College Station High School

- Project is still in budget and still on schedule for completion in June 2012.
- Masonry work continues on the academic wing with the continued installation of the dark gray glazed structural units at the main entry.
- Ceramic tile installation is progressing well through the athletics areas in the restroom and shower locations.
- Stainless steel kitchen equipment installation is still ongoing in the CATE and Kitchen areas and is about 45% complete.
- Exterior concrete paving is still being poured in place along the back elevation of the main building along the bus drive and staff parking areas
- Metal stud wall and sheetrock installation is now 95% complete in the academic wing.
- The project has surpassed **79% completion.**

College Station High School

- This is a view of the City of College Station's Victoria Avenue extension project.
- They are making good progress getting Victoria tied in to SH 40.
- The CSHS Tennis building is the red brick building on the right.

College Station High School

- This is a view of the front elevation, east end as the roofing, masonry, and glazing are still pushing forward.

College Station High School

- This is a view of the ceiling cloud sections in the auditorium after painting is complete and light fixtures installed.

College Station High School

- This is a view of the east end of the academic wing as window wall framing is nearly complete and glass installation is ready to commence.

College Station High School

- This is one of the open computer labs on the second floor of the academic wing.
- With sheetrock installation nearly complete, this area of the building is ready for texture on the walls and paint.

College Station High School

- This is a view of the baseball field after the installation of the turf has been completed.

College Station High School

- This is a view of the interior of the Ag Lab/Classroom.
- Walls have been painted and ceiling grids installed.
