* Jake Crawford

* Meghan Marshall

* Josh Jacobs

* Jacey Pokorny

* Tim Meeker

* Dustin Snider

Stockbridge Valley Central School District Mission Statement

The mission of the Stockbridge Valley Central School District is the education of all of its students, including but not limited to, the areas of intellectual, social, physical, and psychological growth.

The purpose of this education is to give each student the skills, knowledge, understandings of relationships, ability to analyze and solve problems, and guidance in moral, social, and ethical behavior necessary to become an independent being, able to function in an ever increasingly complex global and technological society.

In pursuing this endeavor, the members of the Stockbridge Valley Central School District and its community will strive to mold a society in the image that it wishes to be, rather than accepting it as it is.

GRADUATION 2013 GRADUATION 2013 GRADUATION 2013

American Red Cross High School Award

This Scholarship Award is given to a reliable senior volunteer who has shown support for the American Red Cross and who has displayed an obvious passion for the mission of the Red Cross and getting aid to those that need it both in this country and around the world.

National FFA Scholarship – Tractor Supply Growing Scholars

The Tractor Supply Growing Scholar's scholarship, awarded through the National FFA Foundation is a \$1,000 scholarship given to FFA members based on their leadership and FFA involvement throughout their high school years. Tractor Supply Company started the award this year. Funds were raised through the sale of paper emblems at Tractor Supply stores across the nation during National FFA Week in February. Enough funds were raised across New York State to honor nineteen seniors with scholarships. We are please to have three of those recipients at Stockbridge Valley.

These scholarships are presented to the students of each graduating class based on overall academic performance in high school, as well as SAT scores. These scholarships are sent directly to the colleges where the students are enrolled for next year and are contingent on NYS state budget funds.

* Timothy Meeker
* Matthew Papa

New York State Assembly Citizenship Award

This award honors two outstanding students, a young man and young woman, who, through their service to their school and their community, best exhibit the qualities of citizenship.

* Peter Oot
* Jacey Pokorny

Nicholas W. Gorsch Memorial Scholarship

This award was established by Nick's family & friends to be given to a graduating Senior pursuing higher education in the fields of English, Psychology, or History. Nick Gorsch was a 1992 graduate of VVS who embarked on a non-traditional path to his college education. Nick finished one year of college before deciding he would enter the work force full-time. Ten years after his high school graduation, he recognized the value of an education and returned to college working tirelessly until he earned his Bachelor's degree in Psychology with President & Dean's List honors. He accomplished all this while holding a full-time job in human services and the dream of one day starting work on his Master's degree. As Nick naturally gravitated toward mentoring young people, he believed that the potential of every young person could be realized with just a kind word of encouragement and a helping hand. In an effort to perpetuate his educational dreams, this award is given to an SVCS graduate who embodies Nick's best qualities. Nick was a long-time resident of the Munnsville area and former member of the Munnsville Volunteer Fire Department.

* Meriah Beauvais

Oneida Healthcare Foundation Award

The Oneida Healthcare Center Foundation recognizes the increasing need for healthcare professionals and especially nurses in our rural community. The foundation would like to encourage area high school seniors who exhibit academic and personal potential to consider further education in the allied health professions. This award is presented to a senior with above average academic standing and is a contributing participant in extracurricular activities. He or she must be accepted into a two to five year undergraduate nursing or allied health program.

* Peter Oot

Oneida Savings Bank

This award is for a graduating senior who has demonstrated scholastic excellence and will be pursuing a two or four year degree, majoring in finance or business.

- * Justiss Usborne

Otis & May Marshall Farms Memorial Award

This award is given to a senior boy and girl exhibiting good citizenship and scholarship.

- * Carolynn Werthman
- * Jacob Crawford

The Patricia March Whitford Award

This award is given in recognition of a student who has excelled in the field of child development.

- * Marisha Burton

Pohl's Feedway Award

This award is given to seniors from farm families who will be studying at an institution of higher learning leading to a two or four year degree. This award is funded by Pohl's Feedway of Vernon.

- * Tim Meeker
- * Josh Jacobs

Ruritan Agricultural Award

This award is for the senior who achieved the highest class average and completed four years of high school agricultural education.

- * Timothy Meeker

Ruritan Appreciation Award

The Stockbridge Valley Ruritan Appreciation Award is awarded to the graduate who has demonstrated outstanding goodwill and community service during the annual Community Fair. The honoree was selected for coordinating activities for the children of the community at the fair. His leadership abilities of making arrangements and conducting activities was an excellent representation of outstanding goodwill and community service.

- * Dustin Snider

Ruritan Community Service Award

This award is given to seniors who exemplify the Ruritan ideals of fellowship, citizenship, goodwill and community service.

