

WHITE PLAINS CITY SCHOOL DISTRICT
FUND BALANCE RESERVES REPORT
JUNE 30, 2024

New York State requires School Districts to adopt annually, through Board of Education resolution, the District's Fund Balance Reserve Plan

Overview

Fund Balance Reserves are created to satisfy legal restrictions, plan for the future expenditures or relate to resources that are not available for general use or appropriation.

The Board of Education recognizes that the maintenance of a fund balance is essential to the preservation of the financial integrity of the school district. In addition, it is fiscally advantageous for both the District and the Taxpayer in that it helps mitigate current and future risks (e.g., revenue shortfalls and unanticipated expenditures) and assists in ensuring stable tax rates, which is vital to the district's long-term financial planning.

New York State Comptroller (Local Management Guide - Reserve Funds, 2010):

Saving for future projects, acquisitions, and other allowable purposes is an important planning consideration for local governments and school districts. Reserve funds provide a mechanism for legally saving money to finance all or part of future infrastructure, equipment, and other requirements. Reserve funds can also provide a degree of financial stability by reducing reliance on indebtedness to finance capital projects and acquisitions. In uncertain economic times, reserve funds can also provide officials with a welcomed budgetary option that can help mitigate the need to cut services or to raise taxes. In good times, money not needed for current purposes can often be set aside in reserves for future use (Pg.1).

In addition, the Government Finance Officers Association (GFOA) states that not only is fund balance crucial to an entity's long-range planning, but also important to how credit agencies evaluate a government's continued creditworthiness. Typically, the GFOA recommends governments to have 15% unreserved fund balance. Unfortunately, school districts have a statutory limit of 4%.

RESTRICTED FUND BALANCES

Restricted Fund Balances includes amounts with constraints placed on the use of resources either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation.

Use of Reserve – The reserve may be used to retire the obligations issued to finance the capital improvement sold or for which state or federal aid is received or other obligations of at least equal weighted average life. The following items are not reserve accounts but are equally as important to planning revenues for the District.

ASSIGNED FUND BALANCE

Assigned Fund Balances includes amounts that are constrained by the school district's intent to be used for specific purposes as established by the Board of Education or by their designated official(s).

Assigned Appropriated Fund Balance (A914)

Creation – These funds are those funds in available fund balance which have been set aside for a particular purpose, namely to reduce the tax levy required to support an ensuing years budget.

Purpose – These funds are set aside and returned to the community by lowering the required tax levy to support the district's budget.

Funding Methods – These funds are assigned from fund balance to offset the next year's tax levy.

Use of Funds – It is recommended that the practice of returning these funds be reduced as much as possible, as budgets permit. As we develop tighter budgets, the amount of excess funds that will be available at year-end is restricted. This makes it more difficult to guarantee that funds will be available to be returned in a subsequent year.

Monitoring of Balance – The balance and use of these funds are monitored by the Assistant Superintendent for Business.

Funding Level – Over time, it is recommended that the planned amount of assigned fund balance included as a revenue source in future budgets be limited.

6/30/23 Actual Balance: \$-0-

Per 2024-25 Adopted Budget recommendation is to appropriate \$1,600,000; \$500,000 from Employees Retirement Reserve Fund and \$1,100,000 from Teachers' Retirement Reserve Fund as revenues in the 2024-25 Adopted Budget to offset increase in pension expenses.

Assigned Unappropriated Fund Balance (A915)

Reserve for Encumbrances

The Purchasing Agent for the district has been designated the authority to issue purchase orders on behalf of the district and these purchase orders are an assignment of fund balance.

UNASSIGNED FUND BALANCE (A917)

Unassigned Fund Balance represents the residual classification for school district's general fund and could report a surplus or deficit.

Authorized by: New York State Real Property Tax Law §1318

Creation – Retention of these funds are allowed by law.

Purpose – These funds are unrestricted and may be used for any valid purpose.

Funding Methods – These funds have been accumulated from excess fund balance.

Use of Funds – It is recommended that these funds not be used except for an emergent, unanticipated expense, or revenue shortfall, that cannot be handled either in the budget or with other available reserves.

Monitoring of Balance – These funds are monitored by the Assistant Superintendent for Business.

Funding Level – The maximum statutory limit is recommended (4% of the ensuing budget).

6/30/23 Actual Balance: \$10,265,817
