Ceramics Portfolio

Course Description:
Students in Ceramics Portfolio will create a body of work by exploring a central theme or idea visually. Finished work will be documented and stored in a digital file for review. This course is aligned with Arizona College and Career Ready Standards and/or national content standards and supports school-wide efforts to increase student achievement.

Course Objectives:
By the time the student completes this course of study, the student will:

- Plan personal artwork building off of a theme or idea
- Develop ideas into completed ceramic pieces.
- Analyze and critique finished work.
- Photograph and assemble a digital folder/portfolio

Classroom Rules and Consequences:
It is imperative that all students follow the guidelines illustrated in the student handbook. Ceramic studio safe practices are expected of all students. Choosing to defy any of the campus, classroom policies or refusal to follow a reasonable request will result initially in a verbal discussion. If behavior persists then parent contact will be made to find a solution. Continued defiance can result in a referral and possible removal from class.

AI Statement

In Deer Valley Unified School District, we are committed to providing our students with the best possible education while ensuring their safety, privacy, and well-being. As part of our ongoing efforts to enhance learning experiences, we may incorporate the use of Artificial Intelligence (AI) in the classroom for students. However, it is important to approach this technology with caution and adhere to responsible data privacy practices.

DVUSD has determined that the use of Large Language Models (LLMs), such as ChatGPT, is prohibited unless clearly specified by your teacher. Specific guidelines will be provided in the assignment details. If you are unsure if the tool or website you are using is an LLM or if it is permitted on a specific assignment, please contact your teacher before submitting your work.

Daily Device Use (iPads)

Students should come to school with their iPads charged and ready to use in each class every day. Devices may not be used to record or take photos of other people without their consent. Consequences for classroom disruptions and misuse of devices will follow a progressive discipline model, beginning with a phone call home and progressing to office referrals for repeated or more serious offenses. See the Student Rights and Responsibilities consequence chart in the handbook for more specific descriptions of infractions and consequences.