- * Jacey Pokorny
- * Peter Oot
- * Josh Jacobs
- * Alyson Wilson

Science Club Awards

These awards are given to graduating seniors who have been active and contributing members of the Stockbridge Valley Science Club.

- * Kyle Beam
- * Justiss Usborne
- * Meriah Beauvais
- * Carolynn Werthman
- * Peter Oot

Scott Higgins Memorial Physics Award

Scott Higgins was an exceptional young man and was very well liked by the students and staff at Stockbridge Valley. Scott excelled in science and aspired to become a science teacher. He loved to skateboard but still maintained an average of 97 in Regents Physics. This award is given in Scott's memory to the graduating senior with the highest final average in Regents Physics. This award is funded by Mr. and Mrs. Richard Snider.

- * Timothy Meeker

Spanish Awards

This award is for seniors who have done an outstanding job in Spanish in high school.

- * Peter Oot
- * Matthew Papa
- * Justiss Usborne

State of New York- Attorney General Triple "C" Award

This award recognizes two seniors for tremendous Commitment to bettering themselves, school and their community. Their strength of character has helped them to achieve their goals and will guide them in making the right decisions in the future. Their remarkable courage will aid them in meeting all of the challenges ahead.

- * Cody Collins
- * Clarissa Egelston

- * Carolynn Werthman
- * Samantha Yates

Stockbridge Valley CSD Business Office Leadership Award

This award was established in the "Spirit of Giving to Others"; it is intended for a graduating senior who exemplifies strong work ethics, demonstrated service to others, volunteerism and also a commitment to higher education. This award is funded by Kelly Johnson and Neil and Beth Lamb.

- * Justiss Osborne

SVCS Guidance Office Trailblazer Award

This award is presented to two seniors who have never stopped marching to the beat of their own drum. They have always had a positive outlook on situations even when things were difficult. They captured our attention through their free spirit and outgoing personalities. It has not always been about getting straight A's throughout high school, but about showing their growth and commitment in reaching their personal and academic goals. This award is funded by Mrs. Cameron and Mrs. Wagner in the SVCS Guidance Office.

- * Shiel Lamb
- * Gabrielle Panzone

Syracuse University Project Advance Award of Recognition

Syracuse University would like to officially recognize those seniors who have registered and completed an SU course taught at Stockbridge Valley during the 2012-2013 School year.

- * Carolynn Werthman

Thomas Bennett Memorial Award

This award is presented in memory of Thomas B. Bennett, a long-time community baseball coach who exhibited a desire to succeed despite difficult circumstances. This award was initiated for a college bound senior and was designed to honor the "Spirit of Adventure" attitude of Mr. Bennett and the ability to succeed, regardless of the obstacles or barriers one may encounter while being an inspiration to others.

- * Samantha Yates

SCHOOL NEWS SCHOOL NEWS SCHOOL NEWS

Students Raise Funds for Oklahoma

The Oklahoma tornado earlier this spring deeply affected all of us. 5th grader, *Elizabeth Wagner*, and 6th grader, *Barbara Guinto*, decided to help out. After much brainstorming about ways to raise money, they agreed upon holding a hat day. All students in grades kindergarten through sixth were invited to pay \$1.⁰⁰ to wear their favorite hat for the day. In addition, they worked in combination with the PTSO to raise funds. The PTSO very generously donated the proceeds from the Dessert Raffle at the annual Spring Social to this cause. In exchange, Barbara and

Elizabeth both donated a dessert of their own and worked the entire evening. Altogether, these girls raised over **\$200.⁰⁰** This money will be donated to The American Red Cross in the hopes that we can help many people.

Junior Prom

The Junior Prom was a wonderful evening for all who attended. Congratulations to the Prom Court.

From left to right: Alonzo Byron, Dana Smith, Jon Smith, Cassie Marshall, Joey Anderson, Hailey Jacobs, Prom Prince - Troy Posloski, Princess - Nicole Jacobs, Queen - Dhia DeGroat, King - Nathan Durant

Madison County Retired Teachers' Association Scholarship

For the 5th year, the Madison County Retired Teachers' Association is offering a \$250 scholarship to a college Junior planning a teaching career. Applications are available through Mrs. Cameron in the Guidance Office: 495-4450 or ccameron@stockbridgevalley.org. Application deadline is November 1st, 2013.

son/daughter has accomplishments to share and we will be
sure to add them to the list for the next newsletter.*

