

March 2024

Dear Friend

"If winter comes, can spring be far behind?" Let's hope not! The students at Mother Seton are finishing up their second trimester and focusing on Lenten observations as they count down the days to Easter. They have been busy with activities like the STEM Fair (see photo below), a special liturgy presided over by Archbishop Lori to celebrate the feast of St. Elizabeth Ann Seton, and were anxiously looking forward to the 8th grade versus teachers volleyball game on Feb 29th to benefit Helping Hands and Caring Hearts. (Teachers won!)

And I know it's early, but the Carnival will be back on May 29th through June 2nd. That's always a fun affair for both current families and alums, so please mark your calendars!

Meanwhile, I wish a blessed Easter to you and your families!

Kate Marshall, MSS 1969

Alumni STEM Fair Judges

Once again our alumni participated as STEM Fair judges in this years annual STEM Fair in November. It's always great to have them come back and share their expertise with our current students.

(l-r) Edgar Hatter '71*, Jamie Orndorff '05, Ron Albaugh, Edison Hatter '14, Bill Little '60*, Mike Hillman, Kiernan Myles '21, Bernie Buckley, Anna Eyler '13, Julia Cobalt Wivell '20, Jeffrey Crefton '95. (*left before graduation)

Class of 2016 & 2017

Congratulations to alums Brede Laug (MSS 2016) and Matthias Buchheister (MSS 2017), both recent graduates of Pittsburgh Institute of Aeronautics. Brede (l) graduated from the Pittsburgh Campus of PIA on Sept. 30, 2023 and Matthias (r) graduated from the Hagerstown Campus of PIA on December 23, 2023. Brede is working for Republic Airlines in Pittsburgh, and Matthias begins his job with Duncan Aviation in Michigan in March.
