Graduate Profiles

Congratulations

Christina Marie Akers

Discovery helped me graduate I will be going to Olympic college this fall. Thank you to mom and Susan for helping me graduate.

Andrew Amado

Discovery has helped me graduate with their friendly faces, kind attitude, and welcoming environment. Of all the schooling I have received, never has a school been more consistently accepting and open to all walks of life. I was able to start a meditation room on the Discovery campus, to help students overcome inner struggle with solitude and mindfulness. One of the things I found to be extremely helpful was the tutoring and resources available to students. Ms. Kim Silke is the reason I can graduate this year and I owe her all my thanks. I hope to one day return to this campus to show how support can benefit and change someone's life for the better.

Christina Applegate

My name is Christina Applegate. I am grateful to have a supportive family that loves me unconditionally and always encourages me to strive for my dreams. God has blessed me throughout my life, and I know that whatever life holds for me I will always have him to guide me. I plan to work at the shipyard where I will work hard to have a successful career. Discovery has helped me learn that life can be unpredictable, but it is important to never give up!

Kaitlin Ayers

Before coming to Discovery, I was just a girl. Now I'm a girl with purpose! Discovery has given me my metaphorical wings that I need to soar; I've found confidence, leadership, self-discipline, optimism, and authenticity among my peers that has changed my life. I'm proud to have been a student here along with a leader for others, something I learned from Morton's leadership class. I've found confidence in advisory along with authenticity. The traits and skills I've learned here will stay with me for life and I plan to take them with me to college and future jobs (hopefully forensic scientist) or maybe my love for sharks and calico critters will take me somewhere. Thank you, Discovery for giving me purpose and accepting me with open arms. Thank you to an amazing Advisor, D-Rod.

Jayden Baldwin

Discovery helped me finish school, finally! After years of not wanting to graduate and after spending time in four mental hospitals and a treatment center, I can finally graduate and go on with life. When I leave here, I'm going to college for graphic design and trade school for welding. My goal is to create my own business making scooter parts and designing a clothing line that highlights and educates people on human tragedies in history. I then plan on traveling the world and finding a girlfriend or wife and dying happily and peacefully. Thank you for taking a chance on me and giving me an opportunity to succeed. I love you all.

Logain Balkenende

Discovery has made school a place I want to attend. It has changed my perspective on what a school should be. My current goal is to move up within my job, and my future goal is to just be able to figure out what I want to do in life. I currently work at Safeway as a Courtesy Clerk.

Jacqueline Benson

I'm going to school to be a nurse. Discovery has helped me graduate, without all the teachers at Discovery, I would be a super senior. Thank you!

Anthony Berrios

After I graduate, I plan to go to a trade school in Wyoming. The trade school focuses on auto tech, engines, suspension, auto electrical parts. I hope to learn and gain experience while I'm there so I can install some aftermarket upgrades with cars while working in a high-performance auto shop.

Fyn Boyle-Aurness

Before coming to Discovery my academics and mental health were in a poor state. Since then, with the help of my advisor Ms. Parminder, I was able to not only get back on track but also begin the process of my healing journey. My goal for the future is to attend college abroad and major in psychology and sociology.

Quote "Golf is bourgeois and disgusting. Mini golf is the sport of the proletariat." - Ian Kochinski

Kaileylynne Bradley

Hello, my name is Kaileylynne Bradley and I'm graduating from Discovery High School. Discovery gave me a second, maybe even a third chance to redirect my education and overall give me control of my academic achievements. Without Michele I would not be graduating. I am forever grateful for her and her consistency. Thank you, Discovery High School and this amazing team. I plan to join the United States Airforce and pursue medicine while serving.

Nadiya Branigan

I am proud to say that I made it to graduation. Thank you to Discovery and all my teachers for getting me on path. Congrats class of 2024!

Caitlin Brown

I am grateful to all the opportunities provided by Discovery High School to support my graduation.

Peter Carrion

I honestly hate school with a burning passion but the only reason I got through it is because of my mom pushing me to do better and my advisor Parminder helping me throughout. She made it so much less stressful and even helped me find a way to graduate on time, which was my main concern and goal. As for my future, I will apply to a trade school in California and hope for the best.

Sophia Chico

Many doors have opened for me from attending Discovery and showed me it's never too late. Thank you to all the teachers and staff at Discovery. Thank you to my family for pushing me to achieve one of the greatest achievements in life as a young adult.

Alexander Cisneros

Discovery has helped gain the credits I needed to graduate high school. My goals and plans after high school are working for the Washington state ferry and to travel. I currently work at Taco Del Mar

Nicholas Colt

I am grateful to all the opportunities provided by Discovery High School to support my graduation.

