## **Update – Fire Truck Access Road**

Dear Members of the Blind Brook Community,

The pouring of the concrete borders for the renovated blacktop area behind the Bruno M. Ponterio Ridge Street School was completed last week. The laying of the asphalt is scheduled to be done this coming Wednesday and Thursday. We will do what we can to allow students access to outdoor recess while also maintaining safety. Assuming the weather cooperates, all work should be completed this week.

I have reached out to our New York State building inspector to set up a review of the work in the coming weeks. I am shooting to have all work towards the full Certificate of Occupation for the building by the end of September.

I will keep you informed of our progress as things move along.

Sincerely,

Dr. Colin M. Byrne  
Superintendent of Schools