Non-Academic Factors that Affect Student Success

Environmental Factors

- Family Supportive of the student attending college
- Family has acknowledged the shift in their son or daughter's life from high school student to college student
- Family understands that their role in their son's or daughter's life has changed
- Family financial difficulties
- Student contributes to family's household income
- Death of a parent or close friend

Personal Factors

- Declared or undeclared major
- Motivation
- Self-esteem
- Time management skills
- Problem-solving skills
- Learning abilities
- Introvert or extrovert
- Ability to accept failure
- Ability to develop effective, college-level relationships with professors, coaches, staff, etc.
- Communication skills
- Conflict resolution skills
- Ability to manage stress
- Ability to balance cocurricular involvement with academics
- Student-athlete, did not make the team or is injured
- Realization that students may change as a result of their college experience
- An appreciation for this unique opportunity
- On going communication w/home, etc.

2013 Yearbooks Are Available

Hard cover 2013 yearbooks are still available for \$55,
elementary yearbooks for \$12. Please stop in the District
Office or call 495-4400.

Spotlight on the Common Core State Standards

What do Parents need to know?

What are the Common Core State Standards?

The Common Core State Standards (CCSS) are a coherent progression of learning expectations in English language arts and mathematics designed to prepare K–12 students for college and career success. The CCSS communicate what is expected of students at each grade level, putting students, parents, teachers, and school administrators on the same page, working toward shared goals. While most states already have English language arts and mathematics standards in place, they vary widely from state to state in their coverage and level of rigor.

How were the standards developed?

The CCSS effort was launched in June 2009, through a partnership of the Council of Chief State School Officers and the National Governors Association working together with parents, teachers, school administrators, and experts from across the country. National and international research, evidence, and standards - including standards from countries that are often recognized for high-quality education—informed development of the CCSS. After public comment, the final version of the CCSS was released in June 2010.

What are the benefits for parents of common standards?

- A common set of standards ensures that all students, no matter where they live, will be focused on graduating from high school prepared for postsecondary education and careers. In an increasingly mobile society, families with children transferring to new schools will not have to adjust to new learning expectations. Standards will be the same for all students in states adopting the CCSS, making transitions smoother for students.
- In a competitive global economy, all students must compete with not only American peers in other states, but with students from around the world. The CCSS were designed to prepare students to succeed in this environment.
- Common standards will facilitate conversation among parents, teachers, and children about high-level academic learning goals. Because common standards define exactly what students should know and be able to do at each grade level, they will help parents hold their schools accountable for teaching students in ways that support learning of the important content and skills defined by the CCSS.

- With adoption of the CCSS, states and districts can share experiences, methods of assessment, teaching practices, instructional materials, and approaches to helping parents support and reinforce learning at home.

How will the standards be assessed?

Two consortia of states – the SMARTER Balanced Assessment Consortium and the Partnership for the Assessment of Readiness for College and Careers - have been awarded federal funding to develop an assessment system aligned with the CCSS. Different types of assessments to measure students' progress during and at the end of the school year will be designed for students in grades 3 - 12. These assessments will be used by states adopting the CCSS beginning in the 2014 - 2015 school year.

When will the CCSS be implemented?

Many states have already adopted the CCSS. A few others are in the process of doing so. Several states have posted a comparison of their current state standards against the CCSS on their websites. States are also in the process of looking at how and when to introduce the new standards. Plans may include training for school and district staff, communicating with interested people (e.g., community members, parents, and students), and transitioning from existing to new assessment systems.

For more about the Common Core State Standards, visit <http://educationnorthwest.org/common-core/>.

What Can Parents Do To Prepare for the CCSS?

Has your state adopted, or is it planning to adopt, the CCSS? If it is, you can do the following:

- Create a study group with other parents, community members, or school staff to examine the new standards. Discuss your initial impressions or concerns about the standards, how they differ from your existing state standards, and learn how the school or district will prepare for implementation.
- Through your involvement on the site council, parent-teacher association, or other committee, ask your school administrators and teachers how they will prepare to teach to the standards and how they will measure student progress toward meeting the standards. Ask how parents and community members can provide regular feedback and support teaching and learning of the standards.
- Attend school board meetings and ask whether policies will be developed to support schools in this work.

COMMON CORE COMMON CORE COMMON CORE

- Talk with business and community leaders about the need for high goals and clear expectations for our children's education.
- Talk to your children about the importance of graduating from high school ready for college and career success. Discuss how the standards will be used to guide teaching and learning from kindergarten through high school.

The Common Core State Standards:

- Are aligned with college and work expectations;
- Are clear, understandable, and consistent;
- Include rigorous content and application of knowledge through high-order skills;
- Build on strengths and lessons of current state standards;
- Are informed by other top-performing countries, so that all students are prepared to succeed in a global economy and society; and
- Are evidence-based.

