Blind Brook – Winter Break Message 2024

Dear Members of the Blind Brook Community,

This winter is proving to be truly unpredictable! A few weeks after the groundhogs predicted an early spring we had the biggest snowfall in recent history! I hope that you had some time to enjoy the snow day.

It is remarkable to think that we are already in the middle of February. So much great work has gone on this year with students of all ages making amazing achievements in all areas. I am so proud of the work that our students and teachers are doing!

Next week is the official recognition of our past presidents and the impactful work that they did to make our nation great. Looking back on the monumental work that these individuals did is an inspiration to our current students to be agents of change and take an active role in our society. Many students already have taken on leadership roles both in their schools and in their community. They will no doubt continue to make a difference in the world.

I wish you all a happy Winter Break! Safe travels to those who will be on the move next week.

Sincerely,

Dr. Colin M. Byrne
Superintendent of Schools
