Welcoming Esther Bobowick to the CES Foundation Board of Directors

We are thrilled to announce that Esther Bobowick has joined the CES Foundation Board of Directors. Esther brings with her a wealth of experience and a deep commitment to educational excellence, having dedicated over 40 years to the field.

Esther's journey with CES began in 1988 when she started as a consultant. She transitioned to a full-time role in 1996 and faithfully served the agency until her retirement in June 2021. Her long-standing association with CES has been marked by her unwavering dedication and significant contributions, particularly in the area of professional development for educators.

Throughout her career, Esther has been a pioneer in advocating for teacher and administrator development, school climate enhancement, and the integration of technology in curricula. She has been instrumental in introducing initiatives that focus on social-emotional learning, strategic leadership, and the recruitment and retention of minority teachers. Her expertise in using both informal and formal data to track and support educational progress has been invaluable.

Esther's involvement with the CES Foundation began at its inception alongside Dr. Nancy Cetorelli. She has played a crucial role in shaping its initiatives, such as the introduction of educator professional development as an eligibility category for funding. This initiative has enabled the foundation to support learning opportunities led by national experts, enhancing the professional growth of educators.

We are confident that Esther Bobowick's expertise and passion will greatly benefit the CES Foundation Board of Directors. Her vision and dedication align perfectly with our mission to advance educational opportunities and professional development for educators. We warmly welcome Esther and look forward to her valuable contributions to the board.