A series published by Education Northwest to keep regional stakeholders informed about the Common Core initiative

Example Standard for Literacy in Ninth Grade History

Compare and contrast findings presented in a text to those from other sources, noting when the findings support or contradict previous explanations or accounts.

The Common Core State Standards (CCSS) for English language arts include standards for use in English language arts courses, as well as literacy standards in history/social studies, science, and technical subjects. The standards for English language arts describe expertise that students will develop in the areas of reading, writing, speaking and listening, and language. The standards also describe how students use and strengthen these skills - particularly reading and writing - in other subjects at their grade level.

Let's look at how a grade 9 student might learn reading and writing in history. A sample ninth-grade standard for literacy is shown in the box below. A typical assignment tied to this standard might be:

Select a case that is scheduled to come before the United States Supreme Court. Use the text of the U.S. Constitution and at least two other sources to support two decisions the court could make: one arguing for the case and the other against it. Support your arguments using the information you gathered.

This type of assignment requires a student to define an issue, research it in an unbiased way, read carefully, and

compare and contrast elements of the issue. In the age of the Internet, students must learn about trustworthy and reliable sources, the difference between an opinion and a fact, and how to verify statements made with additional sources of information. Then, students must be able to write about the issue, their conclusions, and the supporting evidence in a convincing manner.

Key Features of the Standards

Reading: Text complexity and growth of comprehension.

The reading standards place equal emphasis on the sophistication of what students read and the skill with which they read.

Writing: Text types, responding to reading, and research

The writing standards acknowledge the fact that while some writing skills (e.g., the ability to plan, revise, edit, and publish) apply to many types of writing, other skills relate to specific types of writing: arguments, informative/explanatory texts, and narratives.

Speaking and listening: Flexible communication and collaboration.

The speaking and listening standards require students to develop a range of broadly useful oral communication and interpersonal skills, not just skills needed for formal presentations.

Language: Conventions (grammar), effective use, and vocabulary.

The language standards include the essential "rules" of standard written and spoken English, but they also look at language as a matter of craft and making choices.

Standards for:

- English Language Arts
- Literacy in History/Social Studies, Science, and Technical Subjects

Example Standard for Literacy in Ninth-Grade History

Compare and contrast findings presented in a text to those from other sources, noting when the findings support or contradict previous explanations or accounts.

Standards for:

Mathematical Practice

1. Make sense of problems & persevere in solving them.
2. Reason abstractly and quantitatively.
3. Construct viable arguments & critique the reasoning of others.
4. Model with mathematics.
5. Use appropriate tools strategically.
6. Attend to precision.
7. Look for & make use of structure.
8. Look for & express regularity in repeated reasoning.

COMMON CORE COMMON CORE COMMON CORE

The Common Core State Standards (CCSS) for mathematics include two types of standards: one for mathematical practice (how students are able to apply and extend math principles) and one for mathematical content (what students know about math). The two are linked together while students are learning.

The Standards for Mathematical Practice are listed at the end of this section. Let's look at how a student might learn to "model with mathematics" (Practice Standard 4). This means students can use the math they know to solve problems they encounter every day. For a fifth-grade student, the following sample problems might be used to see whether he or she can model mathematical content that relates to dividing fractions.

Students understand division with whole numbers from previous grades. Problems 1 and 3 review this understanding, and then extend the same thinking in problems 2 and 4 to divide a unit fraction (e.g., $\frac{1}{2}$), by a whole number or vice versa.

1. (Division using whole numbers): Louis has 10 chocolate bars. He wants to share them fairly with his four friends and himself. How many chocolate bars will each person get? ($10 \div 5 = ?$)
(Think: Divide 10 into 5 equal shares.)
2. (Division of a unit fraction by a whole number): The Jonas family has half of a large pizza. There are three people in the family. They want equal shares of the pizza.

Standards for:

