent shall be responsible for bus and other transportation inspections.

Defects found in school vehicles shall be repaired as soon as possible. The director of transportation shall be responsible for keeping school vehicles in good operating condition.

**Scheduling and Routing**

Scheduling and routing shall be the responsibility of the superintendent or the superintendent's designee.

Bus and transportation schedules and routing maps will be updated annually prior to the start of school.

**Records**

Every school transportation provider will keep accurate records pertaining to each assigned vehicle. The types of records shall be developed by the superintendent.

Any record developed by the administration for the purpose of monitoring vehicle use will include, but may not be limited to, the following information: miles driven each trip, gas and oil usage, purpose of the trip, destination, time of departure, and time of return. Such records will be signed by each driver at the conclusion of each trip and submitted to the person responsible for collection of these records. An annual summary report will be used in the compilation of the district's budget. A copy of the annual report may be given to the board on or before the regular board meeting in June or upon request.

**Licensing of Drivers**

It shall be the responsibility of all school transportation providers to register with the superintendent annually the validity of license certification by the Kansas Department of Revenue. If a school transportation provider's license

**Transportation to Summer Athletic Events**

The board authorizes the superintendent to approve the use of school buses or other school vehicles in transporting district students to summer athletic activities such as, but not limited to, camps, 7-on-7, and summer league games.

Any staff requests for such use shall be submitted to the superintendent on or before June 1st and shall include information concerning the time, date, and duration of trip; the purpose of the transportation; the projected number of students requiring transportation for such event; the type of bus(es) or vehicle(s) requested; which district staff member(s) will be accompanying the student(s) on such trips; and whether or not additional school transportation providers would be required to provide such transport.

The superintendent may grant or deny such requests after taking into consideration the following factors: 1) the expense of providing requested transport; 2) the availability of funds for such purpose; 3) the availability of adequate school staff to chaperone and/or provide transportation; 4) the availability of and/or the coverage of liability insurance for this purpose; 5) priority of assignment and availability of necessary vehicles; 6) Title IX and other fairness considerations in granting use or repeated use to a particular group of student athletes; and 7) other good cause as determined by the superintendent.