Thomas Creel

I am Thomas Creel and I'm a 17-year-old senior and I'm going to be graduating with my class of 2024. Discovery has helped me more than just graduate but taught me to be practical and environmentally friendly. I was a junior with eight credits at South Kitsap High. Most of my grades were F's and the only classes I'd pass were the ones that were hands and genuinely got my attention. Discovery is not only hands on, but the faculty is overwhelmingly helpful. Discovery got me from a junior with eight credits to a graduating senior. It took hard work and effort for me to reach this destination. I am beyond grateful and blessed by my family and friends. My current plans are to go to college and have a job to pay for it or join the National Guard and take advantage of the free college. I play guitar and I'm interested in musical theory. I'm interested in investing and finances. I'm a patriot and a firm believer of democracy.

Leah Dobbelaere

I am so grateful to everyone at Discovery High School, especially Ms. Parminder for working with me so patiently. I am excited that I have achieved this milestone and am ready to move forward in achieving my life goals.

Preston Doss

I am grateful to all the opportunities provided by Discovery High School to support my graduation.

Debby Ehrhardt

My name is Debby Ehrhardt, I've been attending Discovery High School for the last three years. Prior to Discovery, I was struggling to make it through school. I was constantly failing my classes and falling behind. However, thanks to the amazingly supportive people who teach there, I was able to pass my classes, get my work done and obtain my diploma without breaking a sweat. I can't thank Discovery enough for how they have allowed me to find my place among others, as well as help me throughout my journey as a student. I'm not sure where my future is headed after my diploma, but regardless I'll keep moving forward.

Nevaeh Fillhart

I've had some amazing experiences at Discovery. I met some great new people and spent time with others I already knew. Discovery gave me a second chance. I want to thank my amazing advisor and all teachers. I'll never forget my time and the people here. Might come back and visit.

Natalie Gwinner

Discovery helped motivate me to finish school. I was able to complete early because they supported me and adapted their instruction to suit my learning style. I'm happy to say I was always treated with care and respect. I developed meaningful relationships with all my teachers and am grateful to have had the opportunity to attend Discovery. Thank you, Discovery, for your time and care. Soon, I will be finishing my associate degree and planning on applying to a four-year university for engineering.

Daniel Hale

Sometimes, you have a dream inside a dream, and you don't quite know how to escape it. However, somewhere in there is that modicum of reality that one needs to face. That reality was Discovery High School. I was able to fulfill my dream and now I step into the real world to live it. Thank you to all teachers and my advisor for making this dream become reality.

Travis Harrington

Discovery has let me have a full-time job while working toward obtaining my diploma. I want to thank Aurelia and Nora for helping me achieve this milestone. I plan on continuing my work after graduation. Work now, play later.

Venita Haslip

My time at Discovery was amazing. It's welcoming and the staff are nice and very down to earth. I'm going to miss Discovery since it's the only school I enjoyed attending. Once I graduate, I hope to move to the next step in my makeup artistry journey. A little about myself; love going to the Chuck, the Arctic Monkeys, my cats, and Juicy couture.

Discovery Alternative High School teachers and staff have helped me the most when I needed them. When I first came to Discovery, I felt I wouldn't enjoy it here and not being able to adapt to the big change of moving from the main high school. But everyone welcomed me with open arms and kindness and from then I just enjoyed being treated like an adult and having freedom of certain things you can do here unlike the main high school. Zoey Nix

Discovery has done a lot for me while I was here and it all because of the teachers and staff. If it wasn't for Ms. Parminder, I would still be behind and probably looking to earn my G.E.D. She is the most kind and caring teacher I have ever had, she genuinely cares for her students. She made me feel like I could achieve anything I set my mind to. My current plans are to continue working and plan about what college to go attend later.

I am so glad I went to Discovery. I have struggled with school from the beginning. I suffered from a speech disorder and needed therapy. I really struggled at Cedar Middle and South Kitsap High as the classes were too big and I was uncomfortable. Discovery allowed me to have the smaller classes with more one on one instruction. I thrived with the one-on-one connection with my instructors. Discovery is the reason I can graduate and become a Marine. I hope to serve for four plus years and possibly join the Forest Service afterwards.

Megan White

I am grateful to all the opportunities provided by Discovery High School to support my graduation.

Danyelle Wilcox

I honestly didn't think this day would come. My junior year I dropped out of Discovery, I was struggling with mental health and was failing classes. I made the decision to drop out. I worked on my mental health and bettered myself. Last April I got an unexpected phone call from Discovery telling me of a program that would allow me to come back to school and to get my high school diploma and finally graduate. I'm 20 years old, with two kids and I finally get to walk across the stage! I did what my younger self could not do. Discovery helped me to get here, and I would not be a high school graduate if it wasn't for the staff and teachers here, and my support system at home.

Believe in Yourself

**Believe in yourself and in your dream
However impossible things may seem.
Someday, somehow, you'll get through**

To the goal you have in view.

**Mountains fall and seas divide
Before the one who in his stride
Takes a hard road day by day,
Sweeping obstacles away.**

Believe in yourself and in your plan,

Say not - I cannot - but, I can.

**The prizes of life we fail to win
Because we doubt the power within.**