Mathematical Practice and Mathematical Content

Example Standard for Fifth-Grade Mathematics

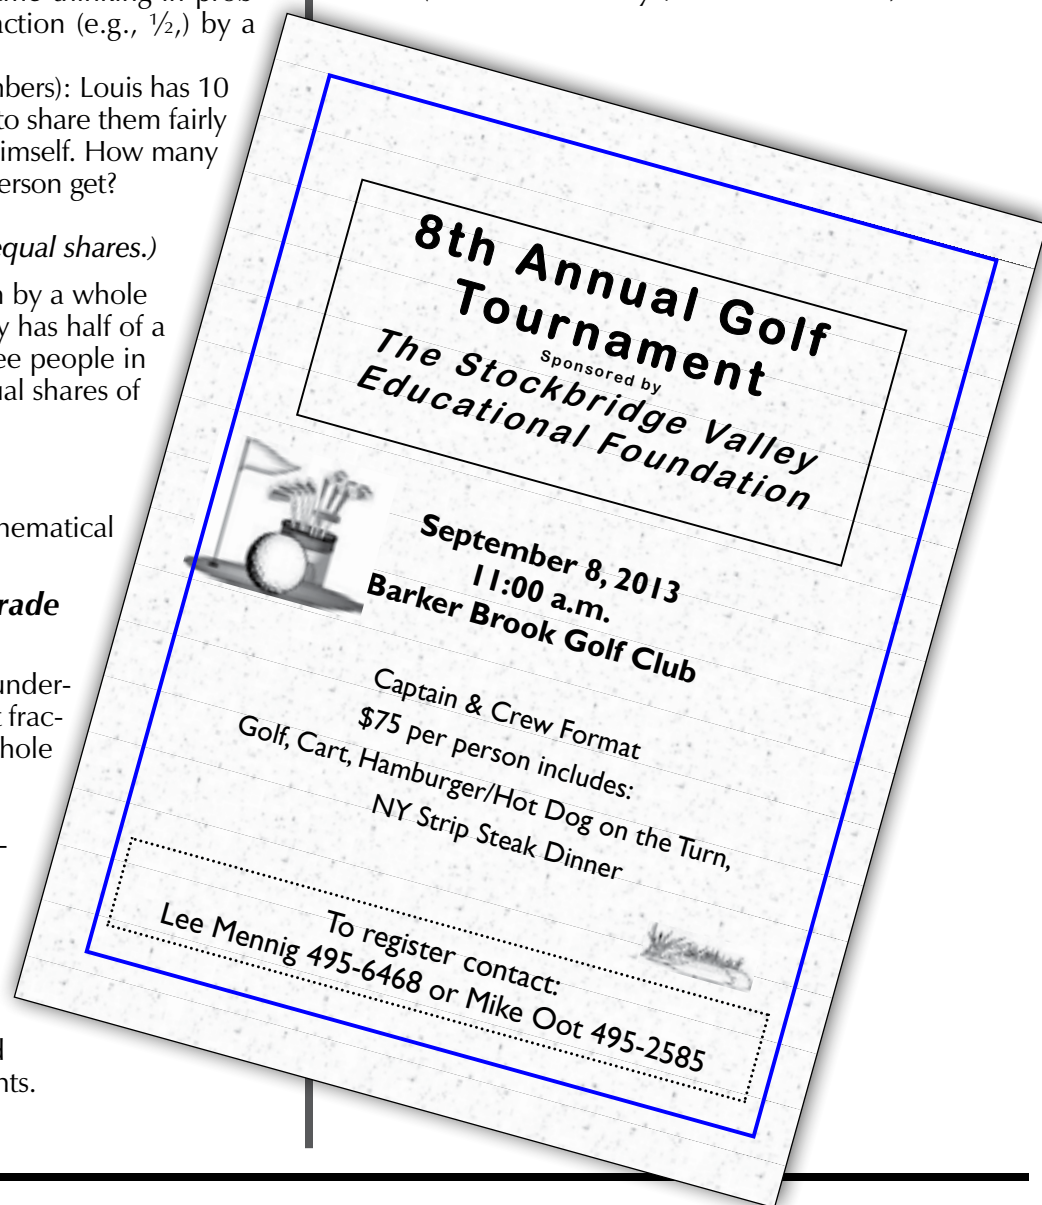

Apply and extend previous understandings of division to divide unit fractions by whole numbers and whole numbers by unit fractions.

- a. Interpret division of a unit fraction by a non-zero whole number, and compute such quotients.
- b. Interpret division of a whole number by a unit fraction, and compute such quotients.

- c. Solve real-world problems involving division of unit fractions by non-zero whole numbers and division of whole numbers by unit fractions. What part of a pizza will each person get? ($\frac{1}{2} \div 3 = ?$)

(Think: Divide $\frac{1}{2}$ into 3 equal shares.)

3. (Division using whole numbers): Eva has 18 cupcakes. She wants to have enough plates so that she can put 6 cupcakes on a plate. How many plates will she need? ($18 \div 6 = ?$)
(Think: How many 6's are there in 18?)
4. (Division of a whole number by a unit fraction): Juan has 2 pounds of raisins and wants to put them into bags with $\frac{1}{4}$ pound of raisins in each bag. How many bags will he need? ($2 \div \frac{1}{4} = ?$)
(Think: How many $\frac{1}{4}$'s are there in 2?)
