Free and No Cost College Courses for High School Students

- **1, 2, Free**
 - <https://www.mus.edu/dualenroll/index.html>
 - One-Two-Free is the Montana University System's dual enrollment program that offers students two college courses, or up to six credits, for free through participating campuses. The courses may be on campus, online, or in your high school.
- **Flathead Valley Community College**
 - <https://www.fvcc.edu/news/fvcc-offers-learning-opportunities-for-all-ages>
 - At FVCC, learning can start at any age. Eligible high school junior and seniors can take part in Running Start, an affordable way to get started on higher education by earning college credits while still in high school.
- **Pioneer Express Program**
 - <https://www.milesc.edu/Academics/PioneerExpress.aspx>
 - Miles Community College offers a number of opportunities for students to earn college credits while still enrolled in high school. Dual enrollment courses are a great way to explore college major options, and start on a college degree while still in high school, saving money and accelerating the time to degree completion.
