

## AP Econ Summer Work Instructions

Hello Seniors!

I know you just completing your junior year, but I wanted to start preparing you for our AP class starting this coming August. I will be providing instructions and resources for the summer work, which must be completed by the beginning of the school year in order for you to continue in the class at the start of the new school year.

You will need a notebook for the school year, which you will take handwritten notes in for each chapter/unit of the textbook. This will normally be done at home to ensure you are completing the reading and taking notes, of course, and I will grade it in class. You are also encouraged to add to your notes during lecture/discussion in class.

- Please only get a notebook for this class. Read and complete notes for the first Unit, which I will grade on the second day of school (we will do introductions on the first day). I will provide you with a PDF of Unit 1 (1.1-1.6) since you cannot access the book yet. (Be prepared for an assessment the first week of school)
- Review the attached documents and familiarize yourself with their content so we can work with them at the beginning of the year. I am attaching PDFs with the main ideas, visuals, and practice questions to prepare you. The homework packet will eventually be due when we return to school, but for now, it will be a study tool for you all.
- I will show Mr. Clifford and some Crash Course Economics videos throughout the course, not every single one. So, please watch the first introduction video, and I will incorporate others during class time: [Introduction: Economics](#).

Let me know if you have any questions and how I can support you. I look forward to our year together; enjoy your summer.

Best,  
Ms. Rodriguez
